THE battle-ship Indiana, like every other vessel turned out by the Cramps, of Philadelphia, has not only met all the contract requirements, but has exceeded them so that the builders are likely to receive a handsome bonus. When the Iowa and Massuchesetts, now building, are completed we will at least have a few ships that are built to fight, and it is to be hoped the next Congress will provide for more of the same kind, as we are woefully deficient in battle-ships.

the Revised Articles.

HOT SPRINGS, Oct. 28.-Chancellor Leatherman rendered his decision Saturday evening in the test case taken before him by the citizens' committee, through its counsel, W. H. Martine. The chancellor held that there is no statute in the state of Arkansas to prevent prize fighting with bare knuckles, and that the proposed glove contest, from the evidence, will not be a violation of the common law making prize fighting punishable as a simple assault, because there was nothing to she that a glove contest was a prize fight. Corbett was released from custody.

In response to an interrogation as to his intentions Martin Julian, Bob Fitzsimmons' backer, said:

"I will not agree to the revised articles, nor will I consent to having the contest postponed. I will have Fitzsimmons here ready to fight on Oct. 31, and if the other man does not meet him we will claim the forfeit. If the town wants to make other arrangements we will meet them." Julian met the Florida Athletic club in

conference this morning at 11 o'clock, and the matters are now up adjudication.

# LIKE THE GREAT DELUGE. Further Details of the Storm That Swept the Gulf of California.

SAN FRANCISCO, Oct. 21 .- The story of the terrible storm that recently swept the Gulf of California has only been hinted at In the meager disputches that have been received from Mexico. The first word pictures of the gale in its awful entirety is drawn by Captain Vanhelms, master of the steamship Williametre Valley, who has just arrived from the region devas-tated by the cyclone. It is now apparent that this whiriing wind storm will go down in history as one of the most fear-

fully destructive ever known. The difficulty in getting news from the wind swept and water guined country has seemed as strange as the storm itself. The cyclone swept over a country remote from railways and all means of communica-tion. The telegraph wires were all prostrated, and many of them will remain down for weeks to come. At Guymas lit-tle or nothing seemed to be known. Letters received from points within the stricken area were incomplete, full of doubts, uninteresting and mostly written in Span-ish, and poorly written at that. These reasons and others as potent will account for the fact that the world will first learn of the partial destruction of the capital of the state of Sinalos through Capitain Vaneims, nearly three weeks after the cyelone The fury of the storm was not most felt

at Lapaz, as had been supposed, but at the Interior plateau town of Cullacan. The torm burst in the mountains back of this Important town and the waters worked an awful wreck. Between twenty-five and thirty people were drowned outright, and many others were injured in the raging flood that rushed through this city. Culinean is an historic city. In it are the state buildings of Sinaloa. Back of it are some of the richest silver mines the world has known. It is a town of fully 11,000 people. The Cultacan river runs through it

When the storm struck the ridge of high mountains back of the city there was such a downpour of rain that in an incredibly short time the canyons were full of water pent up by the very quickness with which it fell After the climax and the fury of the elements was reached this water de scended from canyon to valley and valley to plateau with a flerconess never before known in that part of Mexico.

# Not a Successful Mine Strike.

PRILLIPSBURG, Pa., Oct. 21.-The indications are that the miners' strike will not amount to much in the Clearfield and Beech Creek coal regions, whatever it amounts to in other regions. At Osceola Saturday night a mass meeting was held, and was attended by miners from all the mines in that district, some eight or ten. On the question of going on strike the vote was almost solid against, and a resolution was adopted not to attend any mass meetings in neighboring towns. Along the Beech Creek railroad the following mines voted against going on strike: Par-dee, Lancashire No. 2, Glenwood, Gearhart, Decatur, Royal, Acme and Forest The Morrisdale mines voted to suspend work until Thursday, and if the balance of the region was not out by that time to return to work. It is believed the Houtzdale miners will take the same action as the Osceola miners.

Outside Aid Saved the Town. SCHANTON, Pa., Oct. 21 .- A disastrous fire occurred early yesterday morning at Foster, a village on the Lackawanna road, twenty miles north of here. The flames originated from the explosion of a lamp in I. W. Tiffany's store, and consumed three stores, two dwellings, two barns and the Methodist church. A high wind was blowing, and the residents were almost powerless to check the flames, as the town and a steamer and hose cart from that town were sent by a special engine to Foster. The run was made in fifteen minutes, and the dastruction of the greater

portion of the village averted. Stokes Wins His Case Ampingt

# THE BEAUTY SHOW.

Although the present political campaign in this county is not creating much enthusiason among the rank and file of either party, yet there is a novelty about it that is not generally apparent in a contest for political honors. The novel feature, however, is confined to the ranks of the Democracy, and they are using it for all there's in it.

New York's four hundred goes wild over their annual horse show ; Schuylkill county goes them one better, and presents to the voters a heauty show. It undoubtedly meets with great favor among the fair sex, but the disadvantage of support from that quarter is the fact that Pennsylvania has not yet adopted woman suffrage. If the present Democratic nominees were running for office in Kansas, there would be no doubt of their election.

No Republican will dispute the claim that the nominees of the unterrified are handsome-in fact, "they are perfectly lovely ; too sweet for anything 1" The whole galaxy of Democratic beauties, from the exalted position of Judge, (which is usually filled by men of legal ability rather than personal his pay and does nothing-every type of beauty is exhibited.
