THE CYCLONE IN CUBA It Has Caused Great Damage in the Al-

ready Stricken Island. HAVANA, Oct. 22.-The latest word re-

ceived here of the progress of the cyclone, of which warning was given yesterday, is that it has caused havoe in the province of Santa Clara, the wind blowing with hurricane force at the rate of ninety miles an hour, uprooting trees, blowing down houses and laying waste cane fields. The damage which has resulted is en-

ormous, and the people in the villages in the interior are thoroughly discouraged at so many successive calamities. Details of the ravages of the storm in full are not yet known, but the danger for Havana is now over. It has been raining all over the island for over twenty four hours incessantly, and there are fears of another disastrous flood in Vuelta Abajo and in the provinces of Havana, Matanzas' and Santa Clara,

The storms will probably strike the southeast portion of Florida, and it will perhaps be more violent there than here, as it was momentarily increasing in intensity while passing over this island.

Communication with Matanzas is stop ped, as every wire is down, and the railroad track is also flooded.

Captain Lothaire accompanied us to Bonn, where the two Norwegians, the American and myself were quartered in a hut. We awoke in the middle of the night and found the hut on fire and ourselves surrounded by flames, the work of Captain Lothaire and four black policemen.

"We made our escape from the hut, and the American accosted Lothnire, asking: 'Is this our thanks?' Lothnire drew his sword and struck the American on the back with it, and the black policeman, by Lothaire's orders, bound him to a tree with leather thongs. The American being fast-ened securely, Lothaire walked up to him and slashed him with his sword, wound-
