THREW AWAY THE BULT

Mr. Wm. Thornton of 127 W. Market Street Explains How and Why De Did It.

(From the Elmira Gazet's

Old age has many infirmities, more of which are more prevalent than Kainer dis-orders. Have you ever notice I how the old people complain of backaone, lame back, and general listlessness? And there
are many other symptoms of which they
do not speak, such as bleating of the
limbs, painful and infrequent usuallia
or excessiveness of urbary discription.
Most people think they are too old to
find relief and cure, but this is not
so. No better evidence than the following, which comes from an Elmira citizen,
who has been cured of a very severe many
has not yet washed Caracas as a cycle me. who has been cured of a very severe case at 77 years of age. Mr. Wm. Thornton of 127 West Market Street, speaks of his case in this way: "I am 77 years old. I have been afflicted with that dreaded complaint (kidney discrete) for every terror of the capital on a yacation, has been afflicted with that dreaded complaint (kidney disease) for over ten years, making my old age a burden. I was so bad as to be forced to carry a belt at all times, and, when my suffering became beyond endurance, I would put on the belt drawing it tightly around me and buckle it, thus bringing an extreme pressure over the kidneys; this, undoubtedly, forced the urine out, a function which the kidneys themselves had become too diseased to perform. My condition I put down to a urine out, a function which the kidneys themselves had become too diseased to perform. My condition I put down to a traix I received. I begin taking Doan's Kidney Pills. After two or three days I noticed their effect. I was much surprised, as the allment was so severe and so long standing, while I had tried many remedies without any relief whatever. The pain I have experienced at times from straining in my efforts to discharge the urine was simply awful. I have done away with simply awful. I have done away with the use of my leather belt, and the pain has all gone, and I recommend Doan's Kidney Pills to all afflicted with kidney and urinary disorders."

England's Radical Action Causes Excitement at Washington.

NOT LIKETHE NICARAGUA AFFAIR.

Great Britain's Atlempt to shift the Issue Not Likely to become the Constanting of

Washington, Oct. 23.-Great Britain's

Some of the latest reports from London cause comment and criticism among offi cials here. One of these statements artitle-uted to Ambassador Bayard the declaration that the Uruan incident is independent of the boundary question, and that the United States can take no part in the former incid ut. It is pointed out here that the two questions are inseparably con-nected. The Urman incident is based on a claim that the Venezueians accessed Sercennt Beherens, of the British constabu-ary, on British soll, and that this indigalty must be repaired. The Venezuelaus dalm that it occurred on Venezuelan soil.

The gravity of the case depends on ownerable of the territory where the trouble took place. It is therefore considered to involve the entire territorial question, al-though it is a specific incident arising in the disputed verritory. In Venezuela's anwer to the first demand for reparation on this incident Minister Rojas said that the reparation was refused because it would be a surrender of all the claims Venezucia over had made.

As it becomes more and more evident that the British government is disposed to make it appear that the Uruan incident is parallel to the Corinto affair, and may therefore by treated in the same fashion without leading to the intervention of the United States, officials here are pointing out the essential points of difference in the two incidents, and Mr. Bayard will doubttess be instructed to emphasize these in his further representations on the subject

to the British foreign office.
In the first case Great Britain domanded and obtained an indemnity from Nicara-gua on the ground that her national honor had been our aged by the summary expulsion of her representative, although the latter was only an humble consular arent. The United States consented to stand aloof on this occasion on the theory a nation had a right to redress an in-

But, in the Urnan affair it cannot be maintained for an instant that the British government has a right to demand redress for the arrest of its officials unless it shall be first established that they were within Beitlah territory, and thus the whole issue a raised as a preliminary. If these Beitish afficers were a British territory then Venzuela must apologize and make any fur-bor reasonable reparation, but before she can be rightfully expected to do this that meetings is clearly shown and nothing but an agreement, amicable or enforced, upon the exact location of the boundary ne can settle this point

Therefore, the altempt to shift the issue, involving as it does a prejudgment of the rights of Great Britain to territory claimed by Venezuela, is not likely to secure the

DAMAGING FOR DURRANT

His Statement Contradicted by Several Witnesses

MANY VITAL PARTICULARS.

The Prisoner's Evidence on Important Points Contradicted by Fellow Students, Church Trustees and Newspaper Men. The Case May Go to the Jury Next Week.

SAN FRANCISCO, Oct. 23 .- At the opening of the court yesterday the defense in the trial of Theodore Durrant announced that it had finished its case and the taking of testimony in rebuttal was at once begun by the prosecution. The testimony was the most important given during the trial, as it conflicted with several vital state ments made by Durrant while he was on the stand. The testimony of Dr. Gilbert F. Graham, for instance, is considered by many to sweep away. Durrant's entire de-Graham, who is a medical student, and an intimate friend of Dureant, told of a sensational interview that took place between himself and the prisoner at the county jall on April 20.

Dr. Graham was accompanied to the prison by J. S. Dunnigan, a newspaper man, who was asked by Durrant to retire after he had been there a few minutes. Graham said that after Dunnigan stepped aside Durrant asked him to see his notes of Dr. Cheney's lecture in order that he might compare them with his own. Gra-ham demurred at first, after which he said that Durrant stated frankly to him that he had no notes of the lecture. He said Durrant told him if he had the notes of the lecture he could easily establish a strong alibi for himself, and urged him to leave the notes with Mrs. Durrant in order that she might bring them to him at the prison. Dr. Graham said he refused the request and never afterwards visited Durant at the prison.
While Graham was testifying the jurors

watched Durrant closely, but he gave no sign to indicate that he considered the testimony of any importance.

The first witnesses called in rebuttal by the prosecution were the five trustees of Emanuel church. While Durrant was on the stand he testified that he was asked to repair the sun burner at Emanuel church on April 1 by the trustees. The trustees denied that they had asked Durrant to make repairs of any kind at the church during March or April.

Winesses were next called to disprove Durrant's statement that on the after noon of April 12 he was at the ferry for the purpose of searching for Blanche Lamont, who, he said, a mysterious stranger had told him would cross the bay that after-noon, C. W. Dodge and C. A. Dukes, medical students, said they say Durrant at the ferry, and the prisoner told them he was waiting for a number of members of the signal corps who were expected from

A. A. Hobe, an old schoolmate of Dur-rant, testified that he saw Durrant at the ferry the same afternoon in company with a young woman who answered the description of Minnie Williams. It is known that Minnie Williams came over from her home in Alameda that afternoon, and the next day her body was found in Emanuel church. It is the theory of the presention that instead of being at the ferry to look for Blanche Lamont Durrant was there for the purpose of meeting Miss Williams and luring her to her death.

E.A. Glasser, a student at the medical col-lege, testified that on the afternoon of April 10 Durrant asked him to read aloud his notes of Dr. Chency's lecture. Glasser said he read his notes to Durrant, who devoted three quarters of an hour to writing in his note book.

Thomas Price, a chemist, called to give expert testimony, was asked practically in what condition a man wound be who had breathed illiminating gas for the length of time Durrant said he was working over the sun burners. The witness said a man would be unconscious in five minutes—the length of time Durrant said he was en gaged at work over the burner. Professor Price said the dark stain on the sole of Rev. Dr. Gibson's shoe, which was found In the pastor's study in the church, was

only a grease spot, Charles Morrison and J. H. Cooper, newspaper reporters, told of an interview they had with Durrant in the city prison on the night of his arrest. Both witnesses testified that Durrant said he had arrived at the church on April 3 between 4 and 4:30 in the afternoon. This testimony conflicts with the statement Durrant now makes, to the effect that he did not arrive at the church until 5 o'clock.

From the present outlook the case will go to the jury not later than the close of next week, after having been on trial since July ou

Wedding Gifts Returned to England. NEW YORK, Oct. 23 .- Invitations to the weating of Miss Vanderbilt and the Duke of Mariborough have been issued. The police department will assign fifty officers for duty at the church, and half that number at the reception. Several magnificent wedding gifts have been ordered sent back to England on account of the customs duties. Vice Consul Frazer, of the British consulate, has endeavored to have the treasury department permit of the articles being sent to the house and then returned, but without avail. A duty of \$10 has been assessed on one handsome diamond brooch, which the duke ordered sent back. A gift from Queen Victoria will meet the same
