Many Inaccuracies Airendy Discovered in the Arctic Charts.

LONDON, Oct. 21 .- The documents from the explorer Jackson, which were brought back by the Windward after leaving the explorer on Franz Josef land, and which were kept scaled up in one of the cabins of the Windward during her return trip, were opened yesterday and the papers were found to record that the expedition landed at Cape Flora on Sept. 7, where they erected log houses. Jackson and two others started north on March 10, with two ponies and two sledges. The temperature was sometimes 45 de-grees below zero. The punies proved to be invaluable for clambering over hummocks in the ice. The country generally was at a height of 2,500 feet, and was covered with ice sheets, which were interrupted along the coast by high basaltic cliffs, on which were found mosses and arctic flowers. Many geological specimens were taken, which show that the formation of the land is mainly basaltle.

The journey revealed many inaccuracies in the charts. The land was found on the Austria sound coast line to be very different than is shown by the maps of the Austrian expedition. Sea islands were found where the mainland was supposed to exist. The furthest point which was reached was latitude 81 degs. 20 min. north, where two boats were left for use later in the summer Three depots were also estab-

THE BEHRING SEA CLAIMS

The Canadian Commissioners Will Arrive

in Washington on Monday. WASHINGTON, Oct. 24.—It is stated offi-cially that Sir MacKenzie Bowell, high commissioner of Canada, and Sir Charles Tupper, minister of justice in the Cana-dian cabinet, will arrive in Washington on Monday next to assist in the Behring sea convention. The meetings of the convention will be held at the state department. Secretary Olney representing the United States and Sir Julian Pauncefote, the British ambassador, representing her majesty's government.

The issue involved is largely one of fact and not of law. The Paris tribunal held that the Canadian scalers captured in Behring sea had a right to be there and that they were entitled to damages for the seizure. The sealers claim over \$1,000,000. By an agreement between the late Secretary Gresham and Sir Julian Pauncefote this was scaled down to \$472,000. Congress refused to ratify the agreement, it being asserted by Senator Morgan in the senate and Representative Hitt in the house that the amount was excessive. The comfair mode of adjustment. Under the Paris award some sum must be paid by the United States, so that the only question involved is how much that payment should

Another Proof of Garfield's Loyalty, INDIANAPOLIS, Oct. 24.—In an interview printed in The News Colonel W. R. Holloway, of this city, said that on the second day of the Republican convention at Chi cago in 1880 he dined with General Garfield and Colonel Robert G. Ingersoll. Hollo-way expressed the belief that Garfield would be nominated at the end of a hard fight. Garfield turned to Holloway and sald: "That is not possible, and I hope you will not talk that way. I am here for Sherman, and am doing everything that it is possible for me to do to secure his nomination. You are known to be a friend of mine, and if you should repeat that remark it might be misunderstood.'

Fi'th Marquis of Waterford Dead. LONDON, Oct. 24.—Henry de la Poer Ber-esford, fifth Marquis of Waterford, is dead. He was born in 1844, and is succeeded by his son, the Earl of Tyrone, who was born in 1875. The marquis committed suicide with a revolver at Curragmore. He has been in failing health, owing to an acctdent to his spine while hunting several years ago. It is feared that his wife's health will be seriously affected, as it is delicate. Lord Waterford underwent a surgical operation in 1894, which afforded him great relief, but a second accident last June caused a recurrence of his trouble and subjected him to great pain.

We would not rest easy over night without it in the house." This remedy undoubtedly saves more pain and suffering than any other medicine in the world. CAPTAIN BECK'S LEGAL VICTORY

The Supreme Court Diaminas the Case of

the Floorney Company. WASHINGTON, Oct. 24. - The supreme yourt yesterday dismissed the case of the Flournoy Live Stock company against Captain Beck, agent of the Omaha and Winnebago Indians. The decision was expected by the Indian office, and it is now believed that there will be no further troubles on the Omaha and Winnebago reservation. In a report recently submitted to the Indian office Captain Beck. the agent, said that an early dismissal of the case would result in a speedy settlement of all the troubles. In every case so far tried, and in every court the decision has been in favor of Captain Beck and against the Flournoy company.

The officials of the Indian office say that they have in the past and stand ready in the future to back up Captain Beck, who has carried out the instructions of the office with strict fidelity. Although there was no doubt that the courts below would be sustained, the Indian office is pleased to have the fact established beyond all dispute that the Indian lands are under control of the office, and cannot be leased by the Indians without the consent of the just the same.

it was claimed by the Indian office that the leases obtained by the Flournoy pany did not give the Indians full value for the use of the lands, and the company was enabled to lease the lands to other parties at a great profit. The Indian office says middlemen will not be permitted to operate in dealing with Indian property, but intend that the Indians themselves shall obtain all the benefits which can be derived from their lands. This would mean the destruc-tion of the Grand Central hotel, the Ceres Mail office, the C. N. Y. and W. station, a livery stable and a number of grocery and other stores. The fire originated in the hotel kitchen. Four years ago a fire burned every business place on the Pennsylvania side of the river. The present fire is confined to the New York state side.
