#### YOUR TIRED STOMACH.

YOUR TIRED STOMACH.

"I have no appetite," you say, "and the little I do eat does me no good. At first it feels cold and dead in my stomach and by and by I have aches and pains that sometimes go to my chest and back. I feel weak, low spirited and out of sorts all over. I fancy the demon of dyspepsis has got me. That's the way you talk, and no wonder. But wait a moment. Let us reason together. Perhaps thus far your stomach is merely tired. You have been eating too much, eating the wrong things, and irregularly. You have given it too much to do, and like all living things, when overworked, it stops at length from sheer exhaustion. There may not be an actually diseased condition as yot. Still it is nature's warning, and you must heed it or worse will follow. "But I must cat or starve," you say. True enough, but safety usually lies in middle courses. Here is one for you. You don't need drastic purges or exciting stimulants. Your condition is one easily relieved if we go about it gently and sensibly. The tired stomach won't work under whip and spur. It has probably had too much of that already. What you require is something that is at once a food and a digester of food. Such an article is the Shaker Digestive Cordial, discovered and prepared by the Shaker Community of Mt. Lelanon, N. Y. Taken right after cating, so as to mix with the food, it does the stomach's work for it, gives it the advantage of further rest, strongthons you in a natomi way, and soon enables the stomach to do fall duty. There is nothing else like this simple, safe, certain and palatable retainedly. Yet the Shakers respect your doubts, and authorize druggists to sell a trial bottle for ten cents.

# AN ENGLISH SCHEME

Wants to Form an Alliance with Our Government

TO CONTROL SPANISH AMERICA.

Willing to Assist in the Enforcement of the Monroe Doctrine If British Rights Are Recognized-The Proposition Will Undoubtedly be Rejected. WASHINGTON, Oct. 25 .- Great Britain

has made a suggestion to this country to form an alliance for the enforcement of the Monroe doctrine jointly as against other nations, the preservation of peace and stability of government in South and Central America, and to compel a proper respect of international law and comity by those smaller republics.

In other words, Great Britain is willing that the Monroe dectrine should be enforced, and that the United States should exercise a protective influence over the minor republics of this continent if the English right, interest and power is recog-nized as erned in that of the United -Sinnaine

In pursuance with this idea Great Britain suggests that the two countries join in the construction of the Nicaraguan canal. This is said to come in the form of a sugcestion, not as a formal proposition. The character of the ceply, if one has been sent ret, is not known outside the state department and the cabinet circle, but the belief is that the suggestion has not been enter-

While there is no doubt that the Mon-roe doctrine would be enforced against ather nations through such an alliance, it is held that the greatest peacher would be exempted, and would become the partner of the United States to share and share allke in the direction of the affairs of this continent. England would have nothing to less by such an arrangement, and this country would have nothing to gain, and, under the present state of our diplomacy, our interests would probably soon ba-come subordinate to that of the English foreign office.

In the early part of the century Great Beer and Porter.

In the early part of the century Great
Britain, then not entirely satisfied with
the plans of the "Holy Alliance" of European powers made a similar proposition
to the United States, to the one now suggested. The proposition was then rejected, not on account of any unfriendlymess towards Great Britain, but in deforence to the policy urged at Washington
of avoiding all entangling alliances. of avoiding all entangling alliances.

#### THE PRESIDENT'S RETURN. Popular Ovations on the Trip from At-

Washington, Oct. 25 - The special train over the Southern railway which conveyed the president and a number of the members of his cabinet from the Atlanta ex-position reached the city shortly after 8 o'clock last night. The members of the party, with President Cleveland and Pri-cate Secretary Thurber in the lead, walked along the platform through the public pas-senger walding room and out the front door to their earriages. Very few persons were in the waiting roofn at the time, and but a very small proportion of them knew the personnel of the distinguished party. There was no public demonstration, only the occasional lifting of a hat by those who recognized the president and the members

of his cabinet.
The president's party on the return trip was unchanged except that Secretary Hoke Smith remained in Atlanta to make arrangements to bring his family to this city for the winter. The returning travelers are delighted with what they saw and heard, and no untoward incidents or sick-ness marred the piensures of the visit. The president and those accompanying him were particularly pleased with the ovation tendered by the people at various points along the line of the railroad, the largest crowds of which appeared at Charlotte Salisbury, Greensboro, Danville and Lynchburg.

#### A Halt in the Mine Strik

Phil.I.Pshung, Pa., Oct. 25.—The action of the miners of the Clearfield region, assembled in mass meeting at Ramey terday, has caused a halt to be ordered in the strike, and at least a temporary resumption of work in many parts of the districts affected. The mass meeting declared against suspending work at this time, and voted to send a committee of the Berwind White Coal Mining company's employes to Philadelphia to present the demand for an increase of wages, and, should the request be refused, to insist on a joint conference of operators and miners along the Pennsylvania and Beech Creek railways being held before Nov. 10. The committee left for Philadelphia last even W. B. Wilson has telegraphed advices to idle miners to resume work pending the result of the conference.

## Bonoinin's Quarantine Lifted.

San Francisco, Oct. 25.—The steamer Mariposa brings word from Honolulu that the board of health has lifted the quarantine, and Honolulu is once more a clean port. No cases of cholera have been reported for over two weeks, and there is reason to believe that the trouble has been eradicated. The Mariposa went inside of the harbor and allowed her passengers to go ashore. The vessel brought mail and passengers from Honolulu, and was fur-nished a clean bill of health by both United States Consul Mills and the local board of

Cups for Defender and Vigilant. NEW YORK, Oct. 25.—The last general meeting of the New York Yacht club for the year 1856 was held last night. A resolution was adopted that a cap be presented to the owners of Defender, in recognition of their successful defense of the America's cup in the recent match, and that a cup be also presented to Mr. George J. Gould as an expression of the club's appreciation of his generous and sportsmanlike action in putting the Vigilant in commission and placing her at the disposal of the club.

Fugitive Treasurer Taken Back.

OMAHA, Oct. 25 .- Jerome K. Coulter, formerly deputy city treasurer, who is ac cused of having appropriated \$31,500 of the city funds, arrived from New Orleans in charge of Chief of Detectives Cox. He was immediately taken to the police station, where he was lodged in jail. His bail was fixed at \$25,000.

Two Kitted for Resisting an Officer. FORT Ginson, I. T., Oct. 25.-Dick and and Zeke Crittenden were both killed at Wagoner last night by Ed Reed. Reed had a writ for Zeke, and he went to serve it. Zeke resisted and was killed. Dick then took a hand and was also shot to

Mrs. J. P. Bell, Ossawatomic, Kan. wife of the editor of The Graphic, the leading local paper of Miami county, writes "I was troubled with heart disease for six years, severe palpitations, short-ness of breath, together with such extreme nervousness, that, at times I would walk the floor nearly all night. We consulted the best medical talent.

They said there was no help for me, that I had organic disease of the heart for which there was no remedy. I had read your advertisement in The Graphic and a year ago, as a last resort, tried one bottle of Dr. Hiles' New Cure for the Heart, which convinced me that there was true merit in it. I took three bottles each of the Heart Cure and Besterative Nervine and It completely cured me. I sleep well at night, my heart beats regularly and I have no more smothering spells. I wish to say to all who are suffering as I did; there's relief untold for them "f "hey will only give your remedies just one trial." Only give your remeates just one trans.

Dr. Miles Heart Cure is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at \$1, 6 bottlee for \$6, or it will be sent, prepaid, on receipt of price by the Dr. Miles Medical Co., Eikhart, Ind.

# RUSSIA AND CHINA.

Fifteen Russian Warships Now En Route to Fusan.

A GRAVE SITUATION OF AFFAIRS.

The Representatives of the Czar, It Is Re-Heved, Will Permanently Occupy Fasan. The Situation Watched with Keen Interest by Eastern Diplomats at Washington.

LONDON, Oct. 25.—A special dispatch from Shanghai says that a Russian squad-roon of lifteen ships left Vialivostock for Chemulpo and Fasan. The Japanese fleet in Formosan waters, it is also stated, has been recalled, and it is announced on ex-cellent authority that several British war-

ships have been ordered to sail for Korea.

It is stated at Shanghai that Japan's reply to the demand of Russia that the for-mer evacuate Korea is couched in pacific but firm language, and protests again against dictation by Russia in Korean af-

It is regarded in Shanghai as cortain that Russia will permanently occupy

The Shanghal (Depatch also says that the attuation of affairs is most grave, and that preparations for the expected struggle are visible on all sides; but it is hoped that a solution of the difficulty will be found in Russia and Japan agreeing to divide

The correspondent of The Times at Hong Kong learns from a reliable source that by the recently concluded Russo-China treaty Russia obtains rights to anchor her fleet at Port Arthur, and to construct and work under Russian admin-istration railways from Nertchinsk and Tsitsihar to Vladivostock, and from Tsitsihar to Port Arthur, together with other commercial advertisers to which the most favored nation clause is not applicable. But the Chinese reserve the option to purchase the railways twenty years hence at a price to be arranged hereafter.

In an editorial, commenting upon its dispatch from Hong Kong, The Times says this morning: "Our correspondent has close relations with men who are able to penetrate beneath the surface of things. His startling news, therefore, cannot be disregarded, even, as is too probable, though disregarded, even, as is too probable, though
it be followed by an official denial. Russia cannot possibly imagine that the great
powers will view with indifference such a
destruction of the balance of power which
is almost unparalleled in its authority.
China's option to purchase the railways
is a jest almost too cynical to find a place in any serious diplomatic transaction. Under the indicated conditions Manchuria would practically become a Russian province, while Pekin would be within Russin's grip.

"Russian statesmen are so well aware of the magnitude of the changes involved that it is impossible that they should exe-cute them unless they have definitely re-solved to abandon the cautious and pacific policy of the last reign and plunge into vast and dangerous activities, to say nothing of Japan. England and Germany, and even France, in spite of her complaisance, could scarcely fall to perceive that her friendship had been exploited with unex-pected thoroughness."

WATCHED WITH KEEN INTEREST. Eastern Diplomats Greatly Concerned Over

the Eneroachments of Russia, WASHINGTON, Oct. 25.—The cable reports that a Russian fleet of fifteen vessels was on its way to Korea attracted much attention among the diplomatic representatives of the far east to whom it was shown. It is regarded as presenting grave conditions,

point nearest to Japan. being only twelve, hours' sail from the Japanese mainland.

Firther north is Won San, the strategic point in Korea, which the Russians have long sought to secure. It is on Broughtons bay, in the middle of the cast coast of Korea. The north arm of the bay is known as Port Lazaroff, and here the Russian fleet comes regularly for maneuvres. The hay is the only useful harbor in the stretch of six hundred miles along the east coast of Korea. The harbor is perfectly sheltered, and is open the year round. Leading authorities agree that it will ultimately be the terminus of the Trans-Siberian rall-way which Russia is building.

For these reasons the movement of the Russian fleet towards these points of strategic importance is watched with keen interest.
