THE decision of Deputy Attorney-General again. I was confined to the house the Elkins, as published in this issue, declaring that all men who work in the mines are miners, although they do not actually cut coal, will no doubt be a revelation. The interpretation is a broad one, to say the least, and the man who has been in the habit of looking down upon his fellow-laborer because he was not considered a miner will be obliged to pull in his horns. Under the decision they are all of one calling, and it will take time before some people will fully grasp the situation. The man who has done nothing for the past five years but load coal will receive the decision with delight, for he will be able to look up at some one and say, "What are you scowling about, ain't I a miner as well as you?" On the other hand, we imagine the miner who has won the title by hard experience of years in actually cutting coal will be disposed to smile with contempt upon the assumption. However, there need be no hard feelings over the matter, for let the interpre tation of the state official be as sound in law as possible, it will not annul the fact that there have been and there will always be "miners" and miners. The man who understands his business need not complain that the decision will overcrowd his field.

Sleeplessness is more common than it should

It is a sign of dangerous sickness, which may turn out badly.

Sleeplessness means either one or both of two things: First, kidney trouble; second, brain trouble

But if there is brain trouble, it is probably complication of the kidney trouble. Bright's disease, the most dangerous kid-

ncy trouble there is, is generally accompanied by sleeplessness. Nine times out of ten the sufferer from Bright's disease doesn't find out that he has

it until it is almost too late to be cured. The symptoms are so like unimportant sicknesses that you don't think you need a doctor, and so things go on until the doctor

can't help you. Even then Dr. Hobb's Sparagus Kidney ills would probably be able to cure you. But that is another matter.

To return to sleepleasness. No one can do without sleep for more than

a few days.

Sleepleschess is a drain on your brain and your vitality. It must be stopped or something will give way.

Dr. Hobb's Sparagus Kidney Pills will cure the clarest.

They do it by curing the kidneys, by taking away the cause of the whole trouble, by purifying the blood.

Asparagus has a special effect on the kidneys, as every one who has eaten it knows.

This effect is strengthened and made more powerful in Dr. Hobb's Sparagus Kidney

Pills.

If it is your kidneys which cause your sleeplessness, Dr. Hobb's Sparagus Kidney Pills will cure it by toning them up and giving them fresh life and strength.

If it is your brain, by cleaning and renewing the blood, through the improved acting of the kidneys, Dr. Hobb's Sparagus Kidney Pills will cure the brain by giving it fresh nourishments and new life.

Fills will cure the brain by giving it fresh nourishments and new life.

To be healthy and to do your best work, you must have enough sleep.

When you are losing it, a few doses of Dr. Hobb's Sparagus Kidney Pills will cure you and bring rest to your tired body and mind. Besides sleeplessness, the symptoms of kidney trouble are headache, nervousness, shortness of breath, evil forebodings, loss of flesh, swelling of the feet and ankles, pain in the back.

CLEVELAND AND CUBA.

The Spanish Minister Denies a Published Report.

NO PROMISE FROM THE PRESIDENT

That He Would Veto Congressional Rec ognition of the Cuban Insurgents-De Lome's Report to His Government on Our Method of Dealing with Seized Arms

WASHINGTON, Oct. 26.-Senor Depuy de Lome, the Spanish minister, says he has made no report to his government to the effect that he had assurances that President Cleveland would veto any congress resolution granting belligerent rights to the Cuban insurgents, as pub "I have made no such report, or

anything akin to it," said the minister. He added that it must be evident to thos having an intelligent understanding of the course of public affairs that no such assurances of a president's veto could be given him before legislation had been in-augurated by congress or had reached the executive branch of the government.

The minister pointed out, also, som misapprehension as to his reports to his government on the question of the policy of the United States as to restoring seized arms to those suspected of being insurgents. A cable dispatch quotes the minister of foreign affairs as saying that the United States had given assurance that seized arms would not be restored to fillbuster suspects until they had sued for them, and had thus established their own-

There is evidently, Minister de Lome said, some misunderstanding of what the minister of foreign affairs said. The United States has held seized arms until proofs were offered of their ownership, but no suits were instituted. In the cas of the arms taken at Wilmington, Del. they remained unclaimed for nearly two months. Then a ship master pres papers showing on their face that they were his. Senor de Lome was satisfied of the irregularity of the claim, yet as the papers made out a prima facie case of ownership, the United States released the arms

Senor de Lome says he does not que tion the regularity of this course, although he has information convincing him that the arms ultimately got back to the fili-busters. In the case of arms taken at Cedar Keys, Fla., the marshal has published a notice that the owners must establish their rights to arms by a given day, or else they will be forfeited to the United States.

These facts indicate the policy pursued by the United States in the restoration of arms, and it is this matter which Senor de Lome has made known to the Madrid au-
