Professor Munyon does not claim that he has one remedy that will care all complaints, but that he has prepared specific cures for nearly all diseases. He does not claim that his Rheumatism Cure will cure consumption or dyspepsia, but he does claim that it will cure rheumatism. His Dyspepsia Cure is prepared expressly to cure dyspepsia and all stomach troubles; his Cough Cure to care coughs and all lung complaints; his Catarrh remedies to cure catarrh. The same may be said of all his different remedies.

Munyon's Remedies are absolutely harmless and effect positive and permanent cures. A separate specific for each disease. At all druggists, mostly at 25 cents a bottle.

The Hou. W. D. Farnham, Jr., of 82. Devonshire street, Boston, Mass., says: "Of the many medicines I have tried to relieve the terrible distress of indigestion, I know of nothing equal to Munyon's Dyspepsia Cure. I have suffered with this trouble for many years, and during an unusually severe attack last month a friend gave me a small bottle of Munyon's cure to try, from which I received almost instant relief. I find that enese pellets produce no unpleasant effects, while performing a complete cure."

lain, secretary of state for the colonics in the British cabinet, to Sir Charles Lees, governor general of British Guiana, con-cerning the strengthening of the frontier. the increase of police and the purchase of Maxim guns in the British Gulana terri-The department has been furnished also with the detailed action of the high council of British Guiana upon the recommendations of Minister Chamberlain.

These proceedings give the full resolu-tions offered by the governor general for the purchase of a Maxim gun and ammunition, uniform, arms and accontrements They also make the surprising disclosure that the high council of British Guiana, after its members had severely arraigned Minister Chamberlain for his precipitate action in recommending Maxim guns, de-feated the resolution for their purchase by a vote of 10 to 8, thus rejecting the policy laid down by the British cabinet.

The state department was up in pos-ession of this information on Wednesday last in an official communication from a high member of the diplomatic corps, who regarded the subject as of such importance that Secretary Oiney should be in possession of the facts. When the high conneil opened its session two letters from the British foreign office, signed by Minister Chamberlain, were read. The gov ernment secretary also announced that there was an important telegram referring to the purchase of Maxim guns which would not be read until the council went into secret session. Mr. Chamberlain's letter referring to the arming of the frontier, and the building of a military road is dated Sept. 7, 1895, and is in part as fol-

"In its gold British Guiana appears to possess a considerable source of wealth, from which it may be expected that an increasing revenue can be drawn, if meas ares are taken to open up the country and to render the gold bearing region more ac-cessible to miners than it has hitherto been. To this end one of the first and most important steps is the construction of the proposed road for connecting the upper reaches of the Barin and Baana rivers, thence to be carried to the Cuyuni, at the mouth of the Avarabizi creek, and onward, if necessary, to the junction of the Uruan and Cuyuni rivers."

Mr. Chamberlain then requests informa-tion as to whether capitalists can be found who will take a concession for the gold field covering the same territory as the Venezuelan concession to a United States syndicate. He adds that inquiries are now being made in London as to the possibility of inducing capitalists there to take the concession from Great Beltain. His letter proceeds to urge the necessity for the purchase of Maxim gons and the crection of a bureacks at Uruan.

Mr. Chamberlain's propositions were ably supported by the attorney general and the government secretary, but the op-position excited many sarchestle references to the colonial secretary's letter, although the amounts involved were only \$2,835 for No. 7 North Jardin Street.

guns, atminumation and extra police, and \$1,000 for a barracks at Uruan. Mr. Duncau quoted Artemus Ward's reference to a letter, that it must have been "wrote sareastle." The people of British Guiana, he said, wanted their gold industry developed, but they were not anxious that it should be done in a foolish way.

Mr. McKinnon admired Mr. Chamberlain's energy, but thought he was acting too hastily. Wr. Webber declared that

the people of British Gulana could not of mselves defend themselves even against Venezuela, and that Mr. Chamberlain appeared to be laboring under the inspiration of a local field marshal.

Mr. Gilzean said it was perfectly impossible that Mr. Chamberlain could know the condition of affairs at Uruan. If the Maxim gun had to be used the Venezue-lans would capture it in short order and the colonial force would be annihilated. Mr. Chamberlain's letter reminded him of Lord Brassey's laying down a policy for the West Indies after his lordship had taken a three months' tour around the

West Indies in his yacht Sunbeam.
After further debate the motion was put by the government secretary and defeated:

Yes, 8; nays, 10.

The second resolution, appropriating \$4,000 for a barracks at Uruan, was adopted unanimously.

BRITISH PROPOSAL SNUBBED. We Will Not Unite with Her to Bully Spanish America.

WASHINGTON, Oct. 26.—The United States will not consider the suggestion of Lord Salisbury for an alliance for the building of the Nicaraguan canal and the direction of South and Central American affairs. It is understood that the suggestion did not come in a way to require a formal reply. It was made in a tentative way, with the intimation that it would be put in the form of an official proposition if this country should indicate a disposi-tion to consider it.

It is uncertain whether the suggestion was made verbaily by Lord Salisbury to Mr. Hayard and by him unofficially com-municated to the secretary of state. Over Alleged Russian Encroachments in China.

Should the Report be True Several European Nations Nucl Enter and Enforce a Vigorous U tim dum Against the Action of the Cuar's Covernment.

LONDON, Oct. 26.-The dispatch from Shanghal announcing the departure of a fleet of fifteen Russian warships from Vladivostock for Chemulpo and Fusan, Corea, and The Times dispatch from Hong Kong announcing that Russia has ob-tained the right to anchor her fleet at Port Arthur, and construct railroads on the Liao Tung peninsula—both of which were enbled exclusively to the Associated Press -have caused intense excitement in official circles here as well as in those having commercial relations with the far These most important statement are looked upon generally as being a sudden reopening in an unexpected quarter of

the far eastern question in its widest sense.
It is admitted here that the situation presented is so grave that, should the news prove true, it would make war in which several nations will take part more than probable. It should be added that there is every reason to believe that the story from Hong Kong is authentic, and all sources of information agree that the powers interested in the far east will find themselves confronted by a condition of scriousness which cannot be over estimated.

Since this important news was circulated the greatest activity has been displayed in the government offices here, particularly at the foreign office and at the admiralty, and the coming and going of messengers were continuous throughout the business hours.

At the different clubs the "war scare" in the east is eagerly discussed, the grave situation of affairs in Venezuela having almost completely dropped out of recollec-tion in the alarm of the moment. Nobody seems to doubt the report that, by the re-cently agreed upon Russo-China treaty, Russia has obtained rights, to which the most favored nation clause is not applica ble, which may cause a great war. The correspondent of The Times at Hong Kong, who sent the sensational news, is described by his newspaper as being in "close relations with men who are able to penetrate beneath the surface of things," and it is therefore concluded that the news he has just sent cannot be disregarded.

The impression is general in the official world, and it is re-echoed by the press, that neither America nor Germany can allow the Pacific to become a "Franco-Russian lake," as The Globe puts it, and it is generally thought that the diplomats will e sufficiently strong to combine to resist

The Pall Mall Gazette sums up the startling news from the far east with the statement that "Russia has annexed China, and, in the course of a long article on the subject, adds: "If this treaty is to stand. roll up the map of Asia." In conclusion, The Gazette urges the reoccupation of Port Hamilton by the British and the im-mediate strengthening of the British fleet "lest Japan lose her fleet at the first blow.

The St. James Gazette says: "Even war with Russia would be less disastrous than for her, without a blow, to get such a grip upon China. She could throttle all the other powers and choke off-their com-merce. Unless Russia and China give the necessary assurances, it is a case for an ultimatum, and perhaps the most serious step our diplomacy has had since the Crimean war."

An editorial in The Chronicle says: "We think that, thus menaced by Russia, Japan will refuse to evacuate Port Arthur. It is not inconecivable that if Russia attempts such a step England and Japan will form an offensive and defensive alliance. If Lord Salisbury will only be able to make up his mind what to do, and how to do it, he has a chance to gain

high credit for himself."
Naturally the public mind will be in a state of great unrest until some official utterance either denies or confirms the im-Great Britain with her hands full of trouble, large and small, including the dispute with Brazil regarding Trinidad, the serious inisunderstanding with Venezuela on the subject of boundary lines the zuela on the subject of boundary lines, the expedition preparing to reduce the King of Ashanti to submission, the still serious state of affairs in Armenia, the unsettled state of the Expetian question, and, now, the most grave condition of affairs in the

HENRY M. STANLEY'S VIEWS. He Sees No Reason for War in Russia's Alleged Advantage.

NEW YORK, Oct. 26.—Henry M. Stanley, the British suember of parliament, speak-Ing of the a domatic situation in the east

last night, said: "England will not find it necessary to fight Russis. The English are a quiet, peace loving people. They are too com-mercial, and the government will not rush into war because of Russla's action, "Bocause Russla has been enterprising

in acquiring commercial rights I do not see that it is anything to be very bitter about, or to cause violent measures. If Russia has acquired the sale right to undertake commercial operations in China any rival may well feel embittered that the privilege was lost to such rival. Still it is not a sufficient cause for war.
"China had the right to give it to what-

ever power she chose. Russia simply saw her advantage. As to China's object in the alleged cession of territory, safety in the future is the only reason I can see. China, having been defeated by Japan has been per mided that by sacrifice she can seeme the future.
