EVENING HERALD

WEDNESDAY, OCTOBER 30, 1893

Patriotism and Pensions.

WASHINGTON, Oct. 30.—Commissioner William L. Lochren, of the pension office In his his annual report, under the head "Patriotism and Pensions," says: "Thuse men who callsted early and lought the battles of the war were not moved by mercenary considerations, and unless actually disabled did not show the haste in applying for pensions manifested by who enlisted near the close of the war for large bountles, and did little actual service, and who are now the noislest in clamoring for more pensions. As compared with this latter class the real soldiers of the war have been modest in preferring claims for pensions." The report shows that the number of pensioners June 30,1894, was 969,544; new pensioners added during the year, 39,185; dropped pensioners restored, 4,206; deaths during the year, 20.816; dropped for other causes,

How to Save Money and Health.

Most people have some trouble with their health which they would like cured if it could be done easy and chesply. Dr. Greene, of 35 West 14th St., New York City, who is the most successful specialist in curing nervous and chronic diseases, makes the following offer: He gives you the privilege of consulting him, free of charge, through his great system of letter correspondence. Write him just how you feel and what symptoms rouble you. He will answer your fetter, explaining your case thoroughly, telling just what ails you and how to get strong and well. He gives the most careful attention to every better, and makes his explanations so clear that you understand exactly what your compliant is. And for all this you pay nothing. You do not leave your home, and have no dector's fee to pay. The Donotor makes a speciality of treating patients through interested medicine. Dr. Greene's Nervura blood and nerve remedy. If you write him at once you will doubtless be cured.
