#### DEMOCRATIC CAMPAIGN FOR BOODLE

It is Upon the Lavish Expenditure of Large Corruption-Fund That they Hope For Success-The Republicans Are Confident.

Pottsville, Nov. 2, 1895.

Three days before the hattle, the Republian organization is in better shape than it has been since the ticket was nominated. Around headquarters there is an air of confidence that is gratifying to the party workers who have occasion to call upon the county chairman and his fleutements. This confidence is not without reason, either. The fact that the Democratic managers are engaged in mising large sums of money in every preduct in the county is prima facic evidence that they see the atter hopelessness of their cause, and are becoming desperate. It is a sad commentary upon our form of government-where the people are supposed to rate-when the managers of a political party depend upon a corruption fund for success. I have it upon good Democratic authority that within the past week between \$2,000 and \$3,000 have been raised. This money will be used to corrupt the voters, and in an endeavor to stem the tide that has been setting in the Republicans favor. It therefore behooves every Republican to be watchful. Make it a point to see that every vote is pelled. From now until the evening of November 5th impressupou your neighbor the great necessity of voting. If this is done, the Democracy will receive the greatest rebuke it ever received.
