HALL CAINE INDIGNANT.

The English Author Threatens to Bring a Libel Suit.

A BOGUS INTERVIEW PUBLISHED.

He Refused to be Interviewed on Murderer Holmes' Book, and Yet His Private Talk | kindly Was Printed, Against His Earnest Protest-"A Shameful Breach of Faith."

OTTAWA, Ont., Nov. 25 .- Hall Caine, the noted English anthor, is greatly an-noyed at the publication of an alleged in-terview with him which appeared in an American paper yesterilay, giving what purports to be his impression of Holmes, the Philadelphia murderer. Mr. Caine disclaims every passage and every line of

the interview.

Speaking to a reporter last night he said: "Nothing in all my experience of journalism has seemed to me so ignoble and so mendacious. I have been so well treated by American journalists during my stay in the United States and Canada that 1 could not have believed that any journal would have treated me in this way. What

are the facts? On Monday last two gen-tlemen salled on me at the Everett House, New York, with a rough sketch of a book said to have been written by Holmes, and asked me in the name of the editor of a well known paper to read and speak of it.
I declined. They were importunate. I
stuck to my refusal, but I allowed them to
leave the book, and I read a portion of it.

"One of the men called again. I said I could not write of the book or allow myself to be interviewed about it. He offered me ₹250 to say anything about it to a sten-ographer. I said I would not touch the subat far \$2,500.

"He remained some moments, while I courteous and gentlemanly, and we had some talk as man to man.

"'I have your promise?' I observed, 'that nothing I say shall be printed?' "'You have,' he answered. "Then he went away. The following day I came to Canada. This morning I received a typewritten copy of this alleged interview with me, accompanied by a letter from the editor, saying he had instructed the reporter to write an account of what I had said in my private conver-sation, hoping I would allow the account to be made public, and asking for a reply by wire indicating any passage I objected to. It was, however, too late to telegraph, as the paper was already published. "All I can now do is to offer my indig-

nant protest. The interview is unauthorized. In part it is utterly false; in part it contains what I said as between man and man. On my return to New York I shall lose no time in seeing how far an action at law will lie against parties to so shameful a breach of faith."

Her mother bathed the eyes in warm milk, and the towel which she used was thrown back on the rack. Some time after Mrs. Kline wiped her face with it, and John, the 10year-old son, did likewise. The little girl was better next day, but the mother's eye began to pain her, and continued growing worse until Thursday, when she became blind. The eyes of the boy were also af-fected, and today is blind in one and the other is weakening. The mother cannot recover her sight, and the boy may be permanently blind.

Interest Many People. (From the Buffalo Evening News.)

If you were to call at 27 Front Avenue you would find a pleasant elderly lady, Mrs. Captain Henesy by name. Her kindly smile and joyous manner are to no small extent due to the escape she has had. Her own words can better describe her rescue and one can easily understand her present happy condition when they realize what slie has gone through. She says: "About five months ago I had an attack of sickness which lasted for a week and since that time I have been subject at intervals to similar attacks, some of which were longer in duration. It is hard for me to describe how I suffered. The pain would commence in my head, after which it would seem to pass down my body and settle in my back, my sides ached, my back ached, and I had a feeling of great distress in the bowels. The Increased pain which seemed to come from lying down, would be almost unbearable, my face and stomach would bloat up and I could hardly stand on my feet, dizziness made it almost impossible; this feeling was always with me even after the violence of the attack passed over. The last attack I had was the worst, and was so bad I would not have been able to tell this story but for Doan's Kidney Pills. As soon as I commenced their use I found immediate relief. The pain in my back and sides left me and the dizziness went with it; the bloating in my face and body disappeared and all distress in my bowels was gone. I have great faith in Doan's Kidney Pills; in a short time they did a great deal more for me than all the plasters and medicines rescue and one can easily understand her present happy condition when they realize in a short time they did a great deal more for me than all the plasters and medicines which I had resorted to in seeking relief and cure. I hope always to be able to procure them.

SLAUGHTER OF SEALS.

The Great Loss to Commerce by Indiscriminate Killing.

THE STARVING OF THE SEAL PUPS.

More Than Twinty-seven Thousand Lost Through the Killing of Their Mothers. The Money Loss Will Reach Hundreds of Thousands of Dollars.

WASHINGTON, Nov. 25. - Information reaches here that the revenue cutter Bear, the last government vessel to leave Behr ing sea, has just brought down some start ling evidence of the effect of pelagic seal-ing upon the Alaskan seal herd which fre-

quents the Pribylof or scal islands.

In accordance with the findings of the Paris arbitration schooners are now permitted to hunt seals in Behring sea, with spears, in a zone sixty miles around the various islands, from the 1st of August. This gives them about five weeks of good sealing. It was thought that confining fishers to spears, and reducing the season to practically five or six weeks, would stop the slaughter in Behring sea, and allow the slaughter in Behring sea, and allow the herd to recuperate. This year not less than sixty schooners began hunting in Behring sea Aug. 1, and captured nearly 40,000 pelts, about 80 per cent, of which were from females. This does not show the full extent of the injury done. The seal pups are dependent on their mother's milk for the first four or five months of their existence, and without it must suffer starvation. starvation.

Acting under instructions of their re-

spective superiors, both resident treasury officers and agents of the North American Commercial company made a careful count of the dead pure found at the close of the season, when the scaling schooners had left the sca. The census was just completed when the Bear left, and reached 27,000, and does not include those in the last stages of starvation. The same conditions prevailed last year, but the count was made with less exactness, on account of snow. It is said that the actual pecuniary loss to the United States and the com-mercial world by this needless waste of animal life would reach hundreds of thou-sands of dollars.

The United States, which has never al-lowed the molestation of breeding grounds or killing of females on land, made an effort last year to stay the slaughter going on by limiting the land killing to 15,000 immature males.

It is questionable if in the face of existing conditions and the reports of treasury officials further restraint will be exercised. especially as a request made last January by the United States to Great Britain for greater protection to the seals has been practically ignored.

It was the attempt made by the United States to stop the barbarity practiced on the seas by seizing the schooners that subjected the government to claims for damages on the part of Canada. These claims, which were rejected last year by congress, are again receiving attention from the state department, and the articles of a convention providing for a commission to sit at Victoria are being considered.

It is believed in congressional circles that unless atreaty, which must be ratified by a two-thirds vote of the senate, confines the assessment of damages strictly to vessels passed upon by the Paris tribunal, and provides a penalty for perjury on the part of all witnesses called by either government, it will suffer the same fate as did Secretary Gresham's proposition to pay to Canada \$425,000 out of hand, despite the fact that a number of the schooners belonged to American subjects and nearly three-fourths of the claims are for prospec-

Chandter's Presidential Prediction. CONCORD, N. H., Nov. 24.—The Concord Monitor, Schator Chandler's paper, editorially gives an opinion regarding the presidential situation, that the Republican convention will declare against a single gold standard; it will advocate bimetallism and demand coinage of both gold and silver as standard money, as soon as such coinage can possibly go forward in connection with maintaining the parity of the world. He says further that upon this platform Thomas B. Reed is likely to be nominated and elected by almost as big a majority as Grant had over Greeley.

Rearrested on a Murder Charge.

WILKESBARHE, Pa., Nov. 25 .- On Friday last Anthony Jemnitz and Mrs. Annie Yeasley, who were under arrest on a charge of killing the latter's husband, were discharged from custody, the district attorney refusing to prosecute. Saturday they were rearrested. Yeasley was found dead in the Blackman mine several days ago, almost covered with coal and rock, and his face and hands blackened as if by fire. He was about to be buried when the undertaker found a bullet wound in the back. It is slieged that the accused couple were about to be married when ar

Postoffice Statistics,

Washington, Nov. 25.-Postmaster General Wilson has made his first annual report to the president. The receipts of the estoffice department for the year ending June 30, 1895, were \$70,171,080, and the ex-penditures \$86,700,172. It, is gratifying, says the report, that a large position of the deficiency occurred in the first quarter of the year, and that the revenues are incre ing with returning prosperity. Mr. Wilson estimates the revenue for the year ending June 30, 1896, at \$89,793,120, and the expenditures at \$14,817,900.
