The subsequent actions of his opponents were his final vindication, as well as the most severe condemnation of what they themselves had done. The Reed rules represented the mere application of common sense, courage, and honesty to parliamentary procedure. So evident did this become that his very opponents while still in power were themselves forced to adopt his rules, and the people. by an overwhelming majority, undid the wrong they had done and replaced him as Speaker; only In a position far more secure and far more triumphant than when he had first held the chair, for he had back of him an enormously increased majority. There have been times when a statesman has triumphed after defeat because he himself has changed; but in this case it is not Reed who has changed-it is the popufar feeling. His position remains unaltered. He consistently maintained the righteousness and justice of his proceedings, and his bitter political enemies were forced by the hard logic of events to acknowledge that they had been wrong and that he had been right. Rarely in the history of American politics has any American statesman received

THE DURYEA MACHINE WON.

Contest Between Harseless Wagons Un-

der Adverse Circumstances, CRICAGO, Nov. 20.—The Charles E. Druyea gasoline motocycle finished first in The Times-Herald contest for prizes amounting to \$5,000. The contest was in every respect the most novel and the performance of the winning vehicle the most remarkable in the history of the motor vehield contests. Monday night Chicago was visited by a bitzzard, and, when the race started the streets were twelve inches deep in snow, slush and mud. In the face of these odds six motocycles made the start: The Duryea, of Springfield, Mass.; the Morris & Salom electrobat, of Philadel-phia; the H. Mueller motocycle, of Decatur, Ills.; the R. H. Maey, of New York; the De La Vergne, of New York, and the Sturges electric motocycle, of Chicago

Thousands witnessed the fight of these vehicles against the fifty-four miles of slush which constituted the course from Jackson Park to Evanston and return. Five of the contestants passed through Lincoln Park, the De La Vergne quitting at Sixteenth street. Duryea started at 8:55 and passed the Auditorium, a distance of eight miles, an hour later. He made the finish at 7:18, completing the course in ten hours and twenty-three minutes. For miles on the west side the boulevards were almost unbroken fields of snow banks and

The Morris & Salom electobat made no attempt to complete the course, but made a creditable run of fifteen miles and returned to the testing headquarters in per fect condition. The Sturges electric mo-tocycle abandoned the unequal fight after the run of twelve miles. Both of these electric motors made a surprising showing under the circumstances.

The fight for speed honors was between

Duryea, Muclier and Macy. Duryea is an American inventor and his motor is a radical departure from the foreign types used on the wagons of his two competi-tors. The carriage with which he made the race was manufactured two years ago. Since that time Mr. Duryea has made many improvements on his motor, but was unable to complete the work on the new vehicles which he had entered for the con test. He accordingly made the run with the old motocycle. The H. Mueller machine took second prize.

General Sanguily's Trial.

HAVANA, Nov. 29 .- The trial of General Sanguily, the Cuban leader, who was arrested on Feb. 24 on the charge of illegal acts against the Spanish government, was commenced yesterday afternoon. General Sanguily denied having made any appointments with the insurgent leaders, and also denied having written letters to Dr. Betancourt, of Matanzas, demanding funds to leave with his family while he took the field in the rebel cause. The state's attorexplanation and proofs. Mailed (scaled) freeney Senor Enjuldo, after a speech lasting ah hour, demanded that General Sanguily be sentenced to imprisonment for life. Counsel for the defense, Senor Miguel Viondi, denied that there was any ground for General Sangully's conviction. He pointed out that the proceedings were contrary to the provisions of the treaty between Spain and the United States, which guarantees to American citizens in Cuba a trial by a civic tribunal.

Senator Hill and the Presidency. MINNEAPOLIS, Nov. 29.—Senator D. B. Hill was tendered a reception last evening by the Hennepin Democratic league, and it turned out to be a rather sensational meeting. President Martin, in introducing him, said that he considered him see ond to no man in the party as regards able and patriotic statesmanship. If there was any exception it was Grover Cleveland. At the mention of Cleveland's name there were groans from some of the audience. Senator Hill said that the recent defeat was caused by a departure from Demo-cratic precedent. He urged the local Democrats to organize, and gave them some practical advice. His spirit of friendly inpractical advice. His spirit of friendly interest manifested clearly his expectation Chris.
