The more space effectively used in a newspaper, the more space needed in a store.—Printers' Ink. Especially when used in the people's paper, the HERALD.

The United Mine Workers Union is making preparations to establish an official organ, and the first number will appear about January 1st. What will our friend in Minersville do for patronage?

MANY people are now making their holiday purchases, and our stores are teeming with beautiful presents. A glance at the HERALD's columns before purchasing will prove profitable. There is no necessity of going away from home to buy your gifts.

AN advance of two per cent. over the rate that has prevailed for some time in this region is a concession that the miners accept with much thanks—knowing full well that no act of theirs under the present arrangement will change the rate.

EDITOR CHARLES EMORY SMITH was on Saturday discharged from custody on the charge of criminal libel, preferred by W. N. Ely, of the Girard Trust Company, the magistrate holding that as Mr. Smith knew nothing of the publication there could be no malice or intention to injure Mr. Ely.

TAMAQUA is illuminated by electricity and as a consequence the coal oil lamp has been discarded for such purposes. The people of the place now imagine that a transformation scene has taken place and that instead of being simply slow Tamaqua, the town has been transformed into the Celestial City. Great is the enterprise of the town of big Republican majorities.

The Schuykill Haven Call has passed into the management of George F. Dengler, and henceforth the paper will be printed in that town. Mr. Dengler has had considerable experience in the newspaper business, and we welcome him to the fold. Hon. Elias Davis, the former publisher, will eschew the newspaper business in all its phases, and devote his time to fields of labor more congenial with his nature.

THE friends of Senator Cameron, it is said, take very little stock in the gossip that he will be taken up as a Presidential candidate in defence to the silver element of the Republican party. They are wise, very wise. There is about as much chance for his nomination by the Republicans as there is of Calvin Wells or Charles Emory Smith going to the United States Senate. Many of Senator Cameron's friends are also inclined to the belief that he will not succeed himself in a close. In this respect we agree with them so far as the succession is concerned, but Don Cameron will have considerable to say as to who his successor will be.

THE SPRING ELECTION.

The Republicans of Shenandoah cannot begin too early to prepare for the spring elections, and perfect an organization that will result in as sweeping a victory at the polls as that of the one in 1895, but which, we trust, will be productive of greater results afterwards. The election this spring will take place on Tuesday, the 18th day of February, and we understand the Standing Committee is preparing to hold a meeting in a day or two for the purpose of arranging the preliminaries. The primaries will be conducted under the Crawford county system, the Republican electors having adopted that system at the last spring election, and were the first to introduce it into this county.

According to an act passed at the sessions of the Legislature of 1893, the nominations by party primaries for all offices within the borough must be made and the nomination papers filed at least eighteen days before election. According to the provisions of this act the nominations must, to be legal, be made before January 31st. This applies to candidates nominated at the primaries of the two parties, but independent candidates have the privilege of filing nomination papers fifteen days before the election, which will be February 3rd.

The Republican League did effective work in the last spring campaign, and can do the same in the approaching contest. Their semi-monthly meetings should be well attended from now on, as the time is none too long to inaugurate an aggressive campaign.

The alleged proprietors were held in bail for court, and the inmates were discharged.

Many very bad cases of rheumatism have been cured by it. For sale at 50 cents per bottle by Grubler Bros., druggists.

Fisher Not Guilty of Murder.

WILKESBARRE, Pa., Dec. 2.—After a trial lasting eleven days the case of James Fisher, charged with the murder of Barney Relek, was given to the jury Saturday afternoon, and fifteen minutes afterward the twelve men came into the court room with a verdict of not guilty. Fisher was at once discharged. He was suspected of being an accessory to the murder of Barney Relek, the commission merchant who was killed here about two years ago. James Hendricks was found guilty in the second degree of the crime and sentenced to twenty years; Jack Robinson pleaded and got eighteen years, and there is another man, Patrick Kearney, now in jail awaiting trial.

Jail Breaking Prevented.

ALBANY, Dec. 2.—An attempt to break Albany county jail was frustrated yesterday afternoon. "Count" Max Shimburn, William Brown, awaiting trial for bank burglary; James Cahill, indicted for attempted murder, and Arthur Maxwell and Henry Mickle, held for petit larceny, were directly concerned. At 4 o'clock Sheriff Thayer and his assistants rushed away at the bar of one of the big windows, fifteen feet from the floor. The plot had been discovered earlier, but the would-be jail breakers were allowed to work until all were apprehended.

Enforcing the Excise Law.

NEW YORK, Dec. 2.—The excise law was strictly enforced yesterday, and the police were on the alert to see that no violations should be permitted. All suspected places were carefully guarded by patrolmen in uniform, while officers in the clothing of a civilian were close by to gain, if possible, an entrance to the suspected saloons.

HOLMES' DEATH SENTENCE.

The Prisoner Listens to His Doom Without Betraying Emotion.

PHILADELPHIA, Dec. 2.—A new trial was refused by Judge Arnold in the case of Holmes, the convicted murderer of Benjamin F. Pitelak, in the court of oyer and terminer on Saturday, and the prisoner was sentenced to be hanged. The scene was an intensely impressive one. No person in the court room, however, betrayed less emotion during Holmes' ordeal than the cool, calculating murderer himself. He had been fully informed by his counsel what the result was to be, and that an appeal from the judgment of the oyer and terminer was undoubtedly to be taken to the supreme court.

After Judge Arnold had finished the reading of his opinion, denying the application for a new trial, he arose, and with him the entire assemblage. District Attorney Graham had moved for sentence, and the court was at last ready for the ordeal. Then, addressing the prisoner, the judge, with impressive solemnity, pronounced the death sentence. Governor Hastings is to name the date of execution.

After sentence the prisoner was taken back to Moyamensing prison, where he was stripped of his citizen's dress and clothed in convict garb. Mr. Shoemaker, Holmes' lawyer, says a stiff fight will be made before the supreme court.

The Military Cyclists.

WASHINGTON, Dec. 2.—Precisely at 7 o'clock yesterday morning the military relay bicycle ride from this city to New York was begun, when a message from General Miles, commanding the army, was given in charge of delivery to army headquarters at New York. This is said to be one of the longest runs of the kind that has ever been undertaken. According to schedule the distance is 240 1/2 miles, and twenty-three hours is allowed in which to cover it. This is the maximum of time and allows plenty of margin for improvement. The schedule calls for ten relays between the two points, the shortest of which will be sixteen and one-half miles and the longest thirty-five miles. Twenty men will be used in the ride.

When most needed it is not unusual for your family physician to be away from home. Such was the experience of Mr. J. Y. Schenck, editor of the Caddo, Ind. Ter., Banner, when his little girl, two years of age, was threatened with a severe attack of croup. He says: "My wife insisted that I go for the doctor, but as our family physician was out of town I purchased a bottle of Chamberlain's Cough Remedy, which relieved her immediately. I will not be without it in the future." 25 and 50 cent bottles for sale by Grubler Bros., druggists.

The Hyams Twins Acquitted.

TORONTO, Dec. 2.—In the second trial of the twin brothers, Harry and Dallas Hyams, for the murder of young Wells, the beneficiaries of whose life insurance policies, aggregating \$50,000, the Hyams ultimately became, ended in a verdict of not guilty. The jury were out only thirty-five minutes. When Judge Ferguson told the prisoners they were free they started to leave the court room, but at the door were arrested on the charge of conspiracy to defraud the insurance companies in the case of Martha Wells. The prisoners will therefore remain in prison until the matter is finally decided.

Two May be Blinded for Life.

MOUNT VERNON, N. Y., Dec. 2.—An explosion took place on Saturday in Seventh avenue, where a sewer is in course of construction. Three Italians were packing the powder in the hole of a rock preparatory to blasting, when one of the crowbars struck fire from the rock. There was a loud report, and the men were tossed up out of the hole, falling upon a pile of small stones. Two of the men are in a critical condition, and should they recover it is probable that they will be blinded for the rest of their lives.

It is estimated that at this rate of loss the seals in the Behring sea will have become extinct within the next three or four years at the farthest.

Their injuries are not believed to be dangerous.

MINISTER'S VIEW OF SCHLATTER

He Thinks the Alleged "Healer," Though "Half," Has Done Much Good.

NEW YORK, Dec. 2.—In view of the report that Schlatter, the "healer," may soon appear in New York, the Rev. A. C. Peck, director of the Haymarket mission of Denver, Colo., visiting in the east, was asked last night what he thought of Schlatter, who had been posing as the Messiah in Denver.

"Well, said Mr. Peck, with a laugh, 'Schlatter is an odd genius, anyway you take him. I believe he is perfectly sincere. Of course, I do not believe he is divine. His words and actions leave no explanation, except that he is daft.'"

The Rev. Mr. Peck said he believed Schlatter, notwithstanding his delusion, has done a lot of good, and added:

"He has made a lot of people who were perfectly well certain of that fact, and that is worth a good deal. In every city there are plenty of people who think they are sick when they are not. Schlatter makes these people think they are cured, which is just as beneficial as if they were. No, I never saw any of his cures, although I have heard of them. I have had people whom I know well tell me that he had cured them of different things, but I had not previously known they were sick. Some of them claimed relief from rheumatism. It certainly had not been sufficiently severe to make them limp."

Mr. Peck says he has been told, too, that Schlatter possesses some magnetic power. "I never took his hand myself," said Mr. Peck, "but I have been told that he communicates a kind of electric shock by contact, a phenomenon which, I believe, is not uncommon. But I believe the great crowds which flocked to him had more influence on the credulous than anything else."

'THE HOUSESMITHS' STRIKE

A Truce Will Doubtless be Arranged Between Employers and Employed.

NEW YORK, Dec. 2.—All indications this morning point to the fact that the trouble between the United House Smiths and Bridgemen's union against the firms of J. M. & J. B. Cornell and Milliken Brothers will be settled today or tomorrow at the latest. The strikers profess to be anxious to end the strike to end today, and at the same time admitted having received a communication from the Iron Langite in reply to his letter of Saturday in reference to calling off the strike pending the decision of the committees representing both parties.

Victims of Railroad Disasters.

HARRISBURG, Dec. 2.—The returns to the department of internal affairs of the steam railroads operating in Pennsylvania show that 1,528 persons were killed and 10,007 injured by them during the fiscal year ended June 30, 1895. Of those killed 99 were passengers, 447 employees, and 1,107 other persons. The passengers injured numbered 612; employees, 8,949; other persons, 1,649. It is shown by the returns that more employees were killed and injured in 1895 than in any other year since the department has been in existence. This is accounted for by the fact that the number of employees for that year was greater than for any other year. To every 432 employees there is one killed, and to every 231 one injured. Among passengers the ratio is one killed out of 4,325,718, and one injured out of 204,977.

Triple Murderer Shot to Pieces.

CYNTHIANA, Ky., Dec. 2.—Orville Eals was a farmer living near Brownsville, and his wife deserted him for John Fields, a tenant on the place. Eals induced his wife to return on Tuesday, killing Fields. Eals defied arrest and took refuge in a hut. Yesterday as dawn an attack was made by a posse. Eals began firing, and an officer named McCombs fell mortally wounded, while two men named Wells and Herbert were seriously shot. The storming party effected an entrance, and found the mutilated body of Mrs. Eals almost nude and covered with ugly wounds. The party had fired a fusillade of shots as it entered the house, and Eals was shot to pieces.

Too Ready with His Ax.

BATAVIA, N. Y., Dec. 2.—A terrible tragedy took place at the house of Willis Broughton, located about three miles south of Corfu, in the town of Darlen, early yesterday morning. Broughton was awakened by a noise in the yard, and seeing a person coming towards the house took him for a burglar, and arming himself with an ax, secreted himself in the woodshed. When the man entered the shed Broughton hit him five times on the head with the blade of an ax, inflicting fatal wounds. When a light was secured Broughton was horrified to find that the supposed burglar was his hired man, William Lanning, aged 20 years.

It is understood also that Mrs. Pabst will not fight the case if her demands for adequate alimony are granted.

Increased Rate for Miners.

POTTSVILLE, Pa., Dec. 2.—The rate of wages fixed by the committee of the Schuykill Coal Exchange to be paid miners in this region for the last half of November and the first half of December is 8 per cent. below the \$2.50 basis. This is the highest rate of wages paid since November of last year, when the rate for the first half of the month was only 8 per cent. below the basis. The average calculated rate for the present year, including the latest rate is 12 1/2 per cent. below the basis.

ALMOST INCREDIBLE.

A Professional Nurse Afflicted With Bright's Disease of the Kidneys Finds a Cure.

(From the Buffalo News.)

Mrs. A. E. Taylor has resided in Buffalo for over 40 years, her address is 350 Herkimer Avenue, as a professional nurse she has nursed back to health many a sufferer. Disease in all its varied forms have become as familiar to her as to the regular practitioner. Her occupation is one that takes the strongest constitution, but the fatigue of long watching and nursing at last brought her to a bed of sickness. Mrs. Taylor speaks of her complaint and cure as follows: "After being confined to my bed for some time my disease assumed such a serious aspect that a doctor was called in. He pronounced my ailment Bright's disease of the kidneys in the third degree and a very bad case. My limbs swelled up so that I could not walk across the floor, or indeed, help myself in any way. My face bloated up and my eyes swelled so that the sight was badly impaired. This condition continued for nearly two months without any marked improvement from the doctor's treatment. I have taken quarts of Buchu and Juniper, I tried battery treatment, but all without any lasting benefit until I felt like finally giving up in despair. Hearing of Doan's Kidney Pills I gave them a trial, and after taking three boxes I was able to get up without assistance and walk, something I had not done for months. I continued steadily to improve with their use. The swelling in my leg left, the color returned to my face, changing from a clabky color to a healthy bloom. I now consider myself entirely cured and I shall never rest-praising the little pill that saved me." "Doan's Kidney Pills are certainly a surprising discovery for kidney ailments. I shall be glad to tell anyone of the wonderful cure they performed on me."
