He met Mrs. Caro-line Proper, aged 70, while she was on the highway journeying to the house of her daughter. She was choked until unconscious, and was then outraged. Her cries attracted the attention of a farmer's wife, and she drove the brute away. Mrs. Proper died Sunday night, having been unconscious most of the time since the assault.

last Friday, but was remanded until yesterday. The surmise was that Recorder Goff was anxious to learn more of Langer man's past in order to gauge the sentence to be imposed upon him. When Langerman was taken before Recorder Goff for sentence the prisoner's counsel, Colonel Haire, moved for a new trial. District Attorney Fellows asked that the motion be denied, and his request was granted. Then the recorder rose, as everybody thought, to

pronounce the sentence upon Langerman. Recorder Goff began by describing the prisoner as a man of evil reputation, but suddenly broke off, and said that after the verdict was found by the jury he had made a personal investigation of the case, and then he made known the fact that Barburn Aub had made a confession to him. The recorder then wound up by dismiss ing the indictment against Langerman, but committed him to the house of deten-

Blood is made by your digestive organs. Your heart pumps it all over your body. It contains food, heat and nourishment, hich it gives out as it goes along.

This is the first stream. It is rich, red, bright, and rans through blood vessels called "arteries."

When it has given out all its food and life, it takes up in return all the waste matter it can collect, and starts back to where it came

Then the blood goes on to the liver and mugs, to get fresh food and heat, after which t begins its journey all over again.
