JACKSON'S SUCCESSOR. Will Not Perform Miracles

Rufus W. Peckham Named for the Supreme Court.

AN ACTIVE DAY IN THE SENATE.

Vigorous Measures Payoring the Engetment of the Monroe Doctrine Into Law. and Urging the Recognition of the Cuban Insurgents as Belligerents.

WASHINGTON, Dec. 4.—The president yesterday sent to the senate the following nominations: Rufus W. Peckham of New York, to be associate justice of the su-prome court of the United States; Blehard Olucy of Massachusetts, to be secretary of state; Judson Harmon of Ohio, to be attorney general. In executive session the hominations of Olney and Harmon were promptly confirmed, and that of Peckham vas referred to the judiciary committee. Rufus W. Peckham is a resident of Al-

bany and judge of the court of appeals of New York. It is believed his nomination will be satisfactory to Senator Hill, whose opposition was successful in preventing the confirmation of Mesars. Hornblower and Wheeler H. Peckham, the two New Yorkers whose names were sent in by President Cleveland for the supreme court instruction. justiceship now hold by Justice White, of Leuislans. Senator Hill on several occaslone has spoken highly of the new nominee for supreme court justice, who is a brother of Wheeler H. Peukham.

Bufus W. Pookham is a son of the late Judge Eufus W. Peckham, of the New York sourt of appeals, who was drowned in the wreck of the French transationatio steamer Ville du Havre on Nov. 22, 1873. He was bern in Albany, N. Y., on Nov. 8, 1806, Albany being nise the birthplace of his brother Wheeler. The prominent features in the life of the son bear a striking and interesting resemblance to those which characterise the father's. Hack was early elected district attorney of Albany sounty; each secupied a position among the first lawyers of his day at a bar famed for the presence of eminent jurists; each was elected justice of the supreme court of New York, the son in 1883

IN SENATE AND MOUSE.

The Mouroe Buctrine and Cuban Recogmities in the Upper Bedy.

WASSINGTON, Dec. 4.—The senate got down to real business yesterday. Naturally the president's mostage attracted the main attention of the day, but saids from this there were stiaring resolutions on the Mearce destrine and the Cuban rebellion, and after that the manel deluge of bills and resolutions. There were 378 bills and sixteen resolutions introduced, but a large majority of the bills were reprints of mesones which failed to pass last session Many of these, as also a large preparties of the new bills, were for private purposes. There were also several for the medifica-tion of the puntion laws. Senators Peffer, Stowart and Squire reintroduced their bills of last session percaining to sliver

Mr. Ledge, of Massackusetts, effered a resolution, vigoreus in its terms, seaffirming the principles of the Monroe dostrine, and presenting them in such form as to permit their enactment as a permanent law, rather than an expression of the polley advecated by President Monroe. In the same line was a resolution by Mr. Callors, of Illinois, and another by Mr. Allen, of

Nebrasks. The Cuban situation received some attention, Mr. Call offering a resolution for the recognition of the insurgents as belligerence, and Mr. Pasco presented resolu-tions from the city councils of Tampa and St. Augustine, Fig., expressive of the feel-ing for recognition of the insurgents. The Call resolution will be called up this afterooon, so that Cubs and the Monroe doctrine will receive early attention, although the purpose is to afford opportunity for an expression of views rather than for an im-

The session of the house was very brief. and was consumed entirely by the reading of the president's mossage. It was listened to with fair attention, but the features of the document received no sign either of approval or disapproval from the members until the conclusion of the reading, when several Democrats created a slight demonstration. When it was fluished the house adjourned until Friday.

CONTRACTS GIVEN TO FAVORITES.

A Contractor Whose Lowest Bid Was Refored Subsequently Did the Work for His Successful Competitors, Who Received a Much Higher Figure.

PHILADELPHIA, Dec. 4.-After a recess of over one week the senate investigating commistee yesterday renewed its work of nquiring into the monicipal affairs of this city. Considerable testimony was given showing that certain contractors been favored by the authorities in awards for city work, notwithstanding they were not the lowest bidders. The non-compli-ance with the specifications of contracts by these contractors, and the evident fa-voritian shown the passenger railway companies by the authorities in work done by them was toucked upon, as was the alleged padding of the city's pay rolls on bridge work.

Agent Addis, of the Chizen's Municipal association informal the caumittee that the Videanite Paving company, of which State Senator Charles A. Porter to a re-puted member, had been given the coutract for repaying and the construction of sewers and inlets on certain streets. The lowest bidder on a portion of this work was Terence P. Smart. Mr. Smart correborated Mr. Addis, and added that after complaining to Director Windrim he was given his part of the work by the Vulosuite company at the rate he had bid, not-withstanding the Vulcanite company had ne right to sublet their contract. The latter company drew the money for this work as the price they bid and cleared from \$10, 900 to \$15,000 on the contract, though Smart did all of the work.

C. Oscar Beasley, a lawyer and ex-mem-ber of councils, told of the passage of the bill giving trolley privileges to the Phila-delphia Traction company over Mayor Etuart's veto. He spoke of his failure to find a certain contract which he said was ontered into by the sity and the company no that time regarding the supervision of paving and removal of the system at such time as a better one could be found. It was with the understanding this soutract had been signed and executed that conn-cils passed the bill over the mayor's veto Bearly said the contract so completed was in pessession of the persident of soundle at that time, but he had not been able to learn where it is at present.

Mesers Debayen and Kaysor, highway inspectors, told the committee that in work done by the city attests had to have a conscrete foundation. When the railway companies did any paving their orders were to see that they laid the blocks on a

gravel base, and they were not required to coment the joints with pitch. Themas Warren, who at the previous session of the committee said he received se a day for work, while the pay rolls showed he should have received \$3, said for about two weeks last July he did not work and received no money, as he was absent from the city. The pay rolls for that time, and also a warrant bearing his name on which the money was drawn, were shown him and pronounced incorrect. The pay rolls bore au affidavit made by Superintendent of Bridges C. A. Trik declaring them to be correct.
