THE JUDICIAL CONTEST.

The action of Judge Lyon in instituting a contest for the Orphans' Court Judgeship is attracting a great deal of attention. The consensus of newspaper opinion seems to be that the action is ill-advised and likely to be detrimental to his future political prospects, and probably to the Republican party.

We do not know what information Judge Lyon has as to the number of illegal and fraudulent votes cast. for his opponent. It is reasonable to assume, however, that he has that he has knowledge of sufficient illegal votes being cast for his opponent to turn the latter's majority of 76 in his favor. If he is in possession of such information he is cor-

If Judge Lyen fails to prove his charges and the court ourned him. decides there is no cause for action, the men whose names are attached to the petition are liable for all costs incurred, and the county will not lose one penny. On the other hand, however, if it is shown that P. M. Dunn holds his certificate of election by fraudulent and irregular votes, and that Judge Lyon is entitled to the office, then the county will foot the bill of costs, and rightly so. A wrong will have been righted, and there will not be a single tax-payer in Schuylkill county to whice to such payment.

It may be, however, that the smallness of the majority returned against Judge Lyon has inal libel. caused his friends to institute the contest, in the hope of uncarthing sufficient illegal votes by a drag-net firrown over the whole county to give him a majority. If this view of the contest be true, it may not as a boomerang, and he suicidal to any ambition he may have for future political preforment. No political party could afford to take him up said I must not run, on account of futagain with the loss of prestige which a failure in a contest of this kind would entail.

That many illegal votes will be found is to be expected, but that all of these will be on the side of the Democratic candidate is assuming too much. The present ballot law, is not fully understood by the voters of limited education, and the mistakes made are no doubt many. The Republican party has as many of this class of voters as the Demoeracy, and it will therefore affect both parties equally.

Judge Lyon is reputed a man that acta deliberately, and it is not within the providence of newspaper criticism to impugn his motives until more definite knowledge in furnished the public. But in the absence of any specific charges of fraud having been alleged, the inference is that Judge Lyon's actions are not dictated by that prudence which should actuate one entering upon a serious undertaking of this nature, which it is to be hoped is incorrect.
