## COFFEE AND TEA

Man, supplied with reasoning and discerning powers, may improve his condition by the exercise of these faculties. This can be applied with very good effect in the purchase of Coffees and Teas. A good cup of Coffee depends not only on the making-but the brand of Coffee, the grade, the roasting and preparation are very important factors. We feel confident that we can meet all those requirements. A delicious cup of Coffee is a certainty if you use

Our Fancy Java, or our Fancy Blended Coffee.

In regard to Tea, we occupy a front rank, all our Teas being very carefully selected by competent judges, and a trial order will convince you that we can please the most fastidious customers. We offer nothing but good grades that are noted for quality, color and flavor, and they are sold at popular prices

The Republican Members Meet in Caucus To-day.

### SOME OF THE PROBABLE CHAIRMEN

The Members of the House Committees Will Not be Announced Before Saturday Next, Making Another Week of Inaction in That Body.

WASHINGTON, Dec. 9.—The probabilities are that the week in the senate this week will be given up largely to caucusing by all parties and that the senate daily sessions will be brief with little effort at legislation. The introduction of bills will be continued, though no work of conse-quence can be done until the committees are filled. There is nothing on the calen-dar except two speeches, one by Senator Morgan announced for today on the Behr-ing sea question, and the other by Senator

Cullom on his Monroe doctrine resolution. The Republican caucus committee of the senate will hold its first formal meeting after the adjournment of the senate today for the purpose of considering the question of filling the committee vacan-cies and selecting chairmen of the various committees. While nothing has been finally agreed upon, it looks now as if the chairmanship of the more important committees would be assigned as follows:

Agriculture, Proctor; appropriations, Allison; coast defense, Squire; census, Chandler; commerce, Frye; District of Columbia, McMillan; finance, Morrill; fisherics, Perkins; foreign relations, Sherman; immigration, Lodge; Indian affairs, Pettigrew; interstate commerce, Cultom; best made in the market. No. judiciary, Hoar; military affairs, Hawwhere else will you get equal qualities at prices as low as ours.

A last through our Cost Poors A look through our Coat Room tions with Canada, Carter; rules, Aldrich;

We are daily receiving new the senators whose names are mentioned by virtue of seniority, but there are some exceptions made necessary by the proba bility of senior members receiving other assignments. Senator Platt is, for in-stance, senior Republican on Indian affairs and territories, and the only Republican member on patents and revision of the laws, and could have his choice of the chairmanship of these committees but for the probability of his being given a place on the finance committee, in which event he would surrender his place at the head of Indian affairs to Senator Pettigrew and on the territories to Senator Davis and probably become chairman of either patents or revision of the laws.

Senator Mitchell will have his choice of the chairmanship of either privileges and elections or postoffices and post roads, but will choose the first and will thus advance Wolcott to the head of postoffices and post roads. On the other hand, Senator Teller is at the head of the Republican membership of no committee, and one of the prob-lems with which the caucus committee has to deal is that of furnishing him with an acceptable committee. Senator Chandler is not a member of the census committee, but as the existing members of the committee all get other chairmanships is unabled to take the place at the head of

Among the important chairmanships concerning which there is no certainty as yet are those of contingent expenses, claims, education and labor, enrolled bills, library, Pacific railroads, patents, pensions, railroads and revision of the laws.

There are some committees on which memberships are just as much sought as chairmanships of others. These are appropriations, judiciary, finance, foreign relations and commerce. If the Republicans organize Senator Brice will retire from the commerce committee and his place will be filled by a Republican. The aspirants are Senators Quay, Pettigrew

It appears probable that the finance committee will be enlarged from eleven to thirteen members. In that event the Re-publicans will name Senators Cameron and Platt for the two places at their dis-posal, and the Democrats would probably select Senator Daniel as their additional representative. Senators Wolcott and Lodge are slated for foreign relations. The membership of the judiciary committee has been but slightly discussed. There are two vacancies there, and it is possible they may be given to Senators Thurston and Davis, or to Thurston or some other new

manship for each Republican senator, with one to spare even after the Utah senators shall take their seats.

The house program this week is a dreary waste. Until the committees are appointed the machinery of the house is blocked and nothing can be done, save by unanimous consent. Any resolution that might be presented—and it is in this form that the sensations that agitate the lower branch of congress are usually sprung-would go down before a single objection. For this reason no attempt will be made to do any-thing until Speaker Reed announces his committees, which he now expects to have ready at the end of the week. There probably will be but three brief sessions this week. An adjournment will be taken to day till Wednesday or Thursday, and from that date until Saturday, when the committees will be announced. The indications are that practically nothing can be done in the way of the consideration of

As the president is absent on his hunting trip there is no probability that the reply of Lord Salisbury's letter to Secretary Olney's note regarding the Venezueian boundary dispute, in which congress is so deeply interested, will be sent to the use this week. There may be an attempt through a resolution to procure from S retary Olney the letter sent by him to the English premier last July and Salisbury's reply received on Saturday, but should such an attempt be made it will unques-tionably prove abortive. The adoption of such a resolution would require unani-mous consent, and there is no doubt that some friend of the administration would object to it as lacking in deference to the president in his absence

FALSE PRETENCE CHARGED.

Arrest Caused by Three Clothing Dealers of Philadelphia.

William Pensler, a Hebrew peddler of town, was arrested Saturday night by Constable Dando on a warrant issued at Philadelphis on oath of Jacob Kurtz, Heyman reeman and Louis Rosenblatt, clothins dealers in that city, charging Pensler with SURVIVED IT FOR THREE HOURS abtaining goods under false pretence. The accused furmished \$300 bail, Hirman Rubinski giving the security before Justice T. T.

The dealers allege that Pensler obtained a quantity of clothing from them on the repre-sentation that he owned a clothing store in this town. Pensier has no store and has never had one here. He claims that he did not make the representation, and alleges, to the contrary, that he is a peddler of clothing and the complainants knew him to be such.
