This appears very clear when we consider that consumption, as the name implies is but a consuming of the body's substance. Weakness and emaciation naturally result. The body of a person who does not prop-crly digest food undergoes wasting, and you may safely assume that every pale, thin person of your acquintance is not properly digesting and absorbing food. In other words, the substance of the body is being consumed and when the cough puts in an appearance they will be regarded as con-sumptives. aptives.

The symptons of consumption and those arising from certain forms of indiscution are practical identical. Therefore don't despair even if you think your langs may be affected. Turks and Kurds Pouring Into Constantipople with the Proceeds of Their Murderous Raids - Massacre and Pillage Still of Daily Occurrence.

LONDON, Dec. 13 .- The following telegram from Constantinople, dated the 6th and signed by a number of Armenians in that city, has reached London: "Armenia is in her last gasp. The work of extermination continues. The massacred peo-ple number 100,000. Half a million survivors have taken refuge in the forests and mountains, where they are fooding upon herbs and roots. Hunger and cold have begun to ravage greatly. In the name of humanity and Christianity, save us."

which they have obtained during the mas succes. They are also hopeful of a richer harvest in the event of the sultan's permitting a rising at Stamboul. Their stories, coupled with the display of plunder, have inflamed the lowest class of Moslems with an aching desire to attack the bazars. They are ready to seize upon the slightest provocation for an attack. It is unwholesomely significant of the conjunction of this state of affairs that the

still of daily occurrence, and everywhere destitute Armenians are flocking into the large towns, where there is no means of feeding them.

No news has been received yet from Zeltoun, and none is expected until all the Zeitounlis have been killed. The district swarms with Bashl-Bazouks, and every bridle path is guarded with troops.

Undeniable Evidence of Need.

BOSTON, Dec. 13 .- The news that Armenin has cabled an appeal for help was taken in missionary circles here as undeniable evidence of the desperate need of those who have suffered from Turkish depredations. Rev. Judson Smith, D. D., secretary of the American board of foreign mission commissioners, said to a reporter for the Associated Press: "The statements are entirely credible. Although information received by us shows the number killed to reach only about 50,000, since our latest advices were sent there have been a number of additional massacres which may bring the total up to 190,000, as re-lated in the appeal. We trust that the Associated Press will send the appeal broadcast throughout the hand, as the delay in receiving money is causing so much misory and destitution among the unfortunate sufferers.'

Brutal Assault and Murder.

ROANORE, Va., Dec. 13.—News has reached this city of a recent outrage being perpetrated on a white girl in Franklin county, about twenty infles from here, by a negro, who after committing the crime wantonly murdered his victim. The girl lived long enough to describe her assailant. A Bedford county negro answers to the description, and a posse of citizens started out in search of him. His whereabouts was soon discovered, but he made good his escape by jumping from a window. The names of neither party could be learned.

### THE RIGHT COURSE.

Our special correspondent at Pottsville vesterday gave a forecast of the probable organization of the Board of Poor Directors, which, if subsequent events will verify, may mean a continuance of Republican power at that institution for nany years to come. This depends entirely upon the class of appointments that are made and the imagura-
