The Controller evidently will not control in Luzerne until Judge Lynch is overruled.

The Union Traction Company of Philadelphia appears to be between the devil and the deep sea. It has a big healthy row on hand with the people and the press over increased fares, and now it looks as if there would be trouble with its employees.

LAWYER WHITEHOUSE created a ripple of excitement at Steward Hartman's feast the other night by his declaration that he intended to investigate affairs at the almshouse. It is to be hoped that if he goes into the business he will do it in earnest, and that his investigation will really investigate and not whitewash.

By the way, what was that agreement that was patched up between County Chairman Payne and Attorney Wilhelm before the late election? If Chairman Payne is anxious to vindicate himself why not demand that Mr. Wilhelm's proofs be submitted as agreed upon. The election is about six weeks past, and we have heard nothing of the matter.

AN Ashland weekly paper has quite an article on the interesting and timely topic of "What Not to Feed a Lion." As this breed of animals is quite numerous in the region about High Germany, Oakland and Germantown, and Christmas is near, it is quite appropriate to know that stuffed turkey with cranberry sauce is not acceptable to a lion's stomach, and the farmers of the neighborhood will profit by the instruction.

WHILE a lot of theorists in the United States are preaching the great benefits England has derived from free trade, and that her commercial supremacy is due to that great idea, a large and constantly growing number of Englishmen are advocating protection for certain of their industries which are being ruined by cheap products from America. At a conference held in London last week Sir James Lowther, M. P., in speaking upon the subject, referred to the healthy condition of agriculture in France as being due entirely to a protective tariff. And strangely, too, it is free raw material they want protected.

A VERY WEAK DEFENSE.

At least one county seat paper, the Evening Chronicle, has at last picked up sufficient courage to offer a defense for the awards made by Pottsville arbitrators, and that a very weak one, indeed. We say Pottsville arbitrators advisedly—no one outside of the county seat having been known, within the memory of the "oldest resident," to have been appointed on a board of arbitration. But this fact has not entirely discouraged the taxpayers of the other towns of the county. They confidently expect to witness the appointment of some one outside of the boundaries of Pottsville as arbitrator, when certain residents of that town have shuffled off this mortal coil. It is true there is little ground for hope under these circumstances, but with the "favorites" having served the county so long and faithfully, and tenure of life with them nearing an end, the residents of other towns are pardonable in indulging in the hope of deferred.

To say that the awards are given because of a weak defense is misleading and stating that which is not true, and none know it better than our contemporary. In every instance where an appeal has been taken to court the ruling of the (Pottsville) arbitrators has been reversed. But will our contemporary kindly inform us of one instance where an award was made in favor of the defendant. This is the milk in the cow-anut, which needs considerable light shed upon it, and which our contemporary very wisely avoids. It appears to be an established rule to give the award in favor of the prosecutor, so the case will be thrown into court and the defendant indicted for a large bill of costs. Nine per cent. of the awards made are against the defendant, whether the latter be a borough, corporation or individual.

But what has our contemporary to say in defense of the discrimination against other towns in favor of the county seat? Why is it that the same names appear so often as arbitrators, and why is it that they invariably reside in Pottsville and spend their leisure hours within the four walls of the court house? Why is it that taxpayers from other parts of the county are not selected for this purpose? There must be some good reason for this apparent discrimination, and the people outside of the county seat are anxiously awaiting enlightenment on the subject. Perhaps our contemporary can furnish the knowledge. We patiently await a reply.

A Book Agent and His Bike.

From the Ashland Local.

A book agent from Shenandoah, called on Mrs. Ann Burk, Girardville, yesterday, for the purpose of collecting a dollar on a book she had bought, and on which she alleges she had paid four dollars. When the book agent demanded the dollar she said she could not pay it, and the agent began to get mad, and then Mrs. Burk told him he could have his book back providing he gave her the four dollars and the silly tongue-tied agent said he would take it back if it was not soiled. Mrs. Burk handed him the book, and as soon as he got an opportunity he ran from the house and mounted his bike and peddled away like the wind. Mrs. Burk's son mounted his horse and gave chase. After a very exciting race, as far as the Hammond breaker, he saw that his horse was giving out and that the man on the bike was gaining; so he gave up the chase and returned without the rider of the book. We are unable to learn the name of this book agent.

The Coal Trade.

The anthracite coal trade, says the Black Diamond, is certainly on a firmer basis than for a long while, and we would draw attention to the fact that all rail shipments to the west are behind those of last year and also that there is not that tendency to obligate the companies down to hard and fast prices for future delivery, as was the case last year and which tended to a great extent to fix the prices and demoralize the market for 1895. It is also reported that the mines are running at less time and any movement resultant in overproduction will be sedulously avoided. Here, too, is another feature of the trade, and that is that the country element will be taking more fuel this year than last, or in fact, in consequence of the fact that they are in a position through good harvests to lay in a supply of fuel, where last year they were burning wood or scrub or anything that was igneous.

For the Sports.

The foot race between Jack Griffiths, of Girardville, and Salmon, of Mahanoy City, on Christmas Day, at the latter place, is attracting much attention among the sports. Griffiths gets two yards start.

Among those who attended the affair were the following: Misses Lottie and Flora Friedman, Katie, Maggie and Lizzie Levine, Hattie and Fannie Supowitz, Annie Yaffee, Bessie Babinowitz and Laura Jacobs, and Messrs. Shafer and Durman, Abe Sherman, Leo Rabinowitz, Jacob Levit, Abe Brown, Ike Noman, David Lieberman and Max Gittleson.

Lives of Miners in Peril.

John Monak, a Hungarian, was committed to jail at Pottsville on Saturday, charged with cutting the elevator ropes and belting at the Dodson Coal Company's breaker, at Morea. He was a former employe of the company, and because he was discharged, it is alleged, out of spite cut the ropes. The breaker had to be shut down. A number of lives were in peril. Monak was a fugitive from justice for four months.

General Logan's Secret Out.

WASHINGTON, Dec. 16.—John A. Logan's secret is out at last. In 1888 a book appeared from the press of a New York firm entitled "Uncle Daniel's Story of Tom Anderson and Twenty Great Battles." It was published anonymously by "an officer of the Union Army." Many prominent men were covertly attacked in its pages, their names being paraphrased. Some of them, conspicuously Senator Voorhees, of Indiana, published interviews in self defense. All efforts to identify the author proved fruitless. But the secret is now out. John A. Logan was the author, and "Tom Anderson" was himself. General Logan changed geographical and proper names to suit his purpose, though nearly always leaving a clew to his meaning.

FASTED FOR TEN DAYS.

Two of the Shipwrecked Sailors Died from Their Sufferings.

BALTIMORE, Dec. 16.—The British steamer Lord Erne, Captain J. Dunn, from Liverpool, arrived here last evening, having on board James Brooks, of Liverpool, second mate of the ship Belle O'Brien, of Thomas, Mo., which foundered off the west coast of Ireland during November. Brooks was taken to a hospital. He is in a serious condition, as the result of exposure in an open boat without food or water from Nov. 20, when, with two companions, he took the long boat and abandoned the O'Brien, until Nov. 30, when he was picked up by the Lord Erne. One of his companions, Cronin, maddened by his sufferings, jumped overboard from the long boat and drowned. The other, Peterson, became delirious, and died a day or so after being taken on board the Lord Erne.

The chief officer and five of the crew abandoned the O'Brien on Nov. 18 and landed safely at Tralee, Ireland, on the 24th. The rest of the crew was to leave in the long boat, but before all could enter the water and provisions be taken aboard the waves swept the boat away with the three men in it. The rest of the crew was rescued from the O'Brien on Nov. 27 by the steamer Rosmorran and landed at Plymouth, England.

When most needed it is not unusual for your family physician to be away from home. Such was the experience of Mr. J. Y. Schenck, editor of the Caddo, Ind. Ter., Banner, when his little girl, two years of age, was threatened with a severe attack of croup. He says: "My wife insisted that I go for the doctor, but as our family physician was out of town I purchased a bottle of Chamberlain's Cough Remedy, which relieved her immediately. I will not be without it in the future." 25 and 50 cent bottles for sale by Grubler Bros., druggists.

One of Schlatter's Alleged Cures.

LEWISBURG, Pa., Dec. 16.—Nathan W. Baker, proprietor of the Baker House here, asserts that he was wholly cured of acute inflammatory rheumatism, from which he was a sufferer for a score of years, through the mysterious power of Francis Schlatter, the "divine healer" of Colorado. It was only by the aid of crutches that he was able to move about when not confined to his home entirely. Miss Fasnaght, a Lewisburg girl, who was visiting Denver friends, had Schlatter bless a handkerchief and then sent it to Baker. He placed it over the affected parts of the body, and was able to walk without pain or trouble in twenty-four hours.

An American Steamer in Collision.

LIVERPOOL, Dec. 16.—The American liner Indiana, from Philadelphia, was turning in the stream here last evening, in order to land her passengers, when she collided with the British steamer Zamora, which was anchored in mid-stream. The Indiana showed a big rent in her port side, just at the collision bulkhead, through which the water rushed in a great torrent. Tugs towed the vessel to the landing stage where her passengers were landed. There was no panic amongst them, although the vessel sank three feet in half an hour. The vessel was towed to the Chester shore, and was there beached.

NEW YORK TAILORS STRIKE.

A Conflict That Adds 10,000 to the Ranks of the Idlers.

NEW YORK, Dec. 16.—The members of the Clothing Contractors' Mutual and Protective association have repudiated the contracts entered into by them with the members of the United Garment Workers of America in this city last July, and a big strike, involving 10,000 tailors in New York city, Brooklyn, Brownsville and Newark, is precipitated. The contractors are under bonds in \$100 each to live up to the terms of the agreement for one year, made during the last conflict between themselves and the organized tailors, to whom the contractors had to yield and grant their demands at the close of the struggle, which terminated three months ago.

Yesterday being the first work day in the Hebrew week the tailors found notices posted upon most all the shops stating that the employers had agreed to abolish the weekly system granted under the provisions of the new contract, and that the men would be paid in the future under the piece and task work systems. The employers further notified the tailors that they would not in the future permit walking delegates to enter their shops, and would at the same time dispense with the services of timekeepers, whose duty it was to call out the dinner hour. Three thousand tailors at once quit work.

The contractors held a meeting yesterday and decided not to permit organized labor men to run their establishments. They contend they have a right to hire and discharge whom they please, and manage their business without the interference of the walking delegates of the Brotherhood of Tailors.

The executive committee of the United Garment Workers met last night, and it is more than probable that over 10,000 workers will desert the shops.

Uproar in Bulgaria's Sobranje.

SOFIA, Dec. 16.—At the meeting of the sobranje yesterday M. Neitchoff, a deputy, opposed voting any money for the government owing to its attitude upon the religion of the heir apparent, Prince Boris, who, according to the announcement made to a deputation of the sobranje by his father, Prince Ferdinand, is to be baptized in the Orthodox Greek (Russian) church. The president ordered M. Neitchoff to desist, but the latter persisted, and the president and government officials thereupon left the chamber. When the president returned he was greeted with a great tumult, and again retired, but he soon returned and ordered the removal from the chamber of M. Neitchoff. The ushers were attacked and beaten and finally expelled by some of Neitchoff's friends and partisans, while others of them led M. Neitchoff out of the house. The president declared that he would resign, and left the chair, but was literally carried back by a majority of the deputies.

Murderer Betrayed by His Wife.

CHICAGO, Dec. 16.—Captain Elliott, of the central police station, received a telephone call from the Philadelphia authorities to the effect that a man answering the description of Jack Daley, alias Doyle, who is wanted here for the murder of John Callahan, is now in the custody of the police of that city. The prisoner is held there under the name of William Seales, and was given up to the police by his wife, who, it is said, told them that he was wanted in Chicago for the murder of Callahan, who was shot in a coal office on State street March 17 last, and died in the county hospital four months later.

Five Killed by a Falling Boulder.

KNOXVILLE, Tenn., Dec. 16.—News reached Knoxville today of an awful disaster which occurred at Big Stone Gap, Va., Saturday noon. Five white laborers, who were working on a cut, and had stopped for dinner, were crushed under a ledge of rock projecting from an embankment. Suddenly and without warning a large boulder broke loose and came down upon them, causing the instant death of all. The names of only two could be learned. They are: George Hardin, of Rural Retreat, Va., and George Belton, of Lexington, Va.

Mysterious Suicide Identified.

BUFFALO, Dec. 16.—The mystery of the identity of the young woman who committed suicide in a boarding house on Main street on Dec. 2 has been solved. She was Miss Edith Yerks, of Waterford, Canada. The suicide, it will be remembered, had deliberately and carefully destroyed every trace which she thought likely to afford a clue as to who she was. She was identified by means of trunk key, Captain Yerks, the dead girl's father, was communicated with, and afterward identified the body at the morgue.

Nicaragua Economizing.

WASHINGTON, Dec. 16.—The diplomatic representation of Nicaragua to the United States has been discontinued for the first time in many years, and as a measure of economy no legation will be maintained at Washington. ALMOST INCREDIBLE.

A Professional Nurse Afflicted With Bright's Disease of the Kidneys Finds a Cure.

(From the Buffalo News.)

Mrs. A. E. Taylor has resided in Buffalo for over 40 years, her address is 250 Horner Avenue, and a professional nurse she has nursed back to health many a sufferer. Disease in all its varied forms have become as familiar to her as the regular practitioner. Her occupation is one that taxes the strongest constitution, but the fatigue of long watching and nursing at last brought her to a bed of sickness. Mrs. Taylor speaks of her complaint and cure as follows: "After being confined to my bed for some time my disease assumed such a serious aspect that a doctor was called in. He pronounced my ailment Bright's disease of kidneys in the third degree and a very bad case. My limbs swelled up so that I could not walk across the floor, or, indeed, help myself in any way. My face bloated up and my eyes swelled so that the slight was badly impaired. This condition continued for nearly two months without any marked improvement from the doctor's treatment. I have taken quarts of buchu and Juniper. I tried battery treatment, but all without any lasting benefit until I felt like finally giving up in despair. Hearing of Doan's Kidney Pills I gave them a trial, and after taking three boxes I was able to get up without assistance and walk, something I had not done in months. I continued steadily to improve with their use. The swelling in my left leg, the color returned to my face, changing from a chaffy color to a healthy bloom. I now consider myself entirely cured and I shall never rest praising the little pill that saved me.

"Doan's Kidney Pills are certainly a surprising discovery for kidney ailments. I shall be glad to tell anyone of the wonderful cure they performed on me."
