REPUBLICAN STATE CONVENTION.

To the Republican electors of Pennsylvania, the Representatives of Pennsylvania, by their duly chosen representatives, will meet in State convention Tuesday, April 25, 1906, at 10 o'clock a. m., in the open house, city of Harrisburg, for the purpose of nominating two candidates for representative at-large in Congress and thirty-two candidates for Presidential electors, the selection of eight delegates-at-large to the Republican National convention, and for the transaction of such other business as may be presented.

By order of the State Committee.
M. S. QUAY, Chairman.
W. R. ANDREWS, Secretaries.

This trouble with a great many county politicians is that they are on the retired list and don't know it.

JAMES J. ISOVILLA has just lost a law suit favoring the ownership of a calf. It is a long time since Jim was an adolescent dream to the ex-United States Senator.

SENATOR QUAY has denied that he advised Cameron to get out of the Senatorial race. The withdrawal, however, has had no apparent evil effects upon the Junior Senator's health.

THE Red Cross has been overwhelmed with applications from doctors and nurses for the privilege of going to Armenia and assisting in its humane work. There is a hospital which does not carry guns.

It is said that in early life Dr. Munyon's greatest ambition was to become a water-color painter. He did not then expect that his pencil would make him more famous than his brush, and his pen do more for him than either.

THE air gun is again getting in its work, and the only remarkable thing about its use is that more fatal results are not recorded. Parents cannot be too careful in prohibiting the use of these dangerous playthings in the hands of their children.

LOUIS DENRAVEN has arrived in this country, but has not opened his budget of charges against the New York Yacht Club. It is noted that his reception this time was not as cordial as on his previous visit.

WHEN Mr. Henderson, of Iowa, said the Cleveland Administration had emptied the Treasury and kept the nation oscillating between chills and fever, he described the exact situation without any waste of words. Chills and fever it has been.

IT is quite interesting to learn that England has invited Holland, among other nations, to come over and co-operate with her against the policy of the United States. This recalls the equally interesting fact that there was a time when Holland, without waiting for an invitation, went over to England, drove James from the throne and whipped the whole shooting match.

THE constitution adopted by Utah has been approved by the Attorney-General and on January 4 of the coming year the President will issue his proclamation admitting Utah as a state of the Union. The terms of state officers will begin on January 6 and the new government will have begun to exist. The admission of Utah will increase the number of states to 46 and add a star to the national flag.

IN his annual report Secretary of Internal Affairs Latta deals with the subject of realty assessment in a manner that shows the present system to be anything but just and equitable. Much complaint from the inequality of assessed values of real estate is made in Shenandoah for the past several years is apparent, making some pay more than their full share of the county burdens, while others escape with but partial payment. The law itself is all right, if honestly administered. Secretary Latta shows that the ratio of real value to assessed value varies from 25 to 75 per cent, in the various counties of the state, while the law requires all property to be assessed in its real value, or what it would bring at a public sale. But this is disregarded nearly everywhere by the assessors and the county commissioners. In many of the counties, if not in all, the local assessors make the valuation low in order to keep down the amount paid to the county, because a high tax rate for local purposes on a low valuation does not increase the amount of the local taxes, as a certain sum of money is required for schools, roads, poor, etc., while a higher valuation at once runs into money for county purposes.

Street Car Robbers Captured. SAN FRANCISCO, Dec. 28.—Three of the four robbers implicated in the holdup of a Mission street electric car Christmas evening, whereby Reuben Clark, J. Bronner and Patrolman Joseph were wounded, and the former relieved of a large amount of currency, were captured Thursday night and are now lodged in the city prison. They proved to be Joseph Middleton and Henry R. Gardner, members of the Eureka, Humboldt county, fire department, and Patrick Welch of this city. The stolen money was recovered. One of the robbers confessed.

Charged with Arson. CHICAGO, Dec. 28.—Tenants of the Phillips apartment building, Nos. 250 to 252 Fifty-fifth street, were driven from their beds by fire and alarm of fire at 12:30 o'clock in the morning. Mrs. Sarah Atkinson, an invalid, was carried from the place in a state of hysteria and removed to the hospital, where it is feared the excitement may result fatally. The fire started in an upholstering shop on the ground floor. The proprietor of the shop, Charles Katzman, has been arrested on suspicion of arson.

Weeding Out Non-Fuelists. PHILADELPHIA, Dec. 28.—Great satisfaction was expressed today at strike headquarters, Eighth and Callowhill streets, over the fact that no new non-fuelists were reported on any of the street car lines. Frenchmen Eclogize Cleveland.

PARIS, Dec. 28.—In spite of the first expressions of the French press, which inclined to the English view of the Venezuelan dispute, a very strong current of public opinion, perhaps a controlling one in Paris, has developed in favor of the American side of the question. This is illustrated by a notable article in the Figaro, by "Whist," one of the leading political writers of France, and by many other signed articles now appearing in the press. The Figaro praises President Cleveland's attitude as quite statesmanlike, and scents the idea that he is simply seeking re-election.

Opposed to Rebuilding the Constitution. WASHINGTON, Dec. 28.—The secretary of the navy, in response to the senate resolution, has prepared an estimate of the cost of rebuilding and equipping the historic old ship Constitution, now stationed at Portsmouth. The estimate places the cost, with modern battery, at \$150,000 and with a battery at \$38,000. The ship can be put in a good state of preservation and reproduced as she was when she performed her memorable service at a cost of \$230,000. The secretary advises against the rebuilding of the ship for active service.

The Battleship Kentucky. WASHINGTON, Dec. 28.—The twin sister of the new battleship Kearsarge has been named by Secretary Herbert after the state of Kentucky. It has been the custom of the navy department to defer the announcement of the name of a new vessel until just before the launch, but as Congress itself has anticipated the selection of a name in the case of the Kearsarge it was believed to be better to name her sister ship at once, instead of allowing her to be known for the three years she will be under construction as "Battleship No. 6."

To Fight the Traffic Agreement. WASHINGTON, Dec. 28.—Chairman Morrison, of the interstate commerce commission, yesterday sent to the senate a copy of the articles of organization of the Joint Traffic association and also a copy of a letter which the commission has sent to the attorney general. The commission says the agreement is in conflict with the interstate commerce law and requires the attorney general to direct the United States attorney for the southern district of New York to institute proceedings to prevent its being carried into effect.

The same team went a half mile, standing start, with pacemakers, in 50.15 seconds.

T. Marshal McHenry and one outlaw was shot dead. McHenry, in attempting the arrest of the outlaws, was shot through the head. McHenry's stepson, 16 years old, shot the murderer dead in his saddle. The committee decided to report the McCall resolution in a modified form, as agreed upon. It calls upon the president for information as to the alleged utterances of Mr. Bayard, and the correspondence on the subject. The resolution has been very much toned down and made mild in comparison to what it was when introduced.

CHICAGO, Dec. 28.—Tenants of the Phillips apartment building, Nos. 250 to 252 Fifty-fifth street, were driven from their beds by fire and alarm of fire at 12:30 o'clock in the morning. This means the wiping out of the differential which has so long existed between the mining rates in Ohio and the Pittsburgh district.

THE BALTIMORE AND OHIO.

Vice President King Declares the Road Will Meet All Obligations.

NEW YORK, Dec. 28.—Vice President Thomas M. King, of the Baltimore and Ohio Railroad company, said to a representative of the Associated Press in relation to the persistent rumors affecting the financial credit of the company: "You may unqualifiedly deny the rumor that the Baltimore and Ohio railroad is selling its holdings of Western Union Telegraph stock, and not a single share of the stock has been disposed of. You may also deny the report of an impending default on the part of the company. The money to meet all interest charges due next Wednesday is now in the bank. The report that the management has discussed the issue of \$10,000,000 to \$15,000,000 of new preferred stock is also without foundation."

A Happily-Timed Suggestion, and the Result.—A Cure for Catarrh That is Remembered With Grateful Pleasure—It Relieves in 10 Minutes.

"What did you do for it?" This is a question frequently asked of Rev. W. H. Main, pastor of the Baptist Emmanuel church, corner Normal Ave. and Rhode Island street—one of Buffalo's most popular clergymen, and a firm believer in the unfailing curative virtues of Dr. Agnew's Catarrh Powder. He had previously tried in vain many different remedies for catarrhal powder. Instead of relief, some only gave additional distress, until a happily-timed suggestion induced him to use Dr. Agnew's Catarrhal Powder.

"That benefited me at once," is Rev. Mr. Main's reply, and he praises the easy and convenient way of using the remedy quite as much as he does its quick permanent relief. Nothing else takes its place as a cure for catarrh. 50 cents. Sold by S. P. Kirkin.

Important Naturalization Opinion. SAN FRANCISCO, Dec. 28.—Judge Morrow rendered an important opinion in the United States district court yesterday on the writ of habeas corpus asked for by Goo Hop, a Chinaman who arrived from Pekin three months ago and was refused permission to land, although he had papers showing that he had been naturalized by a New Jersey court. Commissioner Peacock recommended that Goo Hop be remanded "for the reason that there was no law conferring the right of naturalization upon mongolians or natives of China." Judge Morrow said: "I heartily agree. The matter of naturalization is exclusively within the control of the government of the United States, and not of the states."

TRAITS OF ANIMALS.

THE DIFFERENCE BETWEEN THE CAT AND THE TIGER.

Peculiarities of Each.

The cat and the tiger belong practically to the same genus or family.

But they vary in habits and natural tendencies. A tiger will spring upon and destroy a deer.

A cat will watch for hours and take delight in destroying vermin.

Each organ in the human body has its special function or duty to perform and does it.

The stomach seizes upon our food, digests it, and so prepares it as to nourish the various tissues.

The kidneys, on the other hand, have different work to do.

Like the cat they lie in wait and seize and throw out from our blood every poison, impurity, and disease germ as fast as the blood passes through them.

They are not simply filters. They know what to seize and throw out of the blood, and what not to touch.

Like a detective who knows every criminal's face, they know in a moment the good from the bad.
