JUDGE DUNN assumed the duties of his office as Judge of the Orphans' Court Yesterday. While there is not much of a chance to obtain high distinction in the office there will be many important questions affecting estates to be passed upon, and we have no doubt the new justice will adjudicate them satisfactorily and we predict an honorable career for him-if the court appointed to try the contest inaugurated by ex-Judge Lyon does not oust him from the office.

ANOTHER call for gold and the sale of \$100;-000 000 of bands! Verily the Cleveland administration is giving the country an object lesson with a vengeance. The yearly income of the government was not exceeded by the expenditures from 1864 to 1894, but in the latter year the excess was \$69,803,200.58, while in the year ending June 30th, 1885, the excess was \$42,500,223.18, or a total of \$112,-608,483.76. Had the McKinley tariff remanuel in effect this deficit would not have occurred, and now that the Republicans have proposed a horizontal increase, it is strongly ontinuated that the President will very it. He profers to mid to the public deletrather than neknowledge his error.

Electric callway franchises are sometimes an expensive grant to municipalities. The city of Tacoma, Washington, has at least found it so, and in a manner that is not generally taken into consideration when franchises of this character are granted. In repaving one of the principle avenues in that city, along which runs an electric car line, it was found that more than one-half of the surface and connecting pipes, running from the water main to the buildings, had been eaten away by the electric current through the rails as to be useless. The pipes were replaced by the city at a cost of more than \$1000. All franchises hereafter granted in Tacoms will contain a clause that the company shall repair damages thus caused:
