By order of the State Committee.
M. S. QUAY, Chairman.
W. B. ANDREWS, Secretaries.

NEVER hunt for a gas leak with a lighted match. A man in Virginia who did is dead.

THE much-talked-of judicial contest in this county is now on its earnest, and will soon know what is what.

THE boys of South Africa and the mountaineers of Cuba are just making a happy new year for either England or Spain.

If Lord Salisbury were as clear-headed as far-sighted and as free from obstinacy as Gladstone, there would be no difficulty whatever in settling the Venezuelan boundary dispute. But he is not.

LOWELL said in 1895 that no greater calamity could happen to this country than war with England, except being afraid of war. His words seem to be appropriate to-day.

IT is a good thing for every man to stick to his trade. A Shenandoah householder, who is a leak plumber, attempted to put a washer in a leaking spigot without first turning off the water, but he'll never do so again.

IN the majority of cases, the filing of remonstrances against liquor licenses in this county is a mere farce, and a reform is badly needed. It cannot come too soon, either.

CANADA is proud of the slap on the back Roseberry gave her on her patriotic impulses in the Venezuela matter, but does not feel quite so elated over the slap in the face Premier Greenway gave her on the Manitoba school question.

WHAT this country needs just now—and badly, too—is an increase of about one hundred million dollars annually in its revenue, a lot of war ships and a good lot of forts along the sea coast near our large cities, so that when we make threats the next time they will impress people a little more strongly.

MAYOR WARWICK has publicly denounced the Senate Investigating Committee that is lexing Philadelphia as "unfair and un-American." The Combine is squealing early, and the probe is drawing too near for comfort for some of Philadelphia officials. His Honor is evidently in a great state of excitement, judging from the tone of his interview.

The number of breaker fires recently leads to a very strong suspicion that they are not all caused by accident. It is true that the smallest spark will set a breaker ablaze, and when once started it is almost impossible to save the building. In the case of the Park No. 2 breaker much sympathy is expressed for both employer and employee. In the case of the former he sustains a loss reaching into the thousands of dollars, while the miner is compelled to endure the hardships of the unemployed in midwinter.

AN act was passed at the last session of the Pennsylvania Legislature in reference to the establishment of free public libraries in the several school districts of the Commonwealth, except in cities of the first and second class. If its provisions are steadily observed for a few years every township, borough and minor city in the state can possess itself of a good collection of books for public use at very trifling cost to taxpayers. The new law is not mandatory, but it gives authority to Boards of School Directors to levy a tax not exceeding one mill in any one year on the valuation of property assessed for school purposes in the district, to be collectible as school taxes now are. No new buildings will be required to house these libraries, as authority is given to set aside a portion of any school house for library purposes, and the books can be made accessible on Saturday, which is a universal school holiday throughout the year in the state. The success of the Shenandoah free library, and the manner in which it is conducted, should be sufficient to encourage other school districts in the county to take advantage of the provisions of the law quoted. The public schools and a free library go hand in hand.

PHILADELPHIA'S INVESTIGATION.

Accused Policemen Will be Given an Opportunity to Defend Themselves.

PHILADELPHIA, Jan. 11.—Yesterday's session of the senate investigation committee was devoted to an sensational result. Several ex-policemen told of political assessments being levied, and other witnesses told of the prevalence of "speakeasies" and of policemen abusing citizens.

Late Thursday night Mayor Warwick issued a public statement in which he denounced the committee's method of taking testimony as being unjust and un-American. The mayor felt that the accused should have an opportunity to defend themselves, and he intimated strongly that factional politics entered largely into the investigation.

Lawyer Pettit replied to this yesterday, before the committee, and said that the accused would all be given an opportunity for defense, and that the committee would be glad to receive advice and suggestions from the city officials. This was followed by Lawyer A. S. L. Shields asking that the committee permit him to cross examine witnesses who had made charges against citizens of his. The committee said it would discuss the matter next week, and then adjourned until next Thursday.

Ex-Policeman Naylor was arraigned before Magistrate South yesterday on a charge of perjury preferred by Sergeant Richards. Reference to the official testimony showed that Naylor had made no charges against Richards, and it was further shown that the warrant had been sworn out on the strength of newspaper reports. Naylor was released from custody.

A Townsman Interviewed.

From the Pottsville Chronicle.

B. G. Hess, of Shenandoah, was a welcome caller at the Chronicle office last evening. Mr. Hess has just returned from an extensive trip through the southern states and speaks in glowing terms of the prospects and possibilities of the south. He is an excellent conversationalist and his description of the Atlanta exposition is a very interesting one, viewing it from a Northerner's standpoint. Mr. Hess is a veteran of the late war and served his country with distinction during that trying period, having enlisted at the age of 17 years, running away from school to do so. He is also something of a musician and at one time was identified with several good vocal organizations. He came to Pottsville yesterday afternoon and took in the concert given by Sousa's Band. Mr. Hess has roommates in the newspaper business. They are the successful editors and publishers of the Shenandoah News Ledger.

"Our Wandering Willie."

The Williamsport News of yesterday says: "The respectable Bill Setley, the well known bill tresser and medical assistant, is in Key West at present. He writes to this city that he leaves for Cuba on January 10th to play ball in Havana. If he ever gets there alive he will play ball to a comradely assumption and cannot balls may find him a safer mark than that potato which came here with him from the wilds of Look Haven. After leaving Cuba he will go to Texas and manage the Austin ball team. The state is large and his voice will have a wide scope, if the state does not become too hot for him."

"Jacques St. Clair" Under Arrest.

PARIS, Jan. 11.—A journalist named Rosenthal, who is well known as a writer for the Figaro under the name of "Jacques St. Clair," and who also acted as Paris correspondent for a New York paper, has been arrested in connection with the scandal growing out of the settlement of the estate of the late Max Lehmann, the unfortunate, wealthy young conscript who was apparently hounded to death by blackmailers and others, and who left his fortune to Mile. Marsy, an actress of the Comedie Francaise. On Thursday it was announced that the Vicomte Elrie de Civry, editor of The Echo de l'Armee, had been arrested on the charge of blackmailing young Lehmann, and the same day it was stated that M. Balonni, a banker, also charged with blackmailing Lehmann, had absconded, leaving liabilities amounting to 6,000,000 francs, of which sum 2,000,000 francs are said to have belonged to the Lehmann estate.

Scaries Again Refuses to Answer Questions

WASHINGTON, Jan. 11.—The district attorney put Secretary Scaries, of the sugar trust, on the stand yesterday in the Chapman trial, but as soon as he asked the first question Mr. Scaries read a written statement to the effect that as he himself was under indictment for an alleged misdemeanor he would avoid himself of his constitutional right to refuse to answer questions that might incriminate himself. There were arguments on the question, but no decision had been reached when the case was adjourned until Monday.

John McBride's Farewell.

MARSHFIELD, O., Jan. 11.—John McBride has written out his formal farewell to the American Federation of Labor. He speaks in generous terms of Samuel Gompers, and reiterates his determination, expressed during the heat of the late convention, as follows: "I shall never again seek or accept official life or official responsibility in the labor movement, but whenever opportunity offers or occasion demands my voice and pen will be used to aid and relieve suffering humanity and oppressed labor."

Broke His Arm in a Prize Fight.

CLEVELAND, Jan. 11.—Eddie Connelly, of New Brunswick, and Jimmie Dime, of Amsterdam, N. Y., were matched to box twelve rounds at the Cleveland Athletic club last night at 133 pounds. During the third round Dime broke his right arm trying to uproot his antagonist. A bone snapped off two inches above the wrist. The match was given to Connelly at the close of the round. It was even up to that time. Dime's chances seemed good if the fight had been protracted.

Canada to Dispose of Her Railway.

HALIFAX, N. S., Jan. 11.—It is rumored here that the Dominion government proposes to dispose of the Inter-Colonial railway to the two great private corporations in Canada, the Grand Trunk and the Canadian Pacific. Some credence is given to this report by the fact that leading Inter-Colonial officers were recently summoned to Ottawa and held a conference with the department of railways.

NEW YORK, Jan. 11.—The judges of the court of special sessions held a secret session last night, and at its conclusion caused the arrest of their chief clerk, Thos. F. McDonald. Kentucky Democrats Bolt the Caucus.

FRANKFORT, Jan. 11.—The Democratic joint legislative caucus last night nominated Senator J. C. S. Blackburn as the candidate of that party to succeed himself in the United States senate. The deciding ballot resulted: Blackburn, 37; McCreary, 13; Brown, 6. Before the roll call was half finished, however, it became apparent that a large number of McCreary men had bolted the caucus and were not present. Those who declined to be bound by the caucus were four senators and ten representatives.

Deadly Fight in a Tennessee Town.

NASHVILLE, Jan. 11.—Reports have just reached this city that a mob of fifteen men, led by McClure Williams, a notorious character, went to Celina, on the Upper Cumberland river, and in their effort to take in a light raider, resulted, in which four men were killed—Williams, the leader of the mob, the sheriff and one of his deputies, and Ed Parrott, who a few weeks ago killed a brother of Williams. Reports are conflicting, but agree that a row occurred and that several men were killed.

McGough's "Confession" Refuted.

ALBANY, Jan. 11.—There is the best authority for the statement that the report of the commission sent by Governor Morton to obtain a sworn statement from McLaughlin, the Dannemora prisoner who alleges that he was not Bat Shea who shot Robert Boes at the Troy election riot in 1894, will form a complete refutation of the confession. It is probable that Shea's electrocution will take place on Feb. 4.

Marvelous Results.

From a letter written by Rev. J. Gunderman of Danvers, Mass., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction she was stricken down with a violent rheumatism, La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at A. Wasley's drug store. Regular size 50c and \$1.00.

Fourteen Thousand Were Butchered.

NEW HAVEN, Jan. 11.—A letter has been received from Kharpool by Z. E. Bagajian, a graduate of Kharpool college and now a student of Yale, which describes the massacres in the villages near the city of Kharpool. The writer says that at least 14,000 people were butchered in that immediate neighborhood. The letter also says that an American citizen, Mordecai Enfiang, was killed. Mr. Bagajian's father and eldest brother escaped to the mountains, but his cousin, a young girl, was carried off by a party of Kurds. The father, brother and uncle of Mr. Mordecai, of Milford, Mass., were tortured to death because they would not abjure their faith.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed in winter, when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison, Headache, Indigestion, Constipation, Dizziness, yield to Electric Bitters. Only fifty cents per bottle at A. Wasley's drug store.

The Late Job, Hoy's Estate.

NEW YORK, Jan. 11.—A meeting of the creditors of the estate of the late John Hoy, ex-president of the Adams Express company, was held yesterday. According to the reports given out Mr. Hoy's floating debt amounted to about \$170,000, of which \$70,000 was due his widow for money loaned. Each creditor received 100 cents on the dollar. Only a few mortgages remain to be satisfied, and if a reasonable extension can be secured it is estimated that \$200,000 will remain for the benefit of the heirs of the estate.

PHOENIX, A. T., Jan. 11.—Governor Hughes stands charged with official corruption, and his personal reputation for integrity and honesty is impeached by a report of the last grand jury. Official crimes of malfeasance are alleged. Territorial Auditor Letch and Myron H. McCord, an ex-congressman from Wisconsin, are also implicated. These three constitute the territorial board of control, the two associates being appointees of the governor. The grand jury report alleges misappropriation of territorial funds.

FINANCE AND TRADE.

The Proposed Sale of Bonds Offers Ground for Confidence.

NEW YORK, Jan. 11.—R. G. Dun & Co.'s weekly review of trade says: The new year begins with such uncertainty that business is somewhat retarded. The proposed sale of bonds offers ground for confidence in the future, but no one is able to determine what its earliest effects may be in the money market, and for the time it is a cause of hesitation rather than hopefulness.

The industrial situation has not materially changed. There is much hesitation in the iron business, with some advance in Bessemer pig because of the expectation that Connellville coke and lake ore will both be dearer, and yet finished products of iron and steel are on the whole quoted a little lower.

Bradstreet's review says: General trade has not improved appreciably. Some wholesale houses are sending out travelers, while others have not completed taking account of stock. Mild weather at western points has interfered with business in some instances, and the week continues to present characteristics of a bygone season period. The impression is general that uncertainty as to financial action by congress and disturbing political conditions have an unfavorable influence on the prospect for new enterprises. Mercantile collections east, west and north-west are complained of, but at the south the comparative ease with which they are made forms a conspicuous exception.

There were 46 business failures in the United States this week, an exceptionally heavy total. Last week the aggregate was 46; in the same week one year ago it was 46, and in the corresponding week of 1894, just after the panic, it was 484, while in the like week of 1893, five months prior to the financial disturbance that year, the total was only 301.

Hammonton's Big Fire.

HAMMONTON, N. J., Jan. 11.—Shortly after midnight fire which started in a bakery destroyed the Pressey building, and quickly spread to adjoining buildings. Samuel E. Brown's building, occupied as a hardware store and dwelling; Herman Feidler's building and the Woolley building were destroyed. The Hammonton fire brigade was unable to cope with the flames, and for six hours the fire raged. Help was asked from Atlantic City and Camden, and as soon as possible the latter town responded by sending an engine, which succeeded, with the help of the town's police, in controlling the fire. The loss is estimated at \$25,000 to \$30,000.

Failed for Half a Million.

PHILADELPHIA, Jan. 11.—Koen, Sutterle & Co., of 421 North Third street, one of the largest exporting and importing firms of this city, failed yesterday. It is stated that the liabilities will exceed \$500,000. The Equitable Trust company was appointed receiver by the court. The firm was probably the largest importer of goat skins on this continent, having trading stations throughout South America and in Asia and Africa. It also shipped coffee and spices. John M. Egan, an extensively glazed glass manufacturer, was forced to the wall by the failure. His liabilities are \$80,000.

Fatal Result of a Debauch.

LYNS, Mass., Jan. 11.—Mrs. La Motre, aged 33 years, was burned to death in her home yesterday and her daughter-in-law, Annie La Motre, aged 28, was so terribly burned that she is lying at the point of death at the hospital. After the fire was put out the father and son were found in a closet connected with the house, almost unconscious from intoxication. Both were considerably burned. The police say that a lamp was upset during some sort of a fracas, and that the inmates of the house were too drunk to put out the fire.

Miners Go Back at the Old Rates.

ALTOONA, Pa., Jan. 11.—The miners of Taylor & McCoy and the Mitchell Coal and Coke company, who struck on the 1st of the month for an increase of 20 per cent, for mining coal, returned to work this morning at the old rate, the operators refusing to grant an increase. The strikers tried to make the strike general, but none of the other mines would join them.

Smothered His Infant.

KENTLAND, Ind., Jan. 11.—Albert Tollis, a farmer living nine miles north of here, was brought to this place yesterday and lodged in jail, charged with murdering his 8-months-old child. The infant's crying annoyed Mr. Tollis, so he placed his hand over its mouth and smothered it. Popular feeling runs high and violence is feared.

MUNYON

RECEIVES A VOLUNTARY TRIBUTE OF GRATITUDE FROM MR. GARMAN.

CHRONIC RHEUMATISM

Of Eighteen Years Duration Cured by Munyon's Improved Homoeopathic Remedies.

Mr. Michael Garman, 723 1/2 Broad street, Johnstown, Pa., says: "Eighteen years ago my rheumatism began in my knees and hips and finally spread all over my body in such a severe form that I had to use a cane to walk with. The pains in the shoulders also became so bad that it was agony to lie down. My wrists, shoulders and knees were continually swollen and I had to lay off work months at a time. I employed doctors without number and as to patent medicines I've taken barrels of them. Liniments I used until the fish was raw, all to no avail. Pains would shoot through me almost tearing the joints apart. Three days after beginning the use of Munyon's Rheumatism Cure I noticed decided benefit and in less than four weeks I was completely cured. Have not had an ache or pain since."

A Specific for Each Disease.

Professor Munyon puts up a separate remedy for every disease. His Rheumatism Cure never fails to relieve rheumatism in from one to three hours and cures in a few days. His Catarrh Cure positively cures. His Dyspepsia Cure speedily cures all forms of stomach trouble. His Cold Cure never fails to cure the most severe cold in a few hours. The Munyon Remedies sold at all druggists, mostly at 50 cents a bottle.
