DESTROYING THE TOBACCO CROPS.

The Havana Authorities Greatly Agitated Over a Conspiracy to Hand the City Over to the Patriots-Thirty Suspects Already Under Arrest.

HAVANA, Jan. 11 .- The comparative lull which seemed to have taken place in the activities of the insurgents in the past fow flays has given place once more to an un-expected dash on the part of Maximo Go-mez into the heart of the rich tobacco growing district of Pinar del Rio.

Confident claims have been made for several days past on the part of the au-thorities that the time was fast approaching when the insurgents were to pay the penalty for their temerity, and when the penalty for under temerity, and when the Spatial were to close in upen them as in a trap and annihilate them. The sympa-thilters with the insurgents have them-selves not been free from keen anxiety at the persistent stand the leaders were making on the northern coast of Pinar del Rio and almost up to the ourskirts of Ha-yana itself, while the conjugation the leith of

Kio and atmost up to the outskirts of Ha-vana itself, while the continuctuativity of the Spanish generals was disposing about them a force of troops that seemed likely to hem them in and cut them off. The news that Gomez had passed Alqui-zar and Goira Melona, in Havana province, was received with relief by the friends of the inversion themse the discriments

had taken by out the the direction he had taken by out that was not known, but it was generally supposed that he was been upon retreat into the easern provinces, glad to escape the trap set for him. It is now ovident that he was incredy If is now ovident that he was merely making a pretense at retreat to mislead his enough, and meantime he has once more countermarched, and today he has marry his whole effective forces in the ro-bacco district in the southern part of Pluar del Rio, resity to visit destruction upon the tobacco error, as it has already been which each of the southern part of the sources of the so widely visited upon the sugar crop. His march westward from Guira Melenn was

a very swift one. The northern portion of the province of The northern portion of the province of Finar del Rio has also by no means been stripped of insurgents, and it is reported today that 520, commanded by Porico Deigardo, has passed westward along the coast in the northern part of that province, going west through the sugar district to Bahia Honda and to Las Poras becaut When the nors of this more beyond. When the news of this move-ment was received troops were hurriedly dispatched from here to B-hia Honda by sea to reinforce the garrison at that im-

portant seaport town. There are indistinct rumors here that an important expedition for the relief of the insurgents has been landed upon the northern coast of Pinar del\_Rio. The boldness of the insurgents in remaining upon this coast in face of danger of being cut off has been attributed to their expecta-tion of the landing of the expedition. The authorities have discovered evidence

of what they consider a conspiracy to cause an uprising in Havana and to hand the city over to the insurgents. The con-spiracy is believed to be widely ramified and its discovery has caused grave uneasi-ness in Havana and suspicions that disaf fection is much more widely disseminated than has been admitted. Thirty persons have been arrested for complicity in the plot, and eight have been imprisoned, while Aquilino Solano, police inspector for the port of Havana, has been relieved from duty.

Quintin Bandera stopped a train at La Guyara, intending to blow it up, but learn-ing that only ladies and children were aboard he let them pass. At Alquizar, in Pinar Del Rio, Gomez and Macco occupied the city several hours. They were given a public reception in the square and ten-dered a banquet by the ladles. All pris-oners were released from jail by Gomez's orders. Punta Brava, twelve miles from Havana, has been captured.

#### Premier Bowell Still Ahead.

OTTAWA, Jan. H.-Premier Bowell is, for the time being, master of the political situation. It is asserted by his friends today that he will pull through the crisis and have the seven ministerial positions filled, when parliament meets on Tuesday. In doing so, however, he will cause the disruption of the Conservative party as at present organized, as the boliers from the ministry are opposing his every effort. At best the premier can only get together a makeshift ministry, and his tenure of power cannot last very long.
