THE TRENTON MURDER.

Resedofsky and Beckwin Committed for Trial at Court.

Justice May, of Mahanoy City, last evening examined witnesses in the case of the murder of Peter Magalunis, at Trenton last Saturday, and committed Andrew Resedofsky and Martin Beckwin to the Pottsville jail to await trial on a charge of having murdered the man. M. M. Burke, Esq., of town, has been employed as counsel for the accused and will try to get them released on bail under a habeas corpus.

A First Ward Row.

Stiney Outank, a Pole, and Mrs. Mary Bernot, a Lithuanian, were socially drinking beer in the latter's house in the First ward this morning when the former accused the woman of stealing \$50 and a row started, in which poker was the weapon and the woman got the better of her opponent who presented a very much battered appearance in Justice Toomey's office. The Justice held both under \$500 bail for court.

Where Will the Gold Come From?

LONDON, Jan. 15.—The Times says in its financial article this morning that it doubts whether the popular loan will permanently strengthen the American treasury. A 20 per cent deposit, it says, will add \$20,000,000 to the stock of gold, but it is not easy to say whence the remaining \$80,000,000 are to come from, unless later in the year Europe again becomes the buyer of American securities.

Everybody Talking About It.

Everybody is talking about the great free offer of Dr. Greene's, the most successful specialist in curing nervous and chronic diseases, and who discovered that wonderful medicine, Dr. Greene's Nervura blood and nerve remedy. He makes a specialty of treating patients through letter correspondence, and all who accept his offer are astonished at the marvelous success of this method. His office is at 55 West 14th St., New York City, where he receives and carefully examines every letter sent to him by persons describing their cases and telling him their symptoms. After thoroughly studying each case he answers the letter, explaining the cause of each symptom and telling a sure way to get well and strong. He makes the patients understand exactly what ails them and tells them all about their complaint, and all this is entirely free of charge. They save the expense of a trip to the city, have no fee to pay, and have the benefit of the best medical advice and consultation. Here is an opportunity for you to get well, reader, you can either accept or reject it. Which will you do?

To-night's Show.

Hi Henry's Colossal Minstrels made their first appearance in Philadelphia at the Grand Opera House last evening, and the entertainment presented was one of the best of its kind ever seen here. The company contains more people than two average organizations of this character, and its roster includes the names of several ex-stars. The first part was filled with popular comic and sentimental songs, and the funny stories included, strange to say, many original tales. The vocalists of the company are talented singers and the comedians are really amusing fellows. Hi Henry's earnest playing made one of the hits of the evening and the demand for encores almost exhausted his repertoire. Comedian Dumling was seen at his best in the olio, and his songs and stories were received with decided favor. Frank McSib, the original "Silence and Fun" man, made the hit of his career last evening. Master Joseph Williams, the boy soprano, was also received with favor and the Crawford Brothers gave an entertaining specialty. "The Mexican Ballad Club" rendered several popular selections.—Phila. Record. At Ferguson's theatre this evening.

Literary Note From the Century Co.

Henry M. Stanley, in an article on the "Development of Africa," which is to appear in the February Century, recalls the fact that troubles with the Boers in southern Africa first induced David Livingstone to travel to the north, and so led the way to the opening of Equatorial Africa. Livingstone, who was a missionary at Kolobeng, accused his Boer neighbors of cruelty to the natives. They resisted his interference, and threatened to drive him from the country. He published their misdeeds in the Cape newspapers, and his house was burned in revenge. This led to his leaving southern Africa and going to a region where he could follow in peace his vocation as a missionary, unmolested by the Boer farmers.

Judge Pershing Talks.

Judge Pershing talked quite freely yesterday to two prominent members of the bar in reference to the demand made upon him to resign. He refuted several statements in reference to the work he has performed, and further stated that instead of the county paying for extra judicial assistance, the judges brought here from other counties receive their pay from the state treasury. Judge Pershing further said: "It is true that I have not been in good health for the last three years, and I do not pretend that I have done as much work as I could and would have done in that time, had I been well. I do not object to the truth being told, but to tell just enough of the truth to mislead is certainly unfair." In conclusion, Judge Pershing said: "For a long time I was sanguine of a complete recovery, but since the last and long attack of my stomach disease, from which I am rapidly recovering now, I am not at all sanguine as I once was. If it is settled that my complaint will not let go its hold upon me, and that is but one course left open for me, and that is to resign. I possibly have realized this often, and much more keenly, than have my assailants."

Hi Henry's Minstrels.

Hi Henry's Minstrels arrived in town this morning, and at noon their original swell rally-parade took place. It was the finest parade ever seen here. In speaking of the performance the Pottsville Miners' Journal says: "Hi Henry's minstrels performed to a \$700 house at the Academy of Music last night. The first part was presented with gorgeous scenic effects, representing a Moglish palace, and all who took part in it were clad in the picturesque dress of that country. The singing, minstrelsy and acrobatic features were splendid, and the audience attested its delight by frequent bursts of its appreciation. The magic lantern scenes and living bronze pictures were rare novelties, the former especially creating furors of applause." The company will appear at Ferguson's theatre this evening.

Zimmerman's Dog.

William H. Zimmerman, the South Main street butcher, owns a bull dog that has a penchant for chewing anything and everything that he can get within range of his mouth. The other day a \$5 bill dropped from "Billy's" hand and the dog caught it on the fly. Before the owner could recover the money it was ruined by the bull pup's mastication, and now the butcher is applying through Justice Williams to have the bill returned by the Treasury Department at Washington.

BOARD OF HEALTH.

A Vote on a Delegateship Falls For Want of a Majority.

A special meeting of the Board of Health was held last evening and attended by Messrs. Gaiking, Miles, Morrison and McHale. Secretary Curtin read his annual report and the following motion was unanimously carried: "That the report be accepted and that the secretary be authorized to appear before the Borough Council with and read it; and that a vote of thanks be tendered to the secretary for the able manner in which the report was prepared, and for the labor and attention he bestowed in the preparation of it."

The question of sending a delegate to the State Sanitary Convention, to be held at Harrisburg on the 23rd and 24th insts., was discussed at some length and two members voted for and against a motion not to send a delegate to the convention, and the fifth member being absent, leaves the question as it was before being acted upon. It is possible that another meeting may be held to decide whether or not a delegate will be sent.

NEW SAVING FUND.

The Elmira Mutual Building & Loan Association is about to start a branch in Shenandoah. Several hundred shares have already been sold to our leading citizens. This organization will constitute a branch of the main association. The prospects are most and several loans will be made here in the near future. Quite a number of our prominent business men who have already subscribed for stock will be elected as its officers. Other branches are in active operation at Pottsville, Minecroft, Hazleton, Schuylkill and Mt. Carmel. The association has as its managers some of the most prominent real estate operators and bankers in the state, and is an established success. This is the only natural saving fund operating under the free-withdrawal plan and shareholders can withdraw at any time every cent of their monthly dues paid. Other special features are: no-see-able stock, no forfeitures, no fines, free withdrawal at any time with six per cent interest after one year. Membership for only 20 cents per share. The association is incorporated under the laws of the state of New York and Pennsylvania, and under the direct supervision of the Banking Board of each state. SLEEP TO-NIGHT.

Stop Insomnia Before it Becomes a Habit.

Neglected, Shabbily Treated Nerves the Cause.

Rev. Dr. Smith at Age of 86 Loses no More Sleep.

Unbroken Rest Natural to a Fully Nourished Brain.

Paine's Celery Compound Has Never Failed to Cure.

From childhood to old age health is very much a matter of sound, refreshing sleep. No one can digest well, work well, feel well, or be well, who is night after night deprived of good sleep. It is physically impossible for any brain to keep on providing nervous energy unless the nights are devoted to nourishing its used-up parts. Protracted sleeplessness, where no effort is made to feed and calm the irritable nervous system, ends in nervous prostration and insanity.

To-day there are far more neuralgic headaches, far more rheumatism, sleeplessness and nervous prostration than during the last generation.

To combat this growing evil, Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth college, made nervous diseases his special study. The fruitful outcome of his long years of professional investigation was Paine's celery compound. Difficult nervous disorders that had persisted despite long treatment, at once yielded to it. Men and women who had suffered for years from broken and unrefreshing sleep, from headaches, rheumatism and neuralgia, found that Paine's celery compound not only speedily cured these troubles, but that they worked better and felt more encouraged than had been possible to them for years.

As a practical instance of what this remarkable remedy is doing all over the country, the following from Rev. Dr. Win. A. Smith, one of the best known divines in Southern New England, deserves careful reading. Dr. Smith is to-day 80 years of age, yet enjoys better health than ever in his life, and never loses a single good night's sleep. He writes:

"Dear Sir—In my early days, by great and prolonged mental suffering, I broke down in health and became a dyspeptic, being obliged at one time to give up my work in the ministry on account of ill-health. I am now 86 years of age, and during my long life have suffered greatly from dyspepsia, torpid liver, constipation and insomnia, at times thinking that I should die for want of balmy sleep, and it is a wonder to me that I am alive to-day with all that I have been through. I am a wonder to myself, and to those who witness my habits and know my age. I tell them that I try to obey the laws of nature, and that I take Paine's celery compound whenever I need it.

By the use of several bottles of Paine's celery compound, I have so far recovered my health as to consider myself a well man for my age. It regulates the liver, stomach and bowels, without any question. My appetite is now good, my sleep is refreshing, my liver active, and bowels regular, and my crutches not needed, as I can walk without a staff. People are surprised at my improved appearance and activity. 'Gratefully yours, Win. A. Smith.'

Paine's celery compound does not stop its restorative work till new, healthy tissues have taken the place of the old, shattered portions. There is not the deepest, most minute portion of the body, whether it be nerve or brain, or some vital organ, that escapes the rejuvenating, strengthening power of Paine's celery compound. In cases of severe neuralgia, rheumatism, heart palpitations, dyspepsia and nervous feebleness, Paine's celery compound is the only remedy that goes to the root of the trouble, fortifies the weakened system against these disorders and builds up a strong, healthy body.
