Washington, Jan. 17,--The Democratic rational convention will be held in the city of Chicago on July 7. That was the decision reached last night by the national Democratic committee after an interesting and at times exciting session which continued until 11 o'clock. There was con-siderable differences of opinion as to the time for holding the convention, one proposition, advanced by Alien W. Thurman, of Ohio, who held the proxy of the New Mexico member, being to hold it June 7, two weeks before the Republican sonvention, and the other by Hugh Wal-lace, of Washington state, to hold it July The committee decided upon the latter date by a vote of 32 to 18.

The main interest, of course, centered in the choice of the convention city. For this honor there were four applicants, Chicago, St. Louis, Cincinnati and New York. Thirty minuses were allowed each to present its claims. The speeches, made by distinguished citizens in each instance

distinguished citizens in each instance, were of high order of excellence, and at times aroused the greatest enthusiasm.

The balloting began at 6 o'clock last evening, and from the first a long and bitter struggle was indicated. The first ballot resulted: Chicago, 6; Cincinnati, 11; St. Louis, 19; New York, 14. There was practically no change, except a slight fluctuation of a vote or two, until the fluctuation of a vote or two, until the tenth ballot, when Chicago began gradually to increase her vote at the expense of New York. At the twentieth ballot New York's strength was rapidly disintegrating, her vote going almost bodily to Chicago. But St. Louis, which had tenaciously clung to her nincteen votes, also captured several of Cincinnati's votes, and on the ballot before the last led New York by one vote.

On the last ballot, the twenty-ninth, were thrown to Chicago, and she obtained the necessary plurality. Senator Brice voted for Cincinnati to the last. An examination of the vote by states Senator Brice

As yet no sug-gestion has been made as to bringing the measure to a vote. Foreign questions re-ceived considerable attention during the day. Mr. Hale spoke for an hour in favor of a Pacific cable connecting the United States and Hawaii. The senator expressed the opinion that the annexation of the Hawailan islands to the United States as certain to be accomplished at an early day. The Cuban question was briefly discussed in connection with Mr. Call's resolution calling on the state department for information on the status of the uprising. The Monroe doctrine also received attention in a resolution by Mr. Sewell, of New Jersey, declaring the limitations of the doctrine, and stating that President Clove-land's attitude was an extension of the doctrine beyond its original scope. A resolution was adopted requesting the state in the complaint and maintained department for further information on the sewcrage should be enforced. The

After it had started its ascent he made an attenue to get on, but it is supposed he missed his footing, and when the carriage reached the roof of the mine his head was found lying in it and no signs of his body. Friends went to the bottom of the shaft and there found his body where it had dropped when the head was severed. He leaves a wife and two children.
