Ministers Should Use RECOGNITION FOR CUBA Dr. Miles' Heart Cure.

PAHERE IS NO PROFESSION, whose labors so severely tax the nervous system, as that of the ministry. The de-rangement of the perve centers of the brain by over work, frequently brings on attacks of heart trouble, and nervous prostration. Rev. J. P. Kester, M. D., Pastor U. B. hurch, London Mills, Ills., himself a physi-ian, writes Feb. 25, 1825: "Heart affection and nervous prostration had become so serious last fall that a little over work in the pulpit would so completely prestrate me Dr. Miles' that it seemed certain I Heart Cure of the ministry entirely. Heart palpitation became so bad that my auditors

Health..... would ask me if I did not have heart disease. East November I commenced taking Dr. Miles' New Heart Cure alternately with Dr. Miles' Nervine and derived the greatest possible benefit. I have just closed revival work of 10 weeks, preaching nearly every night and twice on the Sabbath. I can speak for hours without suffering as I formerly did. Hard working ministers should keep Dr. Miles' grand remedies on hand."

Senators Will be Called Upon to AH Her Life-Happy follows at La-Vote on the Question Soon.

ALLEGED VICTORY FOR SPANIARDS

An Engagement in Which Spanish Truops "Fought in High Spirits" and the Insurgents "Retreated in All Directions" After Two Hones' Fighting.

Washington, Jan. 17.—Senator Call gave notice yesterday that he would soon more to discharge the foreign relations cumulties from consideration of the resolutions for the secondition of the Cubans as belligarents in order to have the senate rote directly on the question without further dolay.

ther delay.

The question of recognizing the insurgents absorbed all the time of the hone-foreign affairs committee at vesterday's meeting. Considerable pressure is being brought to bear on the committee, not only by individuals and organizations outside of the house friendly to the cause of the insurgents, but by the members as well. There exists a strong semilment in congress favorable to immediate recognition of the revolution, and the leniers of tion of the revolution, and the leaders of this sentiment are very active, although it is not yet demonstrated whether they rep-

resent a majority of the house.

While it is by no means certain that a majority of the foreign affairs committeemen regard it as expedient to grant recog-nition to the beliignrents at this stage of their fight, a feeling of dissatisfaction did crop out at the meeting because no per-ceptible progress is being made by the committee toward reaching a decision on which it can make a report to the house. Some dissutisfication was expressed because the state department has not yes furnished the committee the information in its possession on the matus and progress of the war in Cuba.

of the war in Cuba.

About two weeks ago the house adopted a resolution calling upon the secretary of state to forward all the syldence in the case in his possession. This resolution has been reinforced by the request of the committee. Particular request has been made for the reports and letters to the department by Consol General Williams, of Havana, and the United States consuls in Cuba. It is assumed that these reports have been made, but for obvious reasons such communications cannot be given to such communications cannot be given to the public while the war is in progress, as they might contain views which would make the continued residence of their

authors in Cuba somewhat unpleasant. Chairman Hitt has made several calls charman fitt has made several calls upon Secretary Olivy, and has been told that the matter in possession of the department was being compiled as fast as it could be. Until it is before the committee, however, no serion can well be taken. In the meantime the committee is having an exchange of views on the Cuban question. The principal incident yesterday was a carefully prepared speech delivered by Congressman William A. Smith, of Michigan, who pleaded for lumediate action favorable to the Insurgents

The conservative position is taken by the members of the sub-committee. Mesars Adams, Draper and Hitt, who have charge of the Cuban question. It is understood that members of the committee argued that the Cuban revolutioners have no extablished must of government, that the re-public they have declared is not exercising any civil power or enforcing any laws, and that they have no judicial or legisla-

INSURGENT DEFEATS REPORTED.

But These Reports Come from Spanish Sources-Havana's Deptorable Position, HAYANA, Jan. 17 .- With the exception of a lively skirmish between the forces under General Luque and the Insurgents in Pinar del Rio there is no notable en-gagement reported today. Maximo Go-mez is said to have comped Wednesday night at a point near Guanajay, between Gascaled and San Dirac, and search Guayabal and San Dimas, and seems to have evaded his pursuers, as nothing is said of any further losses inflicted upo

The insurgents in Pinar del Rio, who were reported to have their safety ac-riously compromised by the movements and fresh stations of the troops, are rang-ing far and wide over that province, apparently at will. There is not much damage reported along their route, except to railroad property, as the people of the Vu-elta Ahajo district are for the most part very friendly to the insurgent cause and after no opposition to the progress of the insurgent forces. It is almost like moving in a friendly country, and superior

forces of troops are avoided.
General Luque received intelligence of an insurgent march along the south coast, and set out to intercept them. He marched towards Angostura, a village south of San Cristobal, near which point he met the insurgent vanguard. The main force of the insurgents, however, had not yet come up. Twidye scours were captured, and Goneral Louis that he surprised the enemy in their camp. The insurgents, however, seem to have must a planky stand, and the battle rappid florcely for two hours. swo hours.

The troops fought in high spirits, says the report, and at the close their heavy artillery fire was secondal by a bayonet charge before which the insurgents broke and "retreated in all directions," as the official report avers. Whether this included she direction to the rear of General Luque farnot specifically stated, and will not be

and specifically stated, and will not be known until the next position of Nunex, Bernoulez and Alvacez is reported.

The insurgents are said to have lost seven killed, including Calonel Francisca Crus and Radriguez, the bearer of the values. The colors, together with fire-arms, amountation and seven prisoners fell late the hands of the Spanish, and the insurants, it is reported, carried away insurgents, it is reported, carried away numerous wounded. Nineteen of the troops are reported to have been wounded.

but no dead are reparted.

Nothing has occurred to improve the situation of affairs in the city itself, and the supply of the ordinary necessities of life is becoming precarious and exceed-ingly high priced, and the outlook for the future offers little encouragement. The matterings of discontent and criticism of the helpless attitude of the authorities becomes daily louder and deeper. Even those whose sympathies are loyal to the Spanish government are hopeless of any success in suppressing the rebellion with the present military force and machinery of organiza-

G. A. R. Pension Committee in Washington. WASHINGTON, Jan. 17.—The pension committee of the Grand Army of the Republic was in assion here for several hours last night preparatory to appearing before the invalid pension committee of the house roday. There have been a great number of bills relating to pensions introduced in the present congress, and it was for the purpose of carefully scrutinizing these proposed measures with a view to endorsing certain of them that the committee met. It is not believed to be probable that any general scheme of any new pension legislation will be recommended at this time, though there may be sandry amendments to existing laws urged which the committee faybrs and thinks should be possed.

Death from a Leaky Gas Main.

Bosrox, Jan. 17 -One life was lest and elx persons narrowly escaped death from all persons barrowly compal death from inhaling illuminating gas to be yesterday. Owing to a leak in the gas main in Canton street the gas found it way into two houses on the opposite side of the street. In No. 39 Alexander Morswain, like wife and its mouths old daughter fixed, and alough to clock Mr. Merswain needs and found the room filled with was. He was burely alle to reach the window, which he threw open. He found his wife and baby unconscious, but the baby died shortly afterwards. In the house opposite William perwards. In the house opposite William J. Cuchran, his wife and son and a boarder named Charles Heald were found unconsclous, and medical assistance was called

Delaware's Senatorial Contest.

Washington, dan. if —The senate committee on privileges and elections will meet this afternoon to arrange for a plan of proceedings in the election case of Henry A. Dupont, who claims the sent in Henry A. Dupont, who claims the sent in the senate from Delaware vacaned on March i last by Senator Higgins. Three different briefs have been tiled with the committee in behalf of Mr. Dupont and one by the governor of Delaware in opposition to his claim. Air. Dupont will be represented before the committee when the hearings are begun by Attorneys E. G. Bradford, ex-Senator Higgins and H. E. Paine, and the governor by ex-Chancellor Walcut, John Busset Moore and W. P. Kurtz.

England's Difference with France,

Pams, Jan. 17.—The press generally in sists that the Slam territorial boundary Rise that the Sand Derrorm political and France leaves the more serious differences untoucled. The Temps and The Liberts warn England that the Angle French relations earned be materially changed until the Egyptian question is settled. The Liberts has an interview with M. Region. Liberts has an interview with M. Berthe-lot, minister of foreign affairs, in which he said: "The convention does not modify our external policy. The English new-paper care wilfully mistaken in declaring that England has obtained France's co-operation in the serioment of England's foreign difficulties."

McKinley in His Gid Home Canton, O., Jan. 17.—When Superintendent Miller's car of the Pan Handle roud pulled into the depot last evening, bearing ax Governor and Mrs. McKluley and Col-onel and Mrs. Herrick, of Cleveland, there was a large crowd on the pintform to cheer the arrivals, composed of citizens regardless of party. The McKinleys at once took a carriage for the home in which they first kept house. A general demon-stration is likely to occur later. The ma-jor said today: "It is a great relief to get back to Canton and to the home we first occupied years ago. As to my plans, they are smally to practice law here." are simply to practice law here.

Rallrenders Were Probably Overworked. Noninstown, Pa., Jan. 17.—About 1:so o'clock in the inorating the confine of a south bound coul from on the Philadelphia and Reading reilroad crashed into the rear of a freight train, also south bound which was at a standard about half a table above listing-port.
