THE Hon. John B. Robinson has addressed an open letter to Chairman Quay, suggesting the proposition of voting for candidates for United States Senator at the Republican primaries. The proposition is not an original one with "Fighting Jack," neither is it a new one. The plan was adopted by the Republicans of Ohio, and with them it proved a very acceptable one, resulting in the selection of Forarker as United States Senator. The HEBALD sometime ago, in commenting on the probable successor to J. Donald Cameron, suggested the adoption of the Ohio Plan, which Congressman Robinson-who, by the way, is a candidate for United States Senator-is now urging upon the State Committee. His proposition is for the state chairman to suggest to the various chairmen of the Republican county committees in the state the advisability of printing the names of all the candidates for the United States Senate, so far as known, upon a seperate part of the ticket to be voted for at the coming primaries, so that there may be some indication as to the views of the electors regarding their choice for this important position. We have had no occasion to change our viaws upon the subject, and still believe Chairman Quay's actions in adopting the suggestion would meet with the approval of the party spices.
