DROPPED INTO A MINE!

Singular Accident to Lehigh Valley Railroad Trains.

THE ENGINEER CRUSHED TO DEATH

The Fireman Escaped With a Lacerated Scalp Wound, But Will Probably Die—Miraculous Escape of Passengers.

HAZLETON, Pa., Jan. 21.—The Lehigh Valley train which left Wilkesbarre at 5:15 o'clock last night, and is due here at 7:22, in charge of Engineer Michael Lenzner and Conductor George Ross, was precipitated into a coal mine near this place. Lenzner was wedged between the baggage car and the ground, and was crushed to death. The fireman, Frederick Meyers, escaped with a lacerated scalp, but will probably die. Several passengers were injured, but all were able to walk to this city. Since the wreck the earth has dropped completely into the mines, which are operated by Linderman & Skeer, and steam from the underground cavity is issuing from several days, both main tracks being affected.

For several years past the road between here and Stockton has been the scene of many cave-ins, and to guard against accidents three watchmen were placed at different points to notify trains of any possible danger. About three hundred yards below No. 8 Stockton the road caved in to a depth of six feet. The watchman had just passed, and found everything in good condition. They accordingly signaled the train, which was going at the rate of twenty-five miles an hour. The engine struck the sag and bounded from the track. The engineer and fireman were thrown and the passengers were hurled promiscuously about the car. The engine and baggage car fell on one side, and but for a coal bank which guarded them much loss of life would have resulted. Had the cave-in occurred a half hour earlier it would have caught the miners' and silk mill train, which carries several hundred girls and a hundred or more miners.

A W. C. T. U. Petition.

BOSTON, Jan. 21.—The reported decision of the Sultan of Turkey forbidding Miss Clara Barton and the Red Cross society from entering his domains, to relieve the sufferings of the Armenians, has led Miss Francis E. Willard and her sister officers of the national W. C. T. U. to send a petition to congress, also to request every state W. C. T. U. to do the same and duplicate this petition to every state legislature. These officials express the hope that this practical effort to cause something to be done on a large scale for the Armenians will attract wide attention and will doubtless cause other great societies of women to send similar petitions.

American Prisoners in the Transvaal.

WASHINGTON, Jan. 21.—Senators White and Perkins, of California, had an interview with Secretary Olney yesterday concerning the imprisonment of Mr. Hammond and other Americans in the Transvaal, and afterwards united in a statement to the effect that "We are satisfied the secretary of state has done and is doing his utmost to protect American interests in the Transvaal. Mr. Olney stated that statements made derogatory to Mr. Munion, our consular agent at Johannesburg, are untrue. It is not thought probable that any real danger can arise without due notice to our government."

There May be a Lynching.

PARKERSBURG, W. Va., Jan. 21.—A negro giving his name as Marshal Johnson, of Wheeling, arrived here yesterday under arrest, suspected of perpetrating the recent outrage on Little Lulu Wethersell. He was met at the depot by 2,000 people. Eight policemen escorted him to the jail, where the crowd swelled to 3,000. There was no attempt at violence, and there will be none, unless he is identified. In case of his identification he will surely be lynched, and this with the full approbation of the negro population.

General Harrison's Movements.

NEW YORK, Jan. 21.—Ex-President Harrison was busily engaged yesterday in his rooms in the Fifth Avenue hotel preparing his argument in the Wright irrigation case, which comes up for hearing in Washington on Thursday or Friday. The suit has nothing to do with the Stanford estate, but is an appeal to sustain the Wright law on irrigation matters, which was declared unconstitutional by Judge Ross, of the state court of California. Ex-President Harrison will leave for Washington tonight.

Successful Arbitration.

PHILADELPHIA, Jan. 21.—The board of directors of the Union Traction company held a meeting yesterday for the purpose of considering the recommendations made in the report of the joint commission for the settlement of the complaints of the dissatisfied employees. When the meeting adjourned the announcement was made that the board had agreed to abide by the terms of the report of the peace-makers. Every suggestion was agreed to without modification.

IN SENATE AND HOUSE.

Opposing Phases of the Monroe Doctrine in the Upper Body.

WASHINGTON, Jan. 21.—Two opposing phases of the Monroe doctrine were presented in the senate yesterday—one from the committee on foreign relations, favoring a strong re-affirmation of the doctrine, and another from Mr. Sewell, of New Jersey, urging that the doctrine had been carried so far beyond its scope as to threaten dangerous consequences.

Mr. Davis, of Minnesota, presented the committee report, as he is author of the resolution embodying essential features of all previous resolutions. Mr. Sewell's speech attracted attention from the fact that it is the first utterance of opposition to the prevailing tendency in congress on the doctrine, and moreover, the New Jersey senator used direct language in criticizing the haste of the president in precipitating a question which involved the possibilities of war.

The silver bond bill was laid aside temporarily, as no senator was ready to speak. Mr. Platt and Mr. Hale pointed out the danger of the measure, and Mr. Platt asked that a day be set for a vote. Mr. Jones, of Arkansas, in charge of the measure, declined to fix a time, as several senators were still to be heard.

Mr. Peffer's bill concerning congressional funerals was further discussed and then referred to the committee on rules, with a view to formulating a general rule on funerals.

Mr. Pugh's resolution for silver payments of outstanding government obligations did not reach a vote, although urged by its author.

The session of the house was devoid of public interest. Quite a number of bills of minor and purely local importance were passed, and also the military academy appropriation bill. Among the measures introduced was a resolution by Mr. Gibson, of Tennessee, for the recognition of the Cuban insurgents as belligerents.

Salvationists Will Not Revolt.

NEW YORK, Jan. 21.—Ballington Booth, commander of the Salvation Army in the United States, makes a public statement regarding his recall to England. "The orders to relinquish our command," he says, "are in accordance with the discipline of the organization, it being of a strictly military character. In pursuance of military obedience, and regardless of our own feelings, we are proceeding to put all things in preparation that our successors may find as little difficulty as possible upon assuming their command. We have no information as to who our successors will be."

DR. SPALDING A DELEGATE.

His Election Ends a Squabble on the Board of Health.

A QUARANTINE POINT DECIDED!

Children Suspended From the Schools on Account of Disease in Their Families Must Obtain Sanitized Ten Days After Recovery is Pronounced.

A special meeting of the Board of Health was held last evening for the purpose of considering the emergency of sending a delegate to the State Sanitary convention, to be held at Harrisburg next Thursday. The members in attendance were Messrs. Spalding, Morrison and Malone, Secretary Curtin and Health Officer Conry.

It appears that at a recent meeting of the Board the subject was discussed at some length and there was a tie vote on a motion not to send a delegate. The discussion at that time was very bitter on the part of one of the members, and he indulged in a personal attack upon President Spalding when it was suggested that the officer be sent as delegate to the convention.

At the meeting last night President Spalding, in opening the meeting, stated that it was called to again consider the question. He briefly reviewed the proceedings of the previous meeting and said he did not wish to reply to, or consider, the attack made upon him, that he was satisfied to let the party who had made it take such consolation from it as he might receive. The President added that he did not wish to be the delegate to the convention; it would be a sacrifice for him to go, but when a delegate was first spoken of in the early history of the Board the Borough Solicitor suggested that a medical man would be the proper representative, as they know more about health affairs than others; and, in fact, the State Board, with one exception, is composed of physicians. Dr. Spalding said he had no friends to punish, or enemies to reward, but he did not intend to be driven from the Board. He felt that the majority of sentiment was in favor of sending a delegate and, considering the progress Shenandoah has made in sanitary affairs, it would be a disgrace for the town to neglect sending a delegate to the convention. The doctor closed by stating that he thought Mr. Malone should be the delegate, but that gentleman and Mr. Morrison thought the President should be designated and a motion to that effect was unanimously carried, and thus the dispute was put at rest. Messrs. Miles and McHale, who opposed the movement at the last meeting, were not in attendance.

A communication from Dr. J. S. Callen was read. The doctor was in attendance on Mrs. Fielders, of West Oak street, when she suffered from typhoid fever. The patient's two children were sent to board with friends, so that their attendance at school would not be interfered with; but immediately after Dr. Callen declared Mrs. Fielders had recovered and the Health Officer removed the placard from the house the children returned to their home. Yesterday Health Officer Conry instructed Superintendent Whitaker to suspend the children from the schools until the requirements of the Board of Health were complied with, claiming that, as the children returned to their home, they would be obliged to remain from school until the expiration of ten days after the removal of the card.

Dr. Callen took issue on this point claiming that as the children did not remain in the house while their mother was ill, they did not come within the rule, and also that typhoid fever is not treated in the same light of contagion as diphtheria and scarlet fever. Health Officer Conry called attention to a case in which similar circumstances were involved and the Board had enforced the rules and, on motion, the action of the Health Officer in the Fielders case was sustained and the President was instructed to give instructions that the children must remain away from school until the expiration of the ten-day limit.
