He has long been taken as one of the ringleaders, and unless some radical measures are taken by our government he will be made to suffer for the sins of others, for which he is in no way responsible."

Another message says:
"I carnestly beg you to use your influence to protect Hammond from the consequences of a mistake which has been made by others in this unfortunate business. He is not guilty, has been wrongfully confined in jall for the past ten days, and the Transvaal government refuse to admit

MENDONCA AND DEPEW.

The Brazilian Minister Criticizes State-ments of the American Orator.

Washington, Jan. 23.—Schor Salvator de Mendonca, minister from Beazil to the United States, in a communication to the Washington Post with reference to Mr.

Depew's speech before the New York Bar association, writes as follows: "Mr. Depow's fears that Venezuela or Brazil would be willing to sell a portion of their territory seems to carry him to the conclusion that a protectorate of the United States of Armetes over its Latia neighbors would become indispensible. From his ignorance of the setual condition of the Latin American nations he ex-torts the argument that the only device to keep such nations in good behavior to-ward the European powers is to keep them outside of the protectorate of the powerful republic of the north.

"If Mr. Chauncey M. Depew were as well acquainted with the Latin American countries as he is with the financial relations between this country and Europe be would know that at present there are no dictators in South America, but presidents, elected in accordance with the constitutional laws of the countries, and that there is as much security for life and property either of citizens or foreigners in Brazil, Chile or Argentine as there is in the United States or England, and that no self time libra of a project even if oil. Alto them by their best and most powerful triend.

"The principal article of Mr. Depew's theory is merely an absurdity. When the United States proclaimed, in 1823, the Monroe doctrine, its population amounted to 10,000,000, and at this time this country had been twice victorious in foreign wars It is not much to assume that a country like Brazil, with a population at present of 18,500,000, and after seventy-four years of constitutional government, nev greasive but always peaceful and self re-liant, would not require a protectorate to maintain its sovereignty and indepen-
