

A RARE OPPORTUNITY.

I am about to make a bona fide reduction in my stock in order to make room for another remodeling of my store and will sell at greatly reduced prices what is left of my excellent assortment of overcoats and heavy suits for men, boys and children. This is no shop-worn, old style or misfit stock, but just what I have been selling for at least double the money. To make room for necessary alterations in my store I must sacrifice the goods. Call and inspect them.

Should be Investigated.

A woman of Mahanoy City was in town yesterday seeking her 15-year-old daughter, who, she claimed, had been induced to run away from her home. The woman alleges that there is a woman in this town who keeps a house of ill-fame and entices girls of tender age in neighboring towns to become inmates. The result of the search has not been learned.

The first meeting of stockholders of the Shenandoah branch of the Elmira Mutual Building and Loan Association was held last evening in the offices of Edward W. The Charity Entertainment.

The entertainment under the auspices of the school teachers of town, in Ferguson's theatre on February 4th, for the benefit of charity, is worthy of patronage. Prof. Byron W. King possesses a voice of wonderful force, scope and flexibility. It has a wide range of expression. He plays upon every chord of feeling. His pathos is indescribable. Without speaking a word, solely by the expression of his face, and the tears that start from his eyes, moves his audience to tears. His portrayal of all human passion is masterly, indeed. Fierce anger, hate, wild scorn, love, threat, suspicion, woe, delight, fear and fortitude come and go upon his features like flashes of vivid lightning. Hear him, and you'll never regret it.

An Important Circular.

There has been some discussion relative to the effect of an act recently created relative to boroughs with but one ward or election district. The Commissioners have issued the following: "Those having but one election district, seven Councilmen shall be elected at the coming election. Two for one year, two for two years and three for three years. Those whose time have not expired will sit jointly with the new ones to be elected until the respective terms of the old ones expire." The boroughs of Auburn, Frackville, Gordon, Landingville, Middleport, Mt. Carbon, New Philadelphia, New Ringgold, Orwigsburg, Palo Alto, Pinegrove, Tower City and Yorkville will come under this act.

Mr. O'Hara's Intentions.

Little can be learned concerning the intention of Michael O'Hara, now owner of the Mansion House stable buildings, and it is doubted in some quarters if Mr. O'Hara has fully decided himself. Several months ago, it is said, he talked of occupying the stables himself with the livery business, in connection with a furniture house, but many doubt whether he will do anything for a year. The present tenant, Messrs. Smith and Campbell, have not been advised. Mr. O'Hara does an excellent livery business in Shenandoah.

Without a Brain.

Dr. S. S. Koser, of Williamsport, has made a remarkable discovery, which will be a theme of much discussion among medical men. The patient died from the effects of a tumor, and was blind for over three years. At the post mortem examination the most singular fact developed was that the entire brain had been hollowed out by the action of the tumor. The cavity was at least five inches in length, and was filled with pus. All left of the brain was a thin shell, composed of the tougher tissues where the brain matter gathers into nerves, which were less susceptible to the process of decay. When an incision was made in the shell the whole mass collapsed. The circumstances which made the case almost unprecedented in the annals of medical science was the manner in which the patient retained his rationality and faculties under the circumstances. He had the senses of touch, taste, hearing and smell, had very tolerable control of his locomotor muscles, could talk, and, in fact, was comparatively discommoded in no other way than by the loss of vision. His retention of memory was remarkable. He was able to memorize poems up to within two weeks of his death.
