The suscome of the primaries in the Third ward is such that the Democracy, it is said, will not nominate a ticket in opposition. While W. T. Trezise had no opposition at the Affects your head, but it is not therefore primaries last night to succeed himself, the flattering vote he received is conclusive proof that the voters are favorable to his election. The Councilmanic fight between Thomas J. James, the present incumbent. and James Morgan was one in which every inch of the ground was contested, and the unsuccessful candidate is too legal a party man to sulk in his tent. The same can be said of the other two contests for Justice of the Peace and Constable, in which P. W. Bierstein and Thomas Tosh were nominated to succeed themselves. The face of the returns show how close the lattle was waged.

There was but one contest in the Second ward, in which 'Squire C. W. Dengler was nominated to sneceed himself by a large majority. His opponent was Thomas Bellie, in whom the successful man will find no more loyal supporter at the election.

In reviewing the result of the primaries last night the Citizens party has made ex-

cellent nominations, and they are certainly in better shape to meet the enemy than for a number of years. There is but one danger confronting the citizens, and that is over-confidence. It will require every vote to win, and to secure that result should be the aim of each individual member of the party. If this is done, there is no doubt of

#### NEW FIELD FOR COMMERCE.

China Agrees to Open the West Biver Under Certain Conditions.

PERIN, Jan. 25.—The government has agreed to open the West river provided ceded under the Burmah-China convention

The opening of two ports on the West or Si-Kiang river, namely Shao-King and Wu-Chow, was stipulated for by the Japarese as part of the terms of peace. The cities of Canton and Hong Kong are situated on the bay in which the West river empties. The news that the West is to be specied to foreign trade occasioned no small amount of satisfaction in Hong Kong. The trade of the rich province of Yunnan had begun to be diverted by the activity of the French in Tompain from its natural channel down this river.

The river traserses one of the richest and most densely populated portions of south China, and the Chinese have long guarded it against the entrance of foreign commerce with a sort of superstitions reverence. The territory on the Mckong which has recently been acquired by France from China by treaty opens up another route to a part of this rich country, including the ton districts. Franco's success in securing this territory was a part of the situation in the far east, which has been most try-ing to Great, Beltain since the decline of her diplomatic prestige with the China-

Great Britain claimed that the tereffors acquired by France included parts of what were British Burmah, but had been ceded by Great Britain to China, with the previso that China should not plienate this

Within a few weeks again it was reported, as a set-off to the Chinese concessions to France, that Great Britain had procured the assent of China to the cession to Great Britain of four states in the Bur mah-Cainese frontier, giving trade direct access to southern China. Presumably China is now endeavoring to terminate these encroachments on her southwestern frontier by agreeing to open

#### Wilson's Defense,

HOLLIDAYSBURG, Pa., Jan. 25 .- The defense opened yesterday in the case of Frank Wilson, charged with the murder of Henry Bonnecka. His attorney scored the de-tectives for placing Wilson in a cell with the murdered man's picture. Several merchauts from Philadelphia, and Gloncester and Woodbury, N. J., to whom Detective Jones owed small store bills, said he lacked truthfulness. It was also in evidence that two attempts had been made to rescue Wilson from the detectives. Three neighbors of Bonnecka's and several Altoons physicians testified it was pos sible the man had been killed several days before his remains were found, and while Wilson was in jall on other charges.

W. Ramp, to be kept as care of Cashler S. W. Ramp, to be kept as a special reserve during the panicky summer of 1833, and only to be used in case of absolute necessity by the bank. Not long afterwards Ramp went to Fleischmann attorney and confessed that he had spent the entire sum in gambiling in stocks, racing, etc. Fleischmann, to save the credit of the bank, kept the story quiet and arranged to have Remp elected to the state senate as an excuse for severing his connection with the hank. What arrangement, if any Ramp made to repay the money is not yet known, but Fleischmann says Hamp does not owe him a dollar.
