MACEO VERY ACTIVE

Despite Reports That He Is Anxious to Escape "Pursuing Spanlards."

HAVANA, Jau. 28. — Communication with Pinar del Rio is still very much interrupted, but reports received by courier show that the insurgents there under Antonio Maceo are displaying great activity and are doing much damage, despite the reports disseminated here that he was being closely pressed by the Spanish troops and was anxious to escape into Havana province as best 1.e could. While carpenters were engaged at the Gregory property, on North Main street, yesterday a smooth-tongued individual saun-tered into the building and in a coaxing prices remain within the reach manner asked for the loan of a saw. He was shown three, but not until his eyes rested on a brand new rip saw was he satisfied. That was the kind he was looking for. He wanted it for a few minutes only, but his minutes appear to be like the periods of tariff discussion in Congress. If he is too busy and cannot return the tool in person, or by messenger, the owner will accommodate him by sending around a Constable before the week dies out. This is not the only case of the kind on re-cord, but one which many carpenters have to centend with. People borrow their tools when they have mils or other articles of like nature to cut and thank the wood surgeons in the kind of coin that Uncle Tom received in payment of his famous exhin-

Brumm in a Row.

Washington, D. C., Jan. 28.—Representative Bramn, of Pennsylvania, got into trouble in the Capitol building Saturday, which resulted, it is said, in his head being punched through one of the glass book-cases. His son has been appointed carpenter of the House, and, as the story is told, Mr. Brumm was complaining that certain work involving profit did not go to the carpenter, who, in his judgment, should have it. He appealed to an exemploye of the House to sustain him in the assertion that this particular work had heretofore gone to the carpenter. The ex-employe, who had not been following the controversy, replied that Mr. Brumm was mistaken. Thereupon, it is said, the to the ex-employe an insulting term resentment of this was sudden and effective, and Mr. Brumm was saved from being more severely chastised only through the interfer-

Choked to Death by a Burglar,

YORKERS, N. Y., Jan. 28.—Mrs. Edmund Tucker was choked to death by a burglar at her home on Control avenue, near Underhill, last night. She was found by her husband who returned late and discovered that all the doors were locked. He heard his little boy screaming in the house, and climbed in through a window to find his wife lying dead in the hallway just outside the sitting room door. The little boy had a severe cut across the face. He said that an old man wearing a slouch hat and a seedy gray overcoat had entered the house and demanded money. When this was refused him, he seized Mrs Tucker and choked her into submission. He then struck the boy and made a hasty trip through the house taking a ladies gold watch and several gold rings.
