THE PATRIOTS IN CUBA.

All Cubans and Many Spaniards Favor the Insurgents.

ARGUMENTS FOR RECOGNITION.

Senator-Elect Money Receives News from an Unprejudiced Source Which Indicates That the Revolutionists Can Never be Brought Under Subjection.

Washington, Jan. 31.—Bepresentative Money, of Mississippi, the sonator-elect from that state, has recently received al-vices from Cuba which are of considerable interest. According to the statements of Mr. Money's informant the devastation of Mr. Money's informant the downstation of that Island has been carried to such an extent that poverty, famine and wide-spread suffering will surely provail in the near future unless by some means the hostilities are brought to a close. The writer says that the crops of this season have been practically destroyed thrombout most of the Island, the came mills stooped, bridges burned, reads torn up and business almost entirely killed for the time. In the province of Fanta Clara, where 125,000 sacks of sugar were ground last year, no wheels have been turning this season, for to start a mill is to give a signal to the insurgents to blow it up.

The inevitable result of the continuance of the war, says the writer, will be a famine throughout the farmine districts of Cuba. The United States, being the nearest powerful neighbor of the binard, and

cate powerful neighbor of the Island, and having always responded to calls from suffering countries, will naturally be looked to to furnish assistance and relief.

Mr. Money is a member of the house committee on foreign affairs, and has taken pains to accure the most reliable in-formation from responsible parties in Cuba. The tenor of his correspondence is that Spain will never be able to conquer the revolutionists, and that the continuance of the war will involve more less of life and the impovertalment of both Spain

and Cuba.

A resent letter says that the rainy season will begin in about three months, and that the poorly fed and unacclimated youths who compose most or the Spanish youths who compose most of the Spanish regiments may be expected to die like sheep. The Spanish troops will be unable to pursue any military operations then, for there are few roads, and the forests and even the caneficids are impassable to people unused to the country.

The letter says that many Spanish residents of the island and all the Cubans support the insurrection. The Spaniards de-

dents of the island and all the Cubans sup-port the insurrection. The Spaniards de-sire some sort of autonomy and the Cu-bans want absolute independence or an-nexation to the United States. Most of the holders of large properties are said to favor annexation because they believe that greater protection to property would be secured under the control of the United States than under a native republic. States than under a native republic.

MARING A GOOD FIGHT.

Regardless of Spanish Statements, Insur-

gents Are Still Very Active.

HAVANA, Jan. 31.—Reports in circulation here are to the effect that Antonio Macco is in sore straits, his following being scarce of both aumunition and pro-visions, and being obliged to slaughter their own horses to cat. These reports are not to be traced to any very authoritative source, and are in part based upon sur-

There is no doubt that Gomez is making streamous efforts to open a way through the military line along the railroad from the military line atong the rattroad from Havana to Batabano, and it is said that Macco has sent several emissaries to Gomez appealing urgently to him for succor. In response to this appeal Gomez has succeeded in passing the military life, but the authorities claim he has not been able to keep any line of retreat open for himself.

Be that as it may, he is making progress westward, either with the purpose of joining Macco or of creating a diversion in the north and drawing off the forces in pursnit of Macco, while that leader works his way enstward in the south. The latter is regarded as the more probable course by observers here, as Gomez has been re-ported as passing Banes and as having northern coast,

The Spanish authorities are claiming that if Gomez has in reality set out for the west, and is not merely planning a countermarch back towards Havana his position will soon be badly compro-mised. But these claims have been made before, and the fact remains that Gomes is apparently in a way to succeed in his Immediate purpose of forming a junction with Macco or of affording him relief.

The insurgents continue the work of ravaging the province of Santa Clara and the destruction there is widespread. A hand of a thousand has burned isolated huts and destroyed the crops in the culti-vated zone of the district of Los Egodos. Numbers of families are homeless and seeking alms. Fort Martinez was also attacked and the garrison made a truly heroic defense until night, when the insur-

rents retreated with considerable loss. The band of Quintin Bandera is report to be moving in the vicinity of Manajabo, Santa Clara. They are troubled by a scarcity of ammunition. The cane fields of central Ciencepulto in the Clenfuegos district have been burned.

The insurgent forces in Santiago de Cuba are by no means depleted, and numerous bands are scouring the country around

Between Canas and Alfonso Doce, in Matanzas, the insurgents stopped an exgine and hanged the engineer

Insurgents Gaining Recruits.

TAMPA, Fla., Jan. 31.—Two hundred and thirty Cuban refugees arrived here last night. Marcos Garcia, mayor of Santos night. Marcos Garcia, mayor of Santos Espiritu, a prominent autonomist and personal friend of Campos, has now gone with the insurgents. Since Campos' de parture numbers have flocked to the in-surgents' banner. Macco went into Pinar del Rio with 4,000 men, but now has 12,000. He is reported at Guines, where he has established a new city government. Maceo is not wounded nor Gomez suffering with consumption.

Yale Will Race in England.

NEW HAVEN, Jan. 31 .- The arrival of Robert J. Cook, the famous couch, yester-day afternoon resulted in a conference with the undergraduate officers and a de-cision to send a crew to England to take part in the Henly regatta in July. As yet matters have not been entirely settled regarding the trip across the water. The faculty has not been consulted, and its consent must be obtained before the crew can cross the ocean. The expenses of the trip are to be nest partly by the graduates and partly by the treasury of the Yale Financial union.

Ministers Should Use ' MANY MILLIONS INVOLVED Dr. Miles' Heart Cure.

PAHERE IS NO PROFESSION, whose Isbors so severely tax the nervous system, as that of the ministry. The de-rangement of the nerve centers of the brain by over work, frequently brings on attacks of heart trouble, and nervous prostration. Bay. J. F. Koster, M. D., Pastor U. B. church, London Mills, Ills., himself a physician, writes Fob. 28, 1935; "Heart affection and nervous prestration had become so serious last fall that a little over work in Dr. Miles' that it seemed certain I Heart Cure of the ministry entirely. Heart palpltusion became Restores so bad that my suditors would ask me if I did not

Health would ask me if I aid not have heart disease. Last November I commenced taking Dr. Miles' Now Heart Cure afternately with Dr. Miles' New Heart Cure afternately with Dr. Miles' Nervine and derived the greatest possible benefit. I have just closed revival work of 10 weeks, preaching nearly every night and twice on the Sabbath. I can speak for hours without suffering as I formerly did. Hard working ministers should keep Dr. Miles' grand remedies on hand."
Dr. Miles' Heart Cure is sold on guarantee,

first bottle will benefit or money refunded.

Judge Goff Instructs for Defendant in a Famous Land Suit,

WHERLING, W. Va., Jan. 31.—A sense-tion was spring vestering in the United States court of this state, Judge Goff pre-siding, which brought to a sudden termination the celebrated King-Mullins land suit, involving 1,530,000 acres of valuable coal and timber land in this state, the title of which has been in dispute for many years and entisted the efforts of litigants

in two continents.

When court opened the autorney for the defendant asked the court for a verdlet, claiming that the lard in question has been forfeited to the state by not being entered on the tax books, a state provision being that hand not so entered for taxes for five successive years shall be forfeited to the state. The plaintiff argued that the statute is contrary to the fourteenth amendment of the United States constitution, which says that no man shall be de-prived of his life, liberty or property with out due process of law, Judge God ruled that the West Virginia

law relating to the force are of land for the non-payment of taxes is not in viola-tion of the following constitution, and instructed the Jury to bring in a verdict for

the defendents.

The abrupt ending of the famous case, involving so many callions of dellars, was a surprise to everybody, and the case will dentaless be appealed. A hundrest squatters on the family in dispute, who were in the court as witnesses for the defendance, are jubilant. Among them are the famous Hauffeld family, of Hauffeld Medoc famo. The rests in the case have been anciential, this being the second trial. this being the second trial.

A Noted Chemist Burned to Death. Paralouspara, Jan. 31.—Dr. Affrod L. Kennedy, at one time one of the most disan authority on medicine and bedshird and physiological matters, was barned to death has align in his offices at No. 132 Fouth Third-stock. It is believed by was experimenting with some chemicals when an explosion occurred. When the fireness arrived the offices were completely gartest, and Dr. Kennesty was found hurrord abmost to a crisp. Dr. Kennesty was born in this city Oct. 25, 1318, and graduated from the University of Pomestwans. After studying in France and Germany for ter studying in France and Germany for some years he returned to Palladelphia, and in 1912 established the first private school of chemistry in this evantry. He retired from practice in 1865, since which time he has devoted himself almost entirely to scientific research.

A Singular Divorce Suit.

GREEN BAY, Wis., Jan. 31,-One of the most peculiar civil actions over begun in the courts of Wisconsin was instituted in Green Hay yesterday, when Stanislaus Dazkowski filed the preliminary papers in a suit against Katherin Dazkowski for illvorce. The plaintiff is confined in the Brown county jall awaiting trial on a charge of nurdering the woman from whom he seeks a divorce. A fact that makes the proceeding more remarkable is that Dazkowski is alleged to have made a detailed confession to several Chicago po-licemen at the time of his arrest. In his suit for divorce Dazkowski el arges deser tion and abandonment. Daskowski is alleged to have burned the woman's body in a fire in the open air.

The Manitoba School Spark

OTTAWA, Ont., Jan. 31.—The members of the Dominion cabinet are having much difficulty in agreeing upon a draft of the Manitoba school bill. It was privately stated by an English speaking minister that a measure had been virtually decided upon which provided that the Roman Catholics of Manitoba be allowed to take a proportionate share of the provincial school by wheneville to subserve the school tax wherewith to support their separate schools. A telegram from Archbishop Langevin, however, declares that he will accept nothing short of a return to the old system.

The Proposed Bayard Censure Resolution. Washington, Jan. 31 -- No decision in the matter of censuring Ambas-ador Bayard was reached yesterday by the house committee on foreign affairs, but the discussion upon the question was one of the most interesting which that committee had indulged in for a long time. The members were practically opposed along party lines, the Republicans urging a reso lution of consure and the Democrats stand-ing by the ambassador.

The Suttan Was Displeased,

LONDON, Jan. 31.—The Constantinople correspondent of The Times telegraphs to that paper as follows; "It is reported that the Russian dragoman who frequents the palace daily has submitted a draft of the Russo-Turkish entente. The sultan was displeased at this, and said that between
