A Colored Bishop Barred Out.

BOSTON, Jan. 31.—Bishop Benjamin W. Arnett, senior bishop of the African M. E. church, in attendance at the Christian Endeavor rally, was refused as a guest at the Adams House, at the Parker House and at Young's hotel, in this city. The bishop was finally admitted at the Revere House, but there he was invited to take his meals in his room. The Endeavorers are highly indignant, and threaten legal prosecution.

Four Burned with a Log House.

MAISHALL, Mich., Jan. 31.—A log house in Marquette township, occupied by two families named Page, was destroyed by fire at 2 o'clock in the morning, and Mr. and Mrs. Harvey Page and their two sons, one 3 years of age and the other 3 months, were cremated. Not a trace of the bodies of the unfortunate victims, excepting a handful of ashes for each, was found when the ruins of the house were explored.

Dixon Fails to Defeat Palmer.

NEW YORK, Jan. 31.—Between 7,000 and 8,000 people witnessed the boxing exhibition at Madison Square Garden last night, the principal event being a six round bout between George Dixon, the colored featherweight, and "Pedlar" Palmer, the English bantam champion. The contest was declared a draw, much to the disgust of the majority of the audience, who thought Palmer had won the decision.

THE OPPOSITION TO PLATT.

Taking Action to Expose Frauds in the Republican Enrollment.

NEW YORK, Jan. 31.—A meeting was held at the Madison Square Music Hall last night by the members of the 500 who are opposed to Thomas C. Platt. The meeting was called to order by Edward N. Mitchell, and Cornelius N. Bliss was made permanent chairman.

Mr. Mitchell presented the report of the committee of twenty-five, appointed to "investigate the alleged frauds in the Republican enrollment in this city, and the validity of the present county organization." His report reads in part as follows:

"Under the direction of members of the bar, acting with the committee, a number of inspectors charged with fraudulent conduct at the recent primaries have been arrested and held for trial by city magistrates, and their cases are now pending before the grand jury. Further work in this direction is now under consideration."

The committee gives a list of the assembly districts in which they allege the enrollment has been padded to the extent of 25,000 names out of a total of 77,000.

Continuing the report says:

"The general conclusion drawn from the investigation, and from which the evidence leaves no possible avenue of escape, is that the men in control of the county organization have devised and carried through a deliberate scheme of wholesale fraud, intended to secure for themselves, without regard to the will of the majority of the Republican voters, the absolute control of the organization and of the delegations from this city to the national and state conventions. The frauds were so general throughout the city, the methods pursued in various parts of the city were so similar and the work so skillfully concentrated at the points where it would most surely accomplish its purpose that the proof of a carefully prearranged design is irresistible."

New York Fashion Letter.

A popular fur wrap for the mid-winter season is the Rejane Cape, a garment pointed in the back, short on the shoulders and finished in the front by stole ends that reach to the bottom of the dress. The entire cape is bordered with mink tails and is lined with fancy brocade. A favorite winter skirt is the Paquin time gored model, with wide box pleat in front and very flaring at the bottom. The rest of the skirt is in narrow gores which are either pleated or shirred according to the kind of fabric employed. For evening gowns white satin is a favorite fabric, especially in the use of skirts. Waists of every material from the daintiest tulle to velvet are made in tucks all around. French toques are again in vogue. Exquisite creations in jeweled embroidery, flowered velvet, sable and lace, etc., are seen at the openings. Historic collars, yokes and ruffles are gracefully imitated in all the novelties of jeweled and spangled fabrics, fanciful ribbons, velvets and laces. Green, gray, blue and brown are the prevailing colors in cloth gowns; though many new shades of plum, violet and dahlia appear in French weaves. One sees in the latest numbers of the Fashion Magazine published by A. McDowell & Co., a great variety of new ideas. These periodicals are very attractive and ever increasing in popularity. If you are unable to procure either of these journals from your newsdealer apply by mail to Messrs. A. McDowell & Co., 4 West 14th street, New York.

Millions in Assets.

Justice T. T. Williams-to-day received his commission as agent in Shenandoah and the immediate vicinity for the Philadelphia Underwriters, which is composed of the Insurance Company of North America, founded in 1792, and the Fire Association of Philadelphia, founded in 1817, with assets aggregating over \$15,000,000 and being the largest fire insurance corporation in the United States. Mr. Williams is also local agent for the American Fire Insurance Company of Philadelphia, with assets aggregating \$2,000,000. Westchester Fire Insurance Company of New York, with \$2,000,000 in assets; and the United Firemen's Insurance Company of Philadelphia with \$1,368,629.00 in assets; making the aggregate assets of all the companies represented by Mr. Williams over \$21,000,000. There can be no more convincing facts than figures themselves, and it is clear that the companies represented by Mr. Williams are in such financial condition as to insure all patrons against every loss. Applications for insurance will receive prompt and careful attention. Office No. 4 South Jardin street.

Electricity in Mines.

Preparations are now being made to light the main gangway leading from the bottom of the No. 3 slope at the Enterprise colliery, near Shamokin, with electricity. When this work is completed, which will be within a week, the Enterprise will be the first mine in this section of the state to discard the old method of illumination in any portion of its workings. The electrical locomotive which was recently placed in the mine and which was reported as being unable to perform the work expected of it, answers the purpose for which it was intended in a manner that cannot be surpassed. Electricity in Enterprise colliery is a great success.

Reese Released.

PHILADELPHIA, Jan. 31.—Peter Woll & Sons caused the arrest of Max Reese, of Shenandoah, on Tuesday on the charge of obtaining goods under false pretense. The prisoner purchased 200 pounds of feathers from the firm, through his New York broker, but the order was executed by a Philadelphia agent. He gave a check for \$88 in payment of the bill, and it was immediately paid into the bank by the prosecutors. The check was returned endorsed "No funds." Reese admitted the offense and contended that as it was committed in New York he could not be tried for it in this state. He was discharged.
