# DUNRAVEN'S CHARGES.

Report of the Committee Appointed to Investigate Them.

THEY WERE UTTERLY SENSELESS.

It is Clearly Proven That the "British Nobleman" Who Claims to be a Yachtsman Acted Like a Churlish Schoolboy, Though the Report Put it More Gently.

NEW YORK, Feb. 1.—The report of the committee appointed by the New York Yacht club to investigate the charges of Lord Dunraven, as published in an article in London Field, was presented at a special meeting of the club last night.

The article in question expressly charges that after being manhandled for the cup race in September last the Defender was surreptitiously loaded so as to sink her four inches deeper in the water; that she sailed in that condition on the first day's race, and that immediately after that race the ballast so loaded was secretly removed, so that when measured the next day (Sunday) no discrepancy was found to exist between the two measurements.

The report, which covers thirty pages of closely printed matter, gives in detail the evidence adduced at the investigation, and is signed by all the members of the committee, Messrs. E. J. Phelps, W. C. Whitney, J. Pierpont Morgan, A. T. Mahan and G. L. Rives. A careful reading of the evidence shows the utter senselessness of the alleged British sportsman's charges, and proves conclusively that had the Defender been ballasted as Dunraven claimed she would have had difficulty in defeating a coal laden harbor sloop.

In concluding the report the committee says: "Upon a careful consideration of the whole case the committee are unanimously of the opinion that the charge made by Lord Dunraven, and which has been the subject of this investigation, had its origin in a mistake; that it is not only not sustained by evidence, but is completely disproved; and that all the circumstances indicated by him as giving rise to his suspicion are entirely and satisfactorily explained.

"They deem it, therefore, but just to Mr. Iselin and the gentlemen concerned with him, as well as the officers and crew of the Defender, that the committee should express emphatically their conviction that nothing whatever occurred in connection with the race in question that casts the least suspicion upon the integrity or propriety of their conduct.

"And the committee are not willing to doubt that if Lord Dunraven had remained present throughout the investigation, so as to have heard all the evidence that was introduced, he would of his own motion have withdrawn a charge that was so plainly founded upon mistake, and that has been so unfortunate in the publicity it has attained and the feeling to which it has given rise."

Commodore Brown had called the special meeting of the club for 9 o'clock last night, but early as 8 o'clock the club members began to arrive. All was bustle and excitement up to the hour of meeting and the club house presented a very animated appearance, the model room, billiard and smoking rooms, as well as the hallway and stairways being crowded.

The only absent member of the committee was Hon. E. J. Phelps, who is out of the city. In the absence of Mr. Phelps, who was chairman throughout the investigation, the report was read by Mr. J. P. Morgan.

During the reading every point made elicited hearty cheers and applause. When Mr. Morgan had finished ex-Commodore James D. Smith moved that the report be received, accepted and adopted; that the thanks of the club be tendered to the committee for their very able and exhaustive communication, and that the committee be discharged. This was seconded and adopted unanimously.

Further consideration of the report and of the matters referred to therein was postponed until the next general meeting of the club, Feb. 13, and after transacting some financial business, which had nothing to do with the Dunraven-Defender case, the meeting adjourned.

# Dunraven Should Apologize.

LONDON, Feb. 1.—The Chronicle congratulates the Dunraven committee upon its studied courtesy and consideration, when the complete demolition of Lord Dunraven's monstrous charges might have justified the severest censure. "The only course open to him," says the Chronicle, "is an instant and complete apology."

The Standard says: "The committee's finding is studiously courteous and well calculated to lay the unpleasant business to rest. We trust that Lord Dunraven will be convinced that a mistake has arisen and will accept the hand the committee has held out."

The Morning says: "The decision, we are sure, will be loyally accepted by Lord Dunraven and by his fellow yachtsmen. The best way to show this is to make an early effort to recapture the cup."

Gen. Charles E. Buzzell, of Lakeport, N. H., Department Commander of New Hampshire, G. A. R., has something of interest to say to the people in regard to the remarkable curative powers of Dr. Greene's Nervura blood and nerve remedy.

People from overwork, strain upon brain and nerve or other cause, break down in health, feel that they are physically weak and that their nerve strength, energy and power are greatly diminished. Just so sure as night follows day will prostration and debility, the wreck of nerves, brain and body follow if a cure is not immediately sought.

Neglect is the fatal thing. Never allow the first symptoms—the tired feeling, the weakened nerves, the loss of power of endurance, the lack of snap and energy—to drift you into total loss of health. Take Dr. Greene's Nervura blood and nerve remedy now, and it will cure you as it cured Gen. Buzzell, as it has cured thousands upon thousands of others. It is the great curer of disease, the great strengthener of nerves, the great builder up of blood, the great invigorator of brain and body. It will make you well.

Do not class this most valuable remedy with patent medicines. It is a physician's prescription, and its discoverer, Dr. Greene, of 25 West 14th St., New York City, has the largest and most successful practice in the world in nervous and chronic diseases, and can be consulted free of charge, personally or by letter.
