A Resolution to That End Reported in the Senate.

VEST ASSAILS SECRETARY MORTON

The Missouri Senator Densunces the Practice of Furnishing Flowers from Govern ment Greenhouses for White House Receptions-House Passes an Anti-Prize Fight Bill.

WASHINGTON, Feb. 6 .- The most caustic utterance heard in the senate since Mr. Tillman's sensational speech was that of Mr. Vest, of Missouri, yesterday, arraigning Secretary of Agriculture Morton. The keen sature and ridicule directed against keen satire and ridicule diffusions against the secretary, and the allusions to the president made the speech hardly less nota-ble than that which recently startled the sensite. Mr. Vest referred decisively to "the collossal intellect dealing with cab-binsts." At one point the sensitor said bages." At one point the sonator said: "The secretary of agriculture charges from his office, reminding us of what Cicero says of Cataline's flight from the sen-ate, 'Abelt excessit, evasit, erupit.' When the secretary of agriculture hears of a silver lunatic he is like the war horse in Job; his neck is closed with thunder. You might go further and say, 'He saith among the prophets ha! ha! and he smelleth the battle afar off, the thunder of the captains

and the shouting."" Mr. Vest severely criticized the practice

of furnishing costly flowers from government greenhouses for the receptions at the executive mansion, and added: "Sir, I man in a distant county of the west, who is fighting the hard battle of life, I would Tather give him something that would make his cheerless home comfortable and bring light to his fireside. I would rather put one flower in the sick room of a noble working girl or matron than to have it said that I had voted a hundred and odd thousand dollars for the flowers and ex-of the officials of this government where the chandailer flashes its light across the blessed." A new phase of the Cuban question was presented by Mr. Morgan's report from rather give him something that would make his cheerless home comfortable and bring light to his fireside. I would rather

esented by Mr. Morgan's report from the committee on foreign relations declaring that in the opinion of congress a condition of public war exists between the government of Spain and the government proclaimed, and for some time maintained by force of arms by the people of Cuba, and that the United States of America should maintain a strict neutrality between the contending powers and to ac-cord to each all the rights of belligerents in the ports and territory of the United

States. The action of the committee upon the resolution as finally agreed upon was unanimous, with the exception of Senator Cameron, who announced his adherence to his position looking to the formal recog-

ition of the independence of Cuba. The substitute differs from the original resolution in that it is a direct recognition, so far as congress can give it, of the belligerent rights of the Cubans, and does not contemplate, as did the first measure, any appeal to Spain to accord such rights. It contemplates taking the matter entirely out of the hands of the president, as he is not required to sign a concurrent resolution.

There was an effort in the committee to have the resolution put in such shape as to have whatever action should be taken by this country executed by the president, but the suggestion was overruled on the theory that congress should act indepen-dently, leaving the executive to pursue whatever course he may doem proper. The committee realizes that there can be no formal acknowledgment of Cuban rights except through the president, but think the adoption of the resolution by both houses would have a strong moral influ-

ence. The house yesterday passed a bill to pre-vent prize or bull fighting in the terri-torics of District of Columbia. The de-bate on the senate free columps substitute for the house bond bill, which will last until Friday night, was opened, and the District of Columbia appropriation bill was defeated. The defeat grew out of the war that has here a set of the start o war that has been waged for several days against appropriating money in the bill Holland, Mass., had a very had cold and cough for sectarian charitable institutions Sixty-one Republicans broke away from the majority and, with the Democrats, defeated the bill. This was the first time, so far as could be learned, that a general appropriation bill had been defeated, and Mr. Crisp made it the text for a satirical

But is it, After All, So Very Absurd Upon Consideration.

There May be Two Sides Even to a Fool Question,

At a recent meeting of modical experts, the pparently absurd question was propounded : Which has the better chance of life, a sick r a well person?

At first it looked ridiculous, but after earnest discussion it was unanimously decided that an ordinary sick man had a better chance to live than the well man. Why?

Few people are dangerously sick; the majority of sick people are those who are slightly out of health, run down, out of order, exhausted in - nerve and physical power from overwork, dissipation or other cause. For every dangerously sick person there are ninety-nine whose cases can be easily and readily cured.

In that lies the reason.

"I think if I had not found relief I should have been insane. But I did get relief in Dr. Greene's Nervura blood and nerve rom-edy. I saw it advertised and heard of it through my friends, and I got three bottles and was completely relieved, so that I slept well and ato well. "I certainly think I never should have kept up if it had not been for Dr. Greene's Nervura, and I can truly say it is a wonder-fully good medicine and recommend it to all. DENTAL STUDENT UNDER ARREST. The Body Said to be That of Miss Pearl

Bryan, Who Left Her Home in Green eastle, Ind., with Scott Jackson-On the Trail of an Accomplice.

CINCINNATI, Feb. 6.-Late last night Chief of Police Dietsch, in response to a telegram from detectives who are investi-gating the headless body murder mystery, ordered the arrest of Scott Jackson, 24 years old, a dental student. He is charged with the murder of Pearl Bryan, for that is said to be the dead woman's name. The detectives state that they are on the trail of William Wood, an alleged accomplice. Jackson was examined by the mayor and chief of police in the mayor's office. His account of his whereabouts last Friday was not satisfactory. He denied guilt, but admitted that he knew Pearl Bryan He could tell nothing about where she was or where she had been during the past two weeks. As to his whereabouts last Friday night, his roommate, Mr. Tamey, said Jackson was at home Friday night. That

was all he could say, as Jackson could go in and out whenever he desired. Jackson dedared he was in the room all night. The weakest part of his story is that about his conduct on Last Saturday. He boarded at 222 West Ninh street, next to Robinson's Opera House. On Saturday

he took a value and left it in Lengter's saloon, opposite his boarding house. This values he carried with him all over the city that day. The accounting for this value, and why he carried it all day and

night, puzzled him more than anything else. In fact, he prevariented, and after-ward acknowledged that he did. The matter will be sifted in court. Meanwhile he is committed without ball. GREENCASTLE, Ind., Feb. 6.—The family of A. S. Bryan, a leading farmer living less than two miles from this city, have

identified the clothing brought here by de-tectives from Cincinnati and Newport, Ky., as that of their daughter, Pearl Bryan. They furnished other information and circumstances which left no doubt in the minds of the officers that the body of the woman murdered and beheaded near Fort Thomas, opposite Cincinnati, last Friday night, is their daughter Pearl, aged 23 years, who left home Jan. 28, osnged 23 years, who left none Jan. 28, os-tensibly to visit her friend, Miss Jane Fisher, on Central avenue, Indianapolis, but that she was taken to Cincinnati by Scott Jackson. The officers at once sent word to Cincinnati to have Scott Jackson arrested. The mother of Scott Jackson lives here, and the families were intimate and highly respected. The Bryan family also gave information that led the officers to order the arrest of William Wood, the son of Rev. D. M. Wood, of South Bend, Ind. It is said that Miss Bryan was a vic

BEBLIN, Feb. 6 .- Prince Frederick Hohenzollern, who resigned the command of the Third army corps because the emperor refused to confirm the decision of the board of honor on the Von Kotz case, intends to quit Berlin and to reside in South Ger-many. Prince Albert of Saxe-Altenburg will also retire to his estate in Necklen burg. These departures, following closely upon those of notabilities like the Duke and Duchess of Ratibore, Prince and Princess Pless are the occasion of much com ment, and Berlin seems to be losing the attraction with which the old emperor's unfalling courtesy and consideration in

vested it. Efforts to Save "Wilson." HOLLIDAYSBURG, Pa., Feb. 6.-The at-torneys for Frank Koons, alias Wilson,

who was convicted last week of murder in the first degree, filed a motion for a new trial yesterday. The main complaint of alleged wrong done Wilson in the trial is the address of the district attorney to the jury, in which he said too many murders have gone unaverged. There are 8,000 unpunished murders in Pennsylvania alone. Judge Bell did not fix a date of hearing to dispose of the motion.
