REPUBLICAN STATE CONVENTION.

To the Republican electors of Pennsylvania:
The Republicans of Pennsylvania, by their duly
chosen representatives, will meet in State con-
vention Thursday, April 23, 1896, at 10 o'clock
a. m., in the opera house, city of Harrisburg, for
the purpose of nominating two candidates for
representative-at-large in Congress and thirty-
two candidates for Presidential electors, the
selection of eight delegates-at-large to the Re-
publican National convention, and for the
transaction of such other business as may be
practicable.

By order of the State Committee.
M. S. QUAY, Chairman.
J. H. ANDREWS, Secretaries.

CHAIRMAN HARRIS has hired the
Colosseum in which to hold the Democratic
National Convention. He will need to secure
the Colosseum for use after November 3rd.

A CYNICAL philosopher, being asked to give
his answer to the question, "What is home,"
replied: "The place where you are treated
best and grubbed most." He was a close
observer of human nature.

The live oak mill is still dragging along its
drowsy way. It is little surprising to the
average citizen that so many people are to
be found who are ready to assert that Shen-
andoah needs any more beer saloons than are
now here.

WILKESHARRE's post office fight is waxing
hot. A large delegation of the supporters of
Editor Bogert besieged Postmaster General
Wilson in his behalf. It is now in order for
the supporters of his opponent to march on to
Washington at once.

JAMES MCCARTHY'S resignation of the
position as leader of the Irish Nationalist
party only tends to call attention to the low
state of Home Rule affairs and the woful
condition of the party which, under the
leadership of Parnell, had almost accomplished
the object that remarkable statesman devoted
his life to.

JERRY SIMMONS, who acquired some
notoriety while in Congress as a representa-
tive from Kansas because he didn't wear
glasses, announced to the public that he does
wear them now. Jerry was evidently cor-
rupted by his residence in Washington, and
it is not surprising his strange constituents
left him at home.

The Alton girl who poisoned her uncle
and came pretty nearly scolding to kingdom
come three other persons is a precocious
maiden. She gives as a reason for this
wholesale act of villainy that she wanted
to make them all sick so she could steal from
them. She will probably end her days in a
place where the chances to steal are reduced
to a minimum.

THE Senate appears to be getting in line
with public sentiment on the question of
recognizing the Cuban insurgents as belliger-
ents. Recognition by the United States is
conceded to be the death knell of Spanish
supremacy in Cuba, and in the name of
humanity it cannot come too soon. The
signatory Weyler will be there for long,
and if he maintains the reputation he
attained by his latest uprising the sympathy
of revolutionists will be greatly

weather prediction by somebody a
ago that February would be the
best month is likely to be fulfilled, if any
dependence is to be placed upon the Indian
belief that we never have real cold weather
until the streams are full. The frequent
rains and snows of the past week or two have
had the effect of giving fresh and stronger
life to the springs, which in their turn have
been contributory to the volume of the
larger streams, gradually bringing them
nearer to their normal condition at this
season of the year. There is no longer room
for apprehension in regard to a beautiful
supply of water, and if Indian belief is worth
anything we can begin to prepare for much
colder weather.

It is a lasting misfortune, says the New
York Sun, that in the winter of 1862 Grover
Cleveland did not do what Benjamin Har-
rison has just done, namely, put himself out
of the race for his party's renomination for
the Presidency. At that time Cleveland was
in precisely the situation from which Gen-
eral Harrison has honorably removed himself.
He was being pushed for renomination by
the solid gang of politicians whom, as Presi-
dent, he had made officeholders. There
should have been impressed upon his mind,
far more vividly than upon Harrison's, the
statesman's dread of "officeholders inflated
with a zeal born of benefits received and

fostered by the hope of favors yet to come,"
and of the "danger to a Government by the
people in the eligibility of a President for
re-election." To-day Cleveland's obligation
to declare his Presidential ineligibility is ten
thousand times greater than it was four
years ago.

GREAT DAMAGE BY STORM

(Continued from First Page.)
FIRST HOUSE. The people are, most of them,
of the poorest class. The water works,
the town's only means of supply, are
flooded by six feet of water and are utterly
useless. The electric light station is flooded
and the town was in darkness last night.
Late last night the waters began to recede.

The Storm in New Jersey.
JERSEY CITY, Feb. 7.—The wind and
rain caused considerable damage and trouble
along the Jersey coast and throughout the
state. From every part of the state came
reports of delayed traffic, damage to
houses and barns and washed out roads.
In some places trolley cars stopped run-
ning entirely. Trains on all the railroads,
with the exception of the Pennsylvania,
were behind. The salt marshes of Hudson
and Bergen counties were flooded and the
railroad tracks were barely above water.
From Marion, back of Jersey City, where
the waters of the Passaic and Hackensack
met, as far as could be seen, there was not
a sight of the earth on the lowlands ex-
cept the embankments of the railroads.
Along the Atlantic coast from Cape May to
the Highland sea beach with terrible
fury against the sands and bluffs, and
caused considerable alteration in the coast
line. Along the Delaware river the damage
was considerable, the rush of water
being greater than the spring freshet.

Manufacturers Compelled to Shut Down.
ALLENTOWN, Pa., Feb. 7.—The heavy
rain and snow have caused much damage
here. The three rivers centering here, the
Lehigh, Little Lehigh and Jordan, began
rising at noon yesterday and are now reach-
ing torrents. The water rose three and a
half feet at the wire mill. All manufac-
tories on the lowlands were compelled to
shut down, the water flooding the lower
floors. Such a sudden and tremendous
rise was never experienced here before.
The flooded streets and numerous wash-
outs compelled the Traction company to
abandon two of its lines. The Catawoga
creek rose so suddenly as to flood Davies
& Thomas' large foundry and destroy all
molds. The works may not be able to re-
sumé for a month.

Ashore on Two Mile Beach.
CAPE MAY, Feb. 7.—An unknown three
masted schooner is ashore on two mile
beach, the first beach north of Cape May
City, and appears to be well off shore.
From appearances the hull is covered with
water and the rigging gone. The heavy
rains and fogs which have again come up
have prevented any effort at rescue. The
heavy sea badly washed south Cape May's
breastwork and boardwalk.

Running of Trains Abandoned.
EASTON, Pa., Feb. 7.—The heavy rain,
following closely upon a six-inch snow
fall, caused a freshet of unusual mag-
nitude in the streams in this vicinity. In
the Bushkill valley much damage was
done to the tracks of the Easton and
Northern railroad, the roadbed being sub-
merged in several feet of water in many
places. Running of trains was aban-
doned.

Boats on the Street at Reading.
READING, Pa., Feb. 7.—The Schuylkill
river rose nine feet yesterday. The low-
lands were inundated, and the damage
will be heavy. In Nicolls street, this
city, the sewer became choked up, and
the people living in the house had to
be taken out in boats.

A New Life of Grant.
For upwards of two years, the publishers of
McClure's Magazine have been quietly
gathering material and pictures for a new
life of General Grant. They believe that
they have made a larger collection of por-
traits of Grant (many of them rare) and other
pictures relating to his life, than has ever
been made before. This biography will
bring out the real Grant in the same vivid,
thorough, and interesting manner as Lincoln
is presented in the "Life" now running in
McClure's. They have been fortunate in
securing the co-operation of Col. F. D. Grant,
who has most of his father's papers.

BE STRONG AND HEARTY

How to Be Strong and Full of Life and Vigor.

If you starved for two days you would feel
as weak as a cat.
Proof enough that your food is the cause of
your strength. Your stomach, well and help-
ful your strength. Slowly perhaps, but
none the less surely.
You feel it yourself.
You have nausea, loss of appetite, head-
ache, dizziness, pain in the stomach, loss of
strength, spirits and ambition.
What do you think? That's your head?
But it's not. It's simply your stomach.
Food is strength. Stomach makes it avail-
able. If stomach won't work, food does not
become available strength.
Shaker Digestive Cordial will, in a few
days, get your stomach well and help
your food make you strong.
Who wouldn't be strong? Whoever won't
take Shaker Digestive Cordial.
Sick, tired, weary men and women, those
who are working their bodies and brains too
hard, will find relief and strength in Shaker
Digestive Cordial.
It makes strength. It makes health. It
makes happiness.
It's not an ordinary medicine, it's a
cordial.
It's pleasant to take and more than
pleasant in its results.

WAS IT ATTEMPTED ROBBERY?

**Celling Breaking at the Post Office Causes
Some Excitement.**
Some excitement was caused this morn-
ing by a report that an attempt had been
made to burglarize the post office. The re-
port was due to a discovery made by the cus-
tomers when they entered the place this
morning. There was an opening in the
ceiling about 41 feet long and 18 inches wide,
which had been made from the apartment
over the post office. This apartment is the
second from the corner of Oak street, front-
ing on Main street, and was formerly occu-
pied by the Friendship Social Club, but has
been vacant for a long time. The post office
people concluded that the burglars were
frantically aware before making a sufficient
opening to allow the lowering of one of their
number into the post office. Several young
men say they noticed with the Seaman-
Durkin Company in the theatre part of the
building until 11:30 last night and saw no
suspicious characters. Alex. Strouse says he
was at his pool room on the nearest opposite
corner to the building until 2 o'clock this
morning and saw nothing to arouse his
suspicions. The police made frequent trips
in the neighborhood last night and this morn-
ing, but did not have their suspicions aroused,
and the watchman in the First National
Bank, which is immediately next to the post-
office, heard nothing.

Postmaster Mellet is of the impression that
the attempt was made by some laughing local
crooks and says they may have secreted
themselves in the building some time during
the day. P. J. Ferguson, the owner of the
building, says the idea of an attempted
robbery. He says he was in the room over
the post office with a gas filter yesterday
afternoon and saw that an opening made in
the flooring some time ago to make gas con-
nections had been left uncovered. It is his
belief that some frequenter of the building
strayed into the room last night and acci-
dentally stepped into the opening, breaking
the ceiling of the post office room. Post-
master Mellet says burglars would gain
nothing in the office. They could only cause
inconvenience by either scattering or
destroying mail matter.

Forged Cattle Pedigrees.
HARRISBURG, Ky., Feb. 7.—Randall
Litzoy, who forged pedigrees of certifi-
cates of transfer of Jersey cattle, has been
tried here and declared by a jury to be insane.
He was prosecuted by the American
Jersey Cattle club, of New York. Litzoy's
forgeries cover several years and affect
pedigrees all over the country, as he was
an extensive dealer. He was ordered to
the Lexington Insane asylum.

CUBAN RECOGNITION.

**The House Foreign Affairs Committee Opposes
Precipitate Action.**
WASHINGTON, Feb. 7.—Cuba was broached
in the meeting of the house foreign affairs
committee yesterday by Mr. Pearson, who
suggested that since the senate committee
had made its declaration the house com-
mittee should consider the question of
recognizing the belligerents without de-
lay. Mr. Quigg, of New York, and Mr.
McCreary, of Kentucky, asked Mr. Adams
for his opinion of what attitude this gov-
ernment should take toward the insur-
gents.

The opinion of Mr. Adams was that this
government should be slow to take any
radical action. Under the usage of inter-
national law he believed it to be the duty
of this government to sustain the power
with which it had treaty relations, as the
treaties with Spain bound it to do.
The point was raised by Mr. McCreary
that the authority for recognizing the bel-
ligerency of the Cubans was held by the
president, and did not belong to congress.

Mr. Smith made a vigorous reply to this
argument, declaring that no statute and
no provision of the constitution invested
the president with such power. While this
authority had been exercised by the presi-
dent, it was a matter for congress. A joint
or concurrent resolution, which, if adopted,
must be signed by the president, was the
proper method.

Mr. Money, of Mississippi, questioned
him concerning the existence of war,
uravating a distinction between war and in-
surrection. To this Mr. Smith replied
that there was unquestionable evidence in
possession of the war department that
Spain had sent 100,000 troops to the island
and that with the mobilization of the
Spaniards in Cuba she would have 100,000
men in the field.

The most enthusiastic support is given
the revolutionists by the younger Republi-
can members of the committee, the same
contingent which secured the adoption of
the resolution of censure upon Ambassa-
dor Bayard, and they are confident that
they will again prevail.

No Further Hope for Bat Shea.
ALBANY, Feb. 7.—Judge Mayham has
denied the motion for a new trial for Bat
Shea. His reasons, he said, for so deciding
is that the confession of McTough was
not supported by his evidence given be-
fore the commission appointed by the gov-
ernor, and as placed in contradistinction
to evidence of the witnesses for the people
at the trial was lacking in confirmation
in any instance. There is no appeal from
his decision. Judge Mayham, and Shea
will be executed on Tuesday next, a re-
prieve having been granted until that
time by Governor Morton.

sleeper were thrown on their sides and
badly broken up. Wonderful to relate, no
one was hurt. The wreck was caused by
defective trucks under the engine tenders.

Crushed to Death Under Falling Walls.
BROOKLYN, Feb. 7.—Two men were
killed and two injured yesterday by the
fall of a three story brick building in
Third avenue, this city. The building was
condemned nearly a year ago. The upper
floors were vacant, but the first floor was
rented by James Quigley, who used it as a
cooperage shop. Quigley usually had ten
men at work in his shop, but yesterday
there were only himself and three others.
The dead are: James Quigley, proprietor
of the cooperage shop; Simon Seaman, a
workman. Injured: Michael Malchay,
probably fatally; Daniel Moschan, slightly.
The building seemed to give way in the
center, and the whole south side was to-
tally wrecked. The building had been
shaking in the wind for some time, and it
is supposed the center of the roof gave way.

Contractor Dakin of Syracuse Tells of the Final Success of a Big Undertaking.

representative business man of that city.
Our representative found him over-
seeing the sewer work at the Arsenal, and in
the following interview he describes how
he has finally completed the biggest con-
tract he has ever undertaken.
"Mr. Dakin, doesn't your business ex-
pose you to many unhealthy conditions?"
"Yes, I am continually catching cold."
"Does it affect your general health?"
"It has brought on kidney disorders."
"Have you been troubled from that
source any length of time?"
"I think it started during the war, in
which I took an active part, and every
cold I catch has aggravated it."
"What were the symptoms?"
"Lame back and trouble with the kid-
ney organism. I have doctored for years
and used all kinds of remedies I heard of,
without relief. My case is as follows:"
"Some little time ago I was in a very
bad condition, hardly able to hobble
around; I had been in Madison County
looking after a contract there for the State.
I got very wet, and, as usual, was laid up.
I was simply twisted away around and
doubled up on one side; when I attempted
to stand up it seemed as though I would
tear out one of my kidneys; while in this
condition I saw Doan's Kidney Pills ad-
vertised. Being almost desperate, I was
willing to try anything for relief. I be-
gan using them, and the result was truly
wonderful. I feel as young as a boy, and
it is the first time in many years that I
have been perfectly free from pain in the
small of my back. All urinary troubles
gone. I am perfectly well, and no traces
of my former trouble remain. I gladly
recommend Doan's Kidney Pills."
