In some respects the present campaign has been an nunsually quiet one for a political contact in Shenandoah. DR. NANSEN'S DISCOVERY.

Has Reached the Pole, CHRISTIANS, Norway, Feb. 17.-Wide-spread as is the interest over the whereabouts of Nansen, an interest extending today over the whole world wherever the telegraph and the cable can reach, it can re be more keenly felt than in the heart of his devoted wife, who lives in this city, whence the expedition in the Fram sailed on June 24, 1893. Having in mind the first news of himself that the explorer could by any possibility transmit would probably be directed to his wife, a representation of the Associated Press has called upon Mrs. Nansen to inquire what intelligence she has of her husband's whereabouts.

She has received no word from her husband directly, but she is profoundly hope-ful that the news, which first came from Jakutsk and has since been correborated from other sources, is authentic and that Dr. Nansen has, in fact, solved the secret of the north pole and is now safely emerg-

It must be added, however, that there is a reservation of doubt in Mrs. Nansen's mind, despite the hopefulness that buoys her up. The absence of direct news to her-self leaves the room for this doubt. She will not allow herself to take assurance of her husband's good fortune until she hears it from himself. She fears the possible fall from this high point of happlaces should

there be subsequent disappointment. Scientists here, whose sympathy with Dr. Nansen and the objects of his expedition is very vivid and cordial, believe from the news received that Dr. Nansen has really reached the coast of Siberia and is returning from the pole.
