TRYING TO SETTLE WITH FRANCE.

The Brazilian Minsiler at Paris Has an Audience with M. Berthelst, French Minlster of Foreign Affairs-The Republic's Internal Troubles.

Pants, March 3.—M. Berthelot, the min-ister for foreign affairs, gave an audience yesterday to the Brazilian minister, who is armed with power to arrange for arbitration of the matters in dispute regarding the possession of the Amapa territory. The Brazilian minister submitted a project for a mixed commission to control the

disputed territory pending a definite settle-ment of the dispute.

His DE JANEIRO, March 3.—Since the revolution of 1805 9s the political situation in Brazil has not been so critical as at present. Nothing but storm clouds are to be seen coursing across the sky of polities of this, the youngest of American re-

Grande do Sul announced that Castilho had purchased 2,000 Mauser rilles, and that he was arming three new regiments of infantry, with the intention of actively opposing the federal government if any attempt is made to restrain him from persecuting the insurgents who have returned to their homes. But Castilho is enjoying the support of the Jacobines, and they have succeeded in bringing about the overthrow of General Oneiroz, the officer who throw of Genera I Queiroz, the officer who succeeded in restoring order in Rio Grande do Sul, and so Castilho is practically in full control and in opposition to the president. Reports reach here almost daily of murinstigation, and the authorities seem to be

nt, the dispute between France and Brazil regarding the ownership of the Brazil regarding the ownership of the Amapa territory is rapidly growing as dangerous as it is possible to be. Nego-tiations have been in progress between the two governments for a long time past looking to the settlement of the matter by arbitration. But it is doubtful whether the people of the state of Para, who have considerable interests at stake in Amapa, and who have extensive settlements there, could be prevaled upon to evacuate their tands peacefully.

Then came the landing of a French force

Then came the landing of a French torce at Amapa from the gunboat Bengall and the increased ill feeling which followed. Here again the Jacobines showed their hand, and insisted that this landing, as well as the ownership of the territory, should be submitted to arbitration, hold ing that Brazil was entitled to damage as a result of the action of the French agent. France would not give her consent to this, hence the increased gravity of the dituntion.

In the meanwhile bands of filibusters, directed by Cabral, the representative of Para in the Amapa territory, have been seizing property here and there and squat-ting on it regardless of the protests of the French. Numbers of Frenchmen have been killed, and other outrages innumer

able have been recorded. Now, it is stated here in official circles, France has become tired of this state of affairs, and has sent an intimation to Brazil that unless her citizens are promptly protected and their wrongs redressed a French squadron will be sent to Amapa, and French troops will be disembarked to protect French interests.

A few days ago the Brazilian cruiser Guaranay was ordered north to cruise in the waters of Amapa, and a conflict be-tween that vessel and the Bengali or some other French craft may be anticipated un-less both sides use more tast than they have hitherto displayed.

"Kid" McCoy Defeats Ryan. Maspern, L. I., March 3.—There was a big crowd in attendance at the Empire Athletic clubhouse last evening, and some lively fighting was witnessed. There was first an eight round bout between Larry Burns of Cohoes and Jack Downey of Brooklyn, which was declared a draw. Then came the bout between Tommy Ryan of Syracuse and "Kid" McCoy, late of Memphis. This was a genuine prize fight with gloves, Ryan being completely knocked out in the fifteenth round.

Nervura Indeed the World's Great Spring Medicine.

Dr. Greene's Nervura blood and nerve remderate for this disturbing state of affairs. The Jacoblinos, with Francisco Glycorio and Quintino Bocayuva at their head, are held responsible for the troubles at Sao Paulo, a few weeks ago, during which a great number of important stores, etc., belonging to foreigners were destroyed. They are also said to have instigated the disturbances at Santos, where the editorial and printing offices of two newspapers were entirely demolished, and they are also held responsible for the troubles at Ouro Preto, where two men were killed and many were wounded as a result of the rioting which broke out there.

Briefly, the Jacoblinos are opposed to all foreigners in Brazil, and its members take every opportunity of showing their dialike for the foreign population. But they are already very powerful in congress and throughout the country, and there is great danger that they will be able to overthrow the president and his government.

Then again, further trouble is anticipated in the state of Rio Grande do Sul. After the vote of cougress by which general amnesty was declared for every person who had directly or indirectly participated in the revolution in that state, people anticipated that quiet and prosperity would reign there for some time to come. The government of President Moraes sent General Innocencio Galvaco de Queiroz as commander in chief of the federal forces in Rio Grande do Sul, and the revolutionary troops surrendered their arms to him. But the president did not take into consideration that the governor of that state, Julio de Castilho, had not been consideration that the governor of that state, Julio de Castilho, had not been consideration that the governor of that attate, Julio de Castilho, had not been consideration that the governor of that the group was a bird in spring.
