He informed me that the government, on its own motion, has taken every precaution to guard the legation and my residence. I have asked no protection."

Prior to the receipt of the dispatch messages reporting the assault on the Barcelona consulate had been received from both Minister Taylor and Mr. Herbert Bowen, the consul at Barcelona.

Several thousands of dollars have been expended in the work and the future of the colliery ranks with the best in the state. It will last a generation at least.

The interior improvements at the colliery embrace, among other things, a 4th lift on the Buck Mountain vein at a depth of 300 feet.

Tunnels cutting the Lykens and Seven Foot veins, each about 7 feet thick, have been driven on this lift and a tunnel is now being driven to cut the Mammoth, Holmes and Primrose veins.

Another important improvement is a water shaft, which is at present down only about 60 feet but is to be sunk to the depth of 1,000 feet and be used for hoisting all water from the Gilbert and Draper collieries.
