Soldiers Bound for Abyssinia Forced from a Train and the Track Torn Up to Prevent Their Departure - Denouncing Premier Crispi and His Cabinet.

ROME. March 5.-Further details were received last night concerning the defeat of the Italians at the battle of Adowa, and they tend to confirm the most alarming reports circulated, although the exact number of men killed is not jet an-nounced. The Matin, however, publishes a statement saying that 5,000 were killed in Sunday's battle.

General Baratleri's force consisted of

sixteen battallous of white troops (Italians), six battalions of native troops and twelve batteries of artillery. Since the de-feat no news has been received from Gen-eral Dabormida's brigade, which was composed of seven white battalions and four batteries of artillery. General Albertone and Arimondi and their brigades are also missing, and it is believed they have been betaliding.

It is almost impossible to describe the state of excitement in Rome, and no such scenes have been witnessed since the occupation of this city by the Italian troops. The whole population seems to be in the streets, and the entire police force as well

as the troops of the garrison, are on duty.
It is stated that the resignation of the ministry will be formally announced to parliament this afternoon. After this has been done both houses will adjourn and await the decision of King Humbert upon what action he will take. The king in-formed Signor Crispi that he must have time to consider whether he will accept the resignations of the ministers, and he conferred last evening with the presidents of the senate and the chamber of deputies upon the subject.

The whole country appears to be as ex-cited as the inhabitants of the capital, and it is reported that rioting occurred during the day in several cities. The press con-sor, however, is holding back all dispatches liable to increase the state of alarm pre-vailing, and some time must clapse before the real truth is known.

The war office has been besieged during

the day by crowds of people, and is now surrounded by troops. The offices and residences of all the ministers are guarded and the guards at the palace have been doubled. In the main thoroughfares shouting crowds assemble every now and then, calling for the downfall of the ministry, only to be dispersed by the police. Numerous arrests have been made, and the police escorting the prisoners to the different de-pots have been in several cases roughly handled by the mobs.

Late last night there was a serious conflict between the police and a mob which flict between the police and a mob which seemed bent upon making a demonstra-tion before the palace. The national flag was carried 'draped with crepe, and there were cries of "Down with the ministers!" "Down with Crispi!" and "Death to Ba-ratieri!" Papers containing pictures of Signor Crispi were burned in the public streets with every accompaniment of con-tunely and wrath expressed against the treemier. Crowds were parading the streets premier. Crowds were parading the streets everywhere, shouting "Down with the government!" "Down with the murderers!"
The police and carbineers were finally obliged to take a hand, as the volume of the public wrath was fast assuming dangerous proportions, and the paraders were at last dispersed. Many arrests were

The government is being urged by some of the most prominent men in the country to give to the press all the news in its pos-session, and it is still believed that the worst has not been told, and that the war office is in possession of facts still more startling than those which have already leaked out. One rumor has it that the en-tire Italian army was practically wiped out, and that only a battalion or so succeeded in reaching Asmara. At the war office, however, it was stated that this is an exaggeration.

The truth of the matter seems to be that the ministers are anxiously awaiting the port of General Baldissera, and that, in the meanwhile, they are suppressing the facts which reached them previous to his arrival at Massowah. This, at any rate, is the most charitable construction to place upon the apparently cruel silence of the government. But the excitement will not diminish to any appreciable extent until an official statement has set at rest

the slarming rumors in circulation.

Details are being received of violent scenes congted yesterday at different points all over Italy, which the government has sought in vain to prevent the publication

sought in vain to prevent the publication of. The whole of Italy seems to be in the hands of the aroused populace, indignant at the government, which is apparently powerfess to quelt the outbreaks of wrath. Popular demonstrations of the most violent character have occurred throughout the Italian peninsula. The most serious of these occurred in Milan, where \$5,000 persons took par: in the disorders, 30,000 persons took part in the disorders, amounting to a popular uprising. The police of that city had their hands full to bring the crowds under control, and were forced to charge through the streets with fixed bayonets before they succeeded in dispersing the mob. A large number of

ns were injured. At Pavia the population turned out en se to protest against the dispatch of further troops to Africa. Some of the re-inforcements designed for the relief of the Italian army in Abyssinia were to depart from that city yesterday, but they were taken possession of bodily by the rioters, in whose ranks were included men, wemen and children. The soldiers were forced out of the cars in which they had taken their places preparatory to departure, and the mob then tore up the rails along the track and made the soldiers promise not to leave the town. There wer many demonstrations at other against sonding more troops into Africa.

DUPONT'S SENATORIAL CONTEST

The Fight for a Seat from Delaware in the Upper House.

Washington, March 5.—The senate yesterday fook up the contest over the sent claimed by Henry A. Dupont, of Delaware.
Mr. Dupont was present during the argument of the contest of the cont

pont began, also was present. The arguments were of a strictly legal and tech

nical nature, there being no division on the fact involved. After a protracted con-

test in the Delaware legislature Dupont received fifteen votes. This was a ma-jority of the twenty-nine state senators

and Republicans who had a right under the claim of Dupont to a vote. But it was

"I regard my improvement simply as wonderful, since using Dr. Greene's Nervura blood and nerve remedy. Before using the medicine I had been running down for some time. I had a liver trouble, and was very nervous, and I had such a tired feeling all the time. I had no appetite and was growing poor and losing flesh all the time. I was not able to do any kind of work and had no strength nor energy.
