The Travelers' Guide.

On the first day of July, 1871, a small rail-way publication issued for the first time. In October, of the first year, the entire plant of the publishers was swapt away by the greatest conflagration known to history. Despite this reverse which would have put a quietus on an enterprise less spirited, both the plant and publication in a remarkably short time were on foot again, stronger and better than before. The book now contains nearly 700 pages and is the official organ of the travel-ing public. It is indispensable to business men and a valuable addition to any library. Ask your dealer for the Rand-McNally Railway Guide, or subscribe through the home office, 160 Adams street, Chicago.
