THE appointment of ex-Coursesman James B. Reilly as United States Marshall is looked upon by leading Democratic politicians in this county as removing that gentleman from the field, as a candidate for the Congressional nomination. This may be true; mevertheless Junies B. still has the Democratic organization under his thumb, and he will have considerable to say as to who will secure the nomination,

Or the dense forests that once sovered the greater part of this commonwealth we have harely twenty-five per cent, left. We ought to try to keep that and replace what has gone, so far as we can. That is the object of Arbor days which the Governor has Just set for the 10th and 21th of April. Let every? hody get ready to set out a few trees, not at Roosevelt hospital, only on Arbor days but whenever the opportunity presents itself.

In the light of recent events, it appears an expensive recruation to interfere with the barough police in the performance of their duties in arresting violators of the law. Notwithstanding the fact that the authorities resurrench only, there are some people who still believe they can do as they plusse, and annual the others of the law, but a bill of costs may be the means of changing their urlows in this memory.

And danks about the inkeronumess of Femilier's support of ex-Governor McKinley's camfidney for the Presidency have been removed by the opening speech of the Senatorelect before the Ohio Republican Convention yesterday. There was nothing perfunctory or half-hearted about it. It was open, frank, enthusiastic, and it almost touched the point of eloquence. The great apastle of protoc-tion can well feel proud of Foraker's landsfory remarks.

THERE was a unique political gathering in Pittsburg to-day, the object of which was the formation of a new party to include the Populists, Probibitionists, Coxeyites and other sa-called reformers. Think of the Coxovite with his beer can and the Prohibidionist with his cold water ideas consulting with each other with a view to the formation of a new political organization and afterward marching together in a political campaign The incongruity of the thought is most umusing. And yet this is the very purpose for which the conference is called the solidiying of these uncongenial elements into one homogeneous whole.

A National Senate Committee Wants Them Investigated.

WHOLESALE FRAUDS CHARGED.

The Majority of the Committee on Privileges and Elections Declares That Kolb Was Twice Elected Governor of That State and Twice "Counted Out."

WASHINGTON, March 11. - Senator Chandler, from the committee on privi-leges and elections, yesterday presented to the senate the views of the majority of the committee, consisting of the Republican members, recommending the adoption of Senator Allen's resolution providing for an investigation of the Alabama state and legislative election of 1892, when Thomas Jones, regular Democrat, was declared governor. The committee assert that this was "done by the wholesale falsification of the returns by the dishonest election of officers in pursuance of a great conspiracy doliberately organized long before the election for the purpose of changing the political complexion of the state in cuse it should appear that Kolb and his supporters and carried the state."

In 1864 Kolb was again a candidate for governor, with Oates as his opponent on the regular Democratic ticket. The report asserts that Kolb was elected at this time. as were a majority of the candidates for the legislature on the same ticket, but they were not given the offices on account of the fact that an enormously fletitious vote was returned. Fifteen countles are mentioned as giving returns of \$5,000 votes whereas only 15,000 were out, "Therefore Mr. Oates, instead of being elected by 27,-582 votes, was defeated by about 7,000 nm

The committee say the Kolb legislature was counted out in the same way, and that in both elections the fraudulent re-turns came mainly from the "black" counties; that Kolb and his ticket carried a majority of the "white" counties, and that the negroes failing to register, false poll lists were made and false returns made, and certified favorable to Kolb's

antagonists.
"The case," it is asserted, "Is not merely cal frauds, but the case made that of wilfully planned and deliberately manufactured masses of fraudulent returns based upon no votes whatever, but made to apparently defeat a state government which was actually chosen and to give apparent title to a state government defeated by the voters."

The committee say that the investiga-tion should be made and the facts made known. If the charges are well founded, the report says, it may be the duty of the senate to oust Mr. Morgan from his sent.
