W. R. ANDREWS, Secretaries.

COUNTY CONVENTION CALL.

Notice is hereby given to the delegates, who attended the last Republican County Convention, that in accordance with Rule 7, of the Republican rules of Schuylkill county, a convention will be held at Centennial Hall, Pottsville, on Saturday, April 4, 1900, at 10 a. m., for the purpose of electing two delegates and two alternates for the National Convention to be held at St. Louis, Mo., on June 18th, 1900; and also at the same time and place to elect delegates and alternates to represent the several representative districts of this county to the State Convention to be held at Harrisburg, Pa., on Wednesday, April 25th, 1900, in accordance with the rules.

Ashtabud, Pa., March 19th, 1900. 5-20-11

MAJOR FINNEY now realizes the advantages of controlling a newspaper when the other fellow wants to be a national delegate.

The Sunbury Item appeared on Saturday in an enlarged form, filled with interesting reading matter. The Item is forging to the front.

ANOTHER cold wave is predicted. Well, let it come. We can't prevent it, and it is perhaps better that we should not if we could.

THE hand shake will be an important feature in the present campaign. The most expert at the business will be the lucky candidate.

THE lives of between forty and fifty pupils of the Shamokin schools have been taken so far this school year by scarlet fever and diphtheria. The death rate is now on the decline.

HON. D. D. PHILLIPS is spoken of as a candidate for the Legislature in the Second district. If Dave consents to enter the canvass, that district is certain to go Republican.

MR. BRUMM wants to be national delegate. The Congressman also wants to succeed himself next fall. As a patron of the want column of a newspaper he would be a winning success.

SENATOR QUAY will very likely retain the chairmanship of the Republican State Committee. Both Senator Andrews and Frank Willing Leach are trusted lieutenants of the present State Chairman, and an aggressive campaign on their part for the position, in the opinion of the Junior Senator, "is premature and ill-advised." Mr. Quay has not yet resigned, and says he will not do so unless nominated at St. Louis as the Republican candidate for President.

THERE will be Quay boomers at St. Louis in large numbers. Arrangements are being conducted under the auspices of the anti-Combine Republican organization of Philadelphia, for escorting members of the Pennsylvania delegation to the Republican national convention who are favorable to Senator Quay to St. Louis. This escort will comprise Republicans of all the counties, and the party is expected to consist of between 300 and 400 men. They will go in a special train of Pullman cars, and Schuylkill county will be represented.

CUBAN DEBATE SUSPENDED.

The Resolutions Recommended to Conference on Senator Sherman's Motion.

WASHINGTON, March 24.—An unexpected climax to the Cuban debate was reached in the senate yesterday when, on motion of Mr. Sherman, chairman of the committee on foreign relations, the Cuban resolutions were recommitted to the conference committee. The vote to recommit was unanimous and without the formality of a roll call, representing a general consensus of opinion that the committee should so change the resolutions as to overcome the opposition that has developed. Messrs. Sherman, Morgan and Lodge were appointed to represent the senate in a further conference.

Simultaneous with this action Mr. Mills presented Cuban resolutions which propose to go further than has been suggested in any previous time. They direct the president to request Spain to grant local self government to Cuba, and in case Spain refuses the president is authorized to use the military and naval forces in taking possession of Cuba and holding it until self government is established by the Cuban people.

Mr. Platt also introduced resolutions limiting the action of congress to an expression of sympathy for Cuba's struggle and authorizing the president to extend the friendly offices of the United States toward securing a free and independent republican form of government.

The house spent most of the day considering the Curtis bill to abolish the death penalty in all cases where it is prescribed in the federal statutes (sixty in number) save in cases of murder and rape, where, however, the jury might qualify the verdict "without capital punishment." Among the crimes now punishable by death abolished by the bill are murder and robbery on the high seas, piracy, etc., on the high seas, destruction of vessels at sea, piracy, arson of vessels of war, etc. The bill failed to pass for want of a quorum.

FOR AN EIGHT HOUR DAY.

Important Conference of National Labor Leaders at Indianapolis.

INDIANAPOLIS, March 24.—The executive committee of the American Federation of Labor began its regular conference in this city yesterday. Those present were: President Gompers, Secretary August McCreath, P. J. McGuire of Philadelphia, James Duane of Baltimore, James O'Connell of Chicago and M. H. Garland of Pittsburg. The conference lasted until a late hour last evening, and was devoted chiefly to a discussion of the best means of bringing about an eight hour day.

A poll of those present showed a unanimous sentiment in favor of taking executive action at once, that the test question as to whether affiliated labor organizations of the country are capable of securing what they claim to be their rights in this particular. It was the sentiment that a concerted effort should be made, and in order to devise ways and means the matter was referred to a sub-committee, composed of Messrs. McGuire, Lennon and O'Connell, who will make a report this afternoon on the subject.

There are three national organizations—the carpenters, the iron ore workers and horse shoers—who have volunteered to do anything that the council may order to bring about the desired result. It was given out by Secretary McCreath that the Carpenters' National union probably will be selected to make the test, and when questioned he said that it not only was possible but probable that the council will order a strike of this union throughout the country. The secretary's report shows a marked increase in the federation's finances and membership, two charters having been issued so far this year to one during the same time last year.

Not to be Trifled With.
(From Cincinnati Gazette.)

Will people never learn that a "cold" is an accident to be dreaded, and that when it occurs treatment should be promptly applied? There is no knowing where the trouble will end; and while complete recovery is the rule, the exceptions are terribly frequent, and thousands upon thousands of fatal illnesses occur every year ushered in by a little injudicious exposure and seemingly trifling symptoms. Beyond this, there are to-day countless invalids who can trace their complaints to "colds," which at the time of occurrence gave no concern, and were therefore neglected.—When troubled with a cold use Chamberlain's Cough Remedy. It is prompt and effectual. 25 and 50 cent bottles for sale by Grubler Bros.' druggists.

Reducing the Naval Appropriation.
WASHINGTON, March 24.—The provision in the naval appropriation bill for three new dry docks to be built at Algiers, La. Mare Island, Cal., and Portsmouth, N. H., was reconsidered yesterday by the naval affairs committee of the house. The reason for this step is mainly found in the condition of the treasury. It also was decided to have one of the four new battle-ships and one of the torpedo boats built on the Pacific coast, another of the fifteen to be constructed on the Gulf of Mexico and another in the Mississippi river. The usual provision will be made, however, that the cost shall not be excessive.

All last winter Mr. Geo. A. Mills, of Lebanon, Conn., was badly afflicted with rheumatism. At times it was so severe that he could not stand up straight, but was drawn over on one side.
