BUNGLING EXECUTIONS FORTY THOUSAND.

WHO USE THE NEW PREPARA-Another Black Chapter in the TION FOR DYSPEPSIA AND Black History of Cuba.

A MOST SICKENING SPECTACLE THEY DO SO BECAUSE IT IS NOT A SECRET

Five Alleged Murderers, Four of Whom Stoutly Maintained Their Innocence 10 And Because They Know 15 Cures Every the Last, Slowly Strangted to Death Through Their Excentioners' Cowardice.

HAVANA, April 1 .- A startling exhibition of bungling in the execution by the garrote of five Cuban prisoners took place vesterilay. The men, classed as "mur-derers, violaters and insemilaries," belongderers, violators and incentificates," belong-ing to Cayajabo, were recently sentenced to be guirroted, and at 7 o'clock in the morning a strong force of infantry was drawn up in the form of a square around the spot where the garrote had been erected. The instrument of execution, a chair with a post behind it, which, when turned, attendes or beside the solid of the violation. rangles or breaks the neck of the victim,

was set up by the famous executioner, Valentifie Ruls, who, for some reason not fully explained, acted upon this occasion At the hour the troops were drawn up the five principal executioner. At the hour the troops were drawn up the five principal execution for an

geons, receiving the ministrations of the priests. One man confessed himself to be guilty of the crimes charged against him, and asserted that his companions were innocent, and the latter stoutly maintained their innocence to the last, prayed that their deaths might be avenged upon those who had falsely sent them to the scaffold, and then the whole party was escorted inside the square formed by the soldiers. The man selected to be the first victim

of the strangling machine quietly and coolly mounted the steps leading to the death chair, took his seat in an uncon-cerned manner, and actually seemed to stille as the cap was placed over his head after the iron collar had been adjusted. The man acting as executioner then twisted the lever or screw handle controll-ing the garroto, but he was evidently terribly nervous, and this rendered him so weak that his hands slipped repeatedly from the lever. There were horrible, smothering, choking cries from the scalfold, and it was only after a long period of agony for the condemned man, and almost torture for the spectators, that the Cuban

was pronounced dead. The excentioners, priests, soldiers and prison officials present turned their heads away in horror and became deadly pale. he stifled sounds came from the sufferer.

at this was only a beginning of the performance. The second victim was brought to the front and lod up the steps to the scaffold by the priests and assistant executioner. Upon reaching the platform the unfortunate man made an effort to say something to the people surrounding him, but the executioner's hand was placed over his mouth, he was hastily bundled into the deadly chair, and in an other moment the iron collar was around his neck, the cap was over his face and the first turns of the lever had been given. If the actual executioner was nervous upon the occasion of the first killing he was ten times more so upon this occasion. He fumbled and fumed alternately, turn-ing to a deathlike whiteness and flushing crimson with excitement. The result was more slow, fearful strangulation, and another horrible experience for the spectators. By this time the prison officials, the priests and the officers in command of the troops had endured so much that they openly denounced the acting executioner. and called upon him to get down from the scaffold and let another man take his place. Thereupon the acting executioner feverishly called upon the executioner in chief, Valentine Ruiz, who from long ex-perience is looked upon as being an ex-

pert in his line, to come and help him out of his difficulty. Ruiz, however, was almost as nervous and excited as his assistant, and fumbled badly as he handled the third Cuban. But Rulz succeeded in accomplishing the exe-cution in shorter time and with less horror than his assistant, which was a great relief to everybody.

fact, because the food being properly digested, it cannot lie for hours in the stomach, fermenting, decaying, filling the system with the germs of disease, but is assimilated, nourishing and invigorating not only the private. body and brain, but the stomach itself, as well. The tablets are absolutely barmless and

can be given and are given with benefit to little children and infants suffering from indigestion, as shown above they contain no mineral poisons, nor anything in any way injurious

Dr. Wuerth says he has noticed in many cases that the tablets not only cured the indigestion, but that a very noticeable increase of flash resulted where people who used the tablets were thin and run down in flesh before taking them, and it is not at all surprising that such should be the case when it remembered that most people are thin because their stomachs are out of order, and when perfect digestion is brought back an increase of flesh is the natural accompaniment

Within the last six months many thousand cases of atomach trouble and dyspepsia have been cured by Stuart's Dyspepsia Tablets and their convenience and popularity is such was to be Mrs. Booth Tucker did not and their convenience and popularity is such that druggists everywhere are now selling them. The price is 50 cents per package and if your druggist has not yet ordered them he will get them for you from his wholesaler; they are manufactured by Stuart Co., Marshall, Mich.

Your druggist if he is honest, will tell you that Stuart's Dyspepsia Tablets is the only preparation now before the public recomindigestion and stomach troubles, no other claims are made for it, it is not claimed to be a cure-all.

The fourth Cuban was then turned over to Ruiz for strangulation. By this time

Ruiz was shaking all over, and he was much slower and considerably clumster in sending the unhappy man out of the world, so much so that there was renewed murmuring at the official incapacity, and Ruiz stumbled away from the death post, insisting, in choking tones, that his as-**** sistant must finish the day's work.

Consequently the assistant executioner again tried his hand at the terrible screw, and was as unlucky as before, for there was another scene of horror which nearly caused strong men to faint before the fifth Cuban's life was pronounced extinct. And then the bodies were carted away,

AERON, O., April 1.- A crowd of fully 1,000 men and boys surrounded the city prison last night, and many threats were made against Anson B. Strong, the suspected murderer of the Stones at Tall-madge. The militia is still under arms at the armory, which adjoins the prison, and a force of police is ready for action. It is not believed, however, that an outbreak will occur. Strong continues to deny all knowledge of the crime.
