REPUBLICAN STATE CONVENTION.

To the Republican electors of Pennsylvania: The Republicans of Pennsylvania, by their duly chosen representatives, will meet in State convention Thursday, April 23, 1886, at 10 o'clock a. m., in the opera house, city of Harrisburg, for The purpose of nominating two candidates for he was but slightly injured. presented.

By order of the State Committee.

True Evening Telegram, of Ashland, is has our best wishes for continued success all of which it deserves.

An exclusinge says Senator Quay is prepar ing to withdraw from the contest as a candidate, and will support McKinley. We doubt the truth of the rumor; but if true, what will the Philadelphia Press and Pottsville the music Republican do? Whoever Quay is favorable An they are "fornisst."

, teachers of the state. The McKeesport next week, resuming on Monday. public school directors at a recent meeting adopted a motion the effect "that all teachers be required to undergo an examination regardless of their normal school diplomas; permanent or professional certificates." The question was referred to the Department of Public Instruction as to whether the Board had a right to adopt such a rule. In the opinion, Mr. Stewart says that "graduates of State Normal Schools hold a normal school certificate or diploma lawfully granted to them by the State Board of Examiners, which certificate, or diploma, exempts the holder from further examination in any of the branches named therein. The Deputy Superintendent declares that the action of the McKeesport Board, if carried into effect, will be regarded as an "unwarranted and Bros., drug store, arbitrary exercise of official authority."

This contest in the Republican ranks for the Presidential nomination is yet a doubtful quantity, no candidate yet being able to figure out a majority on the first ballot.

Some of the papers and managers appear to Mr. McLaus says that Pennsylvania miners he imbaed with the idea that the claim-everything-in-sight policy is going to land back until be secures the required number. their favorite, but in this they will find a serious stumbling block to the coveted prize he will try hard to get twenty of the best to be awarded at St. Louis. Whether the St. Leuis will be paid in the St. Nicholas and Gilberton convention, in its wisdom, nominates Me-districts to-day and in Mahanoy City district Kinley, Reed, Allison, Quay or Morton, or discards them all and selects a "dark horse, the Republican party will be successful in November. The most important work of the St. Louis convention is the making of the She platform. Protection and sound money is the 18th inst. what the people want, not so much the personnel of the ticket.

tons of our anthracite coal, the Philadelphia hours in a cell to sober up, Star thinks she should manifest a little more eracious disposition towards American meats. If, as alleged, there is market for the many millions of tons now, the presumption is the demand will increase year after year, and there will be like requests from other European countries.

While it is gratifying in one sense to learn that there is a reasonable prospect of securing such big customers, it becomes a subject for serious thought whether it is wise to encorrage a trade making such heavy demands upon our authencite coal resources. There are those, we know, who think the supply inexhaustible, or that there is enough to supply our own people for several laundred years to come. The same opinion used to be intertained in regard to our forests.

A man need not be very old to be able to recall the time when wood was regarded as a nulsance; when in nearly all the newly actiled portions of the country it was regarded rather as a nuisance than a blessing. How to got rid of it, was about as serious a question as how to get enough of it now, at anything

like reasonable prices. We have abundance of coal now, but the anthracite coal fields are of limited extent, and though there is no probability that the present or the next generation will be reminded by higher prices of a constantly in croming searchy, they will gain knowledge of the fact by the certain advance in prices. So many people have it that 'tis worth understanding, the more so as it is easy enough, if you begin right.

Liver secretes a fluid called bile. Bile goes to the intestines, where it performs important work digestion. Sometimes bile passages in liver get closed. This is billiousness.

'Pilliousness' is the idea that by taking a pill which stimulates the liver, we may cure billiousness. It is only an idea.

The German Chancellor's Visit to the French Capital

IS AROUSING GREAT INTEREST.

While His Business Is Ostensibly in Rein tion to Property Interests of His Wife, It Is Believed That It Is Really of Great Political Significance.

Pants, April 10.—The imperial German chanceller, Brince Hohenlohe, arrived here on Monday. His visit is said to be in con-nection with some property which his wife has inherited in France.

It will be remembered that the visit of the chanceller.

the chancellor to St. Petersburg at the time the agreement between Germany and Russia regarding the terms of settlement of the China Japanese war were taking farm was also said to be with a view to looking after his wife's interest in a Russian estate.

In view of the shifting course of politi-

cal events, and a general belief that a readjustment of European relations is just now going on, the visit of the German chancellor would be bound to give rise to much comment and all sorts of surmises But the mysterious manner of the visit and the fact that the presence of Prince Hohenlohe in the French capital should have been a profound secret from Monday until Thursday appeals to the public with an almost sensational interest.

The acquiesent attitude assumed by Ger-many towards the Nile expedition, manifested by her consent as one of the guaranteeing powers to the use of the Egyptian debt surplus for defraying its cost, was a profound disappointment to France. Germany's openly expressed antipathy to Great Britain and her bitter resentment of British aggression upon the Transvaal. as well as a desire manifested in several instances by the German government for more cordial relations with Russia has led France to count upon German opposi-tion to the British project for occupying

the upper Nile basin.

These hopes are appreciably revived by the publication of the news of Prince Hohenlobe's visit, and a hundred stories are affect that the chancellor comes on a po-The best salve in the world for cuts, bruises, sores, ulcors, salt rheum, fover sores, tetter, chapped hands, chilblains, corns, and all skin cruptions, and positively cures piles, or no pay required. OGDEN, Utah, April 10.—The number of men killed by the premature explosion in Ogden river canyon Wednesday evening, so far as known, is five. Moran William Kirkman, Nat Kempton, Jef Ruby and G. Weaver. Five were injured, some of whom are likely to die.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimendale, Mich., we are permitted to make this extract: "I have uo hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction she was brought down with Fueumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. Ministers Should Use Dr. Miles' Heart Cure.

PROHERE IS NO PROFESSION, whose labors so severely tax the nervous system, as that of the ministry. The derangement of the nerve centers of the brain by over work, frequently brings on attacks of heart trouble, and nervous prostration. Rev. J. P. Kester, M. D., Paster U.
