EVENUEVER Is not wanting to show that the National Social Club is an arganization of for cyclers to exercise their powers, which the fown can justly feel proud. The social features of the club are of a high order, and by furnishing a gymnusium that has few equals in the interior of the state for the development of physical culture and amusement to the members, it is an incentive that cannot fail to be productive of good. From the membership of the club Prof. S. I. Wood has secured twenty-eight members as students at his excellent college, the faculty of which is up to the standard of any college in the state. They contested with men from England, France, Germany, Austria, Greece and other countries, and won more than their share of the honors. It may not be possible to compare their work with that of the ancient Greeks, who won fame in the same arena, and so decide whether mankind has advanced or deteriorated in skill, strength and endurance as the centuries rolled away, but their performances were nurched with those of athletes from all the leading countries of civilization, and the Americans come out ahead. Coal Land Valuation Reduced.

The hearing in the Lehigh Coal and Navigation Company's appeal from the valuation of its Carbon county coal lands was concluded Saturday night by Judge Albright handing down a decree in which he reduces the valuation made by the County Commissioners from \$1,942,500 to \$1,195,000. The coal lands beretofore paid about 19 per cent, of the taxes. This has been increased to 24 per cent.
