Mining Institute and Lecture Association. To Mine Inspecters, Mine Superintendents, Mine Foremen, Fire Bosses, and miners generally :-

GENTLEMEN :- By resolution at last meetsupplies and start team work. We have a full line of Bats, Balls, Gioves, Belts, &c., in monshy resolved to urgently invite you to William Stein's office, Shenandoah, ou Wednesday next, April 22nd, 1806, at 7:50 p. m., for the purpose of permanently organizing the above Institute and push to a successful issue the work so well begun of the last few weeks. The result has been far

beyond our expectation and is very gratify-ing. It is desired that there be a large attendance from all parts of the county. Let there be no besitancy in attendance at these meetings. Let it be thoroughly understood such is not for the purpose of offering criteism upon any individ-

ual, but for the better informed to aid those less fortunate in arriving at general conclusions upon that most hazardous of duties-coal mining, and to be in tone and, keeping with the present age. The writers can, with all assurance, warrant for the gentlementhe most allent member of the institute-the most accurate courtesy and respect at all Novelties or Confirmation times. Remember we are in a progressive age, and let us not be behind the same. We must advance with it, or we shall have to give way to a superior ability. There are most assuredly forces at work in mining

science that will be a surprise to many in a very few years which a great number of

mining men can warrant you of. Hoping for a large attendance and in con clusion would say, this society is financially in good standing.

Respectfully yours, WILLIAM H. RICHARDS, Pres. WILLIAM HARDY, Sec'y Pro Tem.
