The Fatal Squall Which Sonk the Vessel Lasted Only a Minute, but in That Short Time Both Masts Were Snapped Off Close to the Deck.

NEW BEDFORD, Mass., April 20.-Nine Gloncester fishermen were lost off Long Islaud on Friday night, when the fishing schooner J. W. Campbell, of Gloucester, was sunk in a squall The seven survivors arrived here last night to tell the story. They were brought into port by the tug Gladiator, from the schooner Norman, which picked them up after they had spent an entire night and day in an open boat without food.

Without food. The lost are Captain Robert Smith, John McGuira, Frank Sylvia, Thomas Rogers, George Ela, William McAllister, Abel McCormy, George Graham and Charles Doherty, all of Gloucester. The sinking of the Campbell was re-markable in several respects. The fatal

The es-cape seemed but a trick of fate.

When the squall struck her the vessel careened under the terrible blow, and all realized that their lives were in danger. Seven of the sixteen sailors quickly clambered up the masts. No sooner had they done so than a second and far more pow-erful gust of wind saized the craft and seemed to lift it bodily out of the sea. Then, as if in a mighty grasp, the vessel was wrenched and given a sudden twist with such violence that the masts snapped off even with the deck, like toothpicks, and were hurled far away from the reach of the vortex made by the ship as she fell back into the water and sank like a piece of lead.

### For International Arbitration

ROCHESTER, N. Y., April 20.-The me-morial to President Cleveland recently ompiled by a committee representing the New York State Bar association, praying for the establishment of an international court of arbitration, has been indorsed by the association and will be presented to the president by the committee tomorrow at Washington. In this petition it is urged that this court consist of nine men capable of settling diplomatic difficulties in a judicial manner. After this court was established other nations would avail themselves of the opportunity to do away with the horrors of war. The memorial is a model of rhetorical composition, and will be gotten up in attractive form.

## A WOMAN'S SUFFERING. Interesting Experience of Mrs. Louisbury, of Olympia, Washington.

Of such a character is the experience of Mrs. E. L. Louisbury of Olympia, in far off Washington, who now reides at No. 111 Maple Park, in that city.

Mrs.Lounsbury's trouble was an aggravated ase of stomach trouble. She says: I was very weak, could not sit up in bed more than an hour at a time, no appetite, cating the juice of rare beef. My husband would have to read to me until two or three o'clock in the morning before sleep would come, my heart was weak and troublesome, gas would collect in my stomach so that a number of times during the day I would become almost help-

Temporary Relief for the Inhabitants of Buluwayo.

MAY CUT OFF THE FOOD SUPPLY

It is Now Feared That the Savages Have Gone to Join Forces with Another Baud and Close Up the Roads-Misleading Reports in London.

BULUWAYO, April 20.-So far as the sit-uation is improved here over that of Saturday is due to the departure of the enemy, which has been massed to the north of the town for several days, and from which an attack had been almost hourly expected.

This movement, however, brings little comfort to those in Buluwayo. The excited manner in which the natives quitted their positions indicated a confident purpose of mischief. There is no evidence that they were alarmed Friday at the demonstra-tion of the patrol of forty-two men from Buluwayo against their vanguard. Al-though this vanguard was driven back upon the main body, the patrol did not dare to place itself within reach of the overwhelming numbers of the main body. The direction taken by this body of hos-tile natives after quitting the position to the north has not been learned. But it is feared that the purpose of the movement is to try and effect a junction with the rebels in the Matoppo Hills, and thus sever communications to the southward. The road runs through the Matoopo Hills to the south of Buluwayo, and this is a difficult and dangerous one for fifty miles from here, at which distance the road reaches the Mangwe pass. This angular and precipitous defile, it is said, must be It is of such a character that it can held well be made impregnable against the attacks of native warriors, but for the same reason, if allowed to get into the hands of the natives, it would be difficult to dis-lodge them with any force at present available. To leave this pass to the enemy would effectually cut off the intercours of Buluwayo with the outside world.

MISLEADING REPORTS.

British South Africa Company Officers Not

Alarmed Regarding Buluwayo. LONDON, April 20.-The officers of the Chartered South Africa company here are persistently representing that the situa-tion at Buluwayo is not assorious as represented in non-official dispatches, and that the town is not in any real danger. The Chartered company today announced that confident that he officials of Buluwayo are confident that they can hold the town, and that the town of Sallsbury is also safe, and is organizing its defense forces. All of the non-official dispatches from South Africa reflect a contrary tone and continues to represent the situation at Buluwayo as alarming and the condition of affairs throughout Matabeleas growing more and more threatening. Elaborate precautions for defense, indicating a mo-mentary fear of overwhelming attack, are reported from Buluwayo, and grave ap-prehousions exist there that communications with the settlements to the south will be cut off. The supply of provisions is diminishing in Buluwayo in a con-stantly increasing ratio, owing to the large number of refugees and, what is much more serious, doubtful natives that are coming in. The dread is abroad among all the white inhabitants that these na tives are hostile Matabele coming in un der the disguise of friendlies, but medi tating a treacherous outbreak in co-opera-tion with an attack from without.
