THE MONEY ISSUE.

The Republican party is in favor of honest money, and at each of the four state conventions held this week the expressions on the currency question show the party to be committed to a sound money basis.

The platform adopted by the convention at Harrisburg yesterday is alive with Americanism, and upon the financial question it speaks as follows:

"The Republican party has always maintained the National honor and credit. It enforced the resumption of specie payments. It keeps faith as to every debt contracted for the preservation of the Union and has paid the greater part of it in accordance with the spirit and the letter of the laws under which it has been contracted.

"We are unalterably opposed to the issue of unsecured paper currency, either by the government or the banks; to the free coinage of silver, at any rate, and favor a single standard of value, and that standard gold.

"We believe that this policy, with a sound and stable currency upon a gold basis, will furnish sufficient revenue to meet all requirements of the government and properly support it."

"The Republicans of Maryland, fresh from a grand victory in a state that has been controlled by the Democracy for over thirty years, pronounce themselves adherents to the gold standard in these words:

"We believe in the gold standard upon which to base our circulating medium and are opposed to the free and unlimited coinage of silver until an international agreement of the important commercial countries of the world shall give silver a larger use."

"The Southern Democracy has on several occasions declared themselves apostles of the free silver theory, but the Tennessee Republicans are not tainted with such poison. In their platform they declare:

"We are unalterably opposed to any scheme that will give to this country a depreciated and debased currency. We favor the use of silver as a currency, but to the extent only that its parity with gold will be maintained, and in consequence are opposed to a free and unlimited and independent coinage of silver at a rate of 16 to 1. We believe that every American dollar should be an honest one, limited cost dollar always and everywhere."

"It is now quite apparent that the free coinage issue cannot capture the St. Louis convention, while the Democrats are reasonably certain to endorse that dogma in their national platform. The expressions on the currency question from different sections of the country show conclusively the trend of Republican sentiment. The party stands solidly for the best interests of the country on the two most vital issues now before the people—protection and sound money."

THE Odd Fellows of Mahanoy City are making great preparations to receive the large crowds expected in that town tomorrow. The business places and private dwellings are being gayly decorated, and many arches are being erected in different parts of the town. The Odd Fellows never do things by halves, and the celebration tomorrow will be worthy of the occasion.

THE Philadelphia Times, one of the leading Democratic papers of the state, suggests a way out of a serious dilemma confronting that party. The Democracy has been searching for a presidential candidate, and failing so far to find one, the Times suggests they nominate J. Donald Cameron. Editor McClure says "he is the strongest cheap-money man in the country;" that "he is a Democrat by birth and long cherished convictions," and "he has absolutely severed his relations with the Republican party."

JOURNALISTIC enterprises is commendable, and the exigencies of the times demand the exercise of every faculty in the publication of the daily press. It is claimed that a New York Sunday newspaper paid \$7,500 for Murderer (Holmes) confession, while the amount paid by the Philadelphia Inquirer, the only daily in that city publishing the alleged confession, is not given.

New York Fashion Notes.

Fancy waists are again very popular for spring and summer wear. They are many times made in the style of Louis XIV and Louis XVI. Such waists are very elegant, made of brocade or satin with lace jabot or ruffles and with handsome waistcoats.

Other fancy waists have an added cross skirt in gored to imitate the style of the court. Some of the fancies of the summer season are entire waists of embroidered batiste and open work linen, mousseline de soie, netties in chiffon, etc. Many of these waists are made with flowered tulle sleeves.

The new sleeves are smaller, drooping or trimmed with ruffles and puffs. A fancy of the season is to wear a handsome bodice of black satin with a light skirt. Very elaborate evening waists are seen made of the new jetted nets, draped over handsome pompadour tulle.

The favorite colors of the spring are tones of green, heliotrope, light brown and gray. Easter costumes of light gray and green are very popular.

All new French skirts are decidedly smaller, the average width being five and a half yards, many of them being even less than five. The front and sides have an easy fullness, with the gathers or pleats clustered in the back.

Another distinguishing feature of the new spring costumes are fascinating silk linings in bright colors, from the cheapest taffeta to the most expensive brocade.

At many of the spring exhibitions of gowns, the new capes attract the most attention on account of the richness of material and the novelties in combination of color.

The necks have elaborate ruffles, collarettes of mousseline de soie, lace ribbons, flowers and jets.

The McDowell Fashion Magazine at hand contain many new ideas of great value to both professional and amateur dressmakers. If you are unable to procure either of these journals from your newsdealer do not take any substitute, but apply by mail to Messrs. A. McDowell & Co., 3 West 14th street, New York.

Thus working on her feelings, the story goes, he will beg for forgiveness, and should he win her over, perhaps induce her to plead for his life. IN SENATE AND HOUSE. General McClellan's Son Denounces the General Pension Bill.

WASHINGTON, April 21.—Yesterday in the house was continued in further debate of Mr. Dieker's general pension bill. The Democrats as a rule refrained from participation in the debate, although Mr. McClellan, of New York, a son of General George B. McClellan, made a vigorous speech in opposition to the bill, and in denunciation of the administration of the pension office. He argued that the bill would put on the rolls bounty jumpers, deserters from the Confederate army and other unmeritorious persons.

A resolution was presented in the house by Representative Shuford, of North Carolina, providing for the appointment of a committee of five to investigate the "extent to which federal patronage is being used to defeat the aims of good government, control legislation and corrupt the public service."

After the senate had spent most of the day on a proposed reform of conditions in the Indian Territory, the presiding officer ruled out the entire subject on the ground that it was general legislation. The Indian appropriation bill, carrying \$1,000,000, was passed the close of the day. In view of Utah's entry to statehood, Mr. Brown of that state secured the passage of bills appropriating \$500,000 for a public building at Salt Lake City and \$183,000 for a similar building at Ogden.

Burglars Loot a Parsonage. WASHINGTON, April 21.—During the night burglars looted the house of the Rev. Richard Lewis Howell, pastor of St. Margaret's Episcopal church, and carried away about \$1,000 worth of silverware. Mr. Howell's home is on New Hampshire avenue, in the most fashionable part of the city. The work evidently was done by professionals, and perhaps by the same gang which last year robbed the Brazilian minister, ex-Minister to Spain Curry and others. The family was not awakened by the thieves, to whose identity there is no clew. The plunder was carried away in a bag made from one of the parlor sofa cushions.

During the winter of 1893, F. M. Martin, of Long Beach, West Va., contracted a severe cold which left him with a cough. When troubled with a cough or cold use this remedy and you will not find it necessary to try several kinds before you get relief. Ministers Should Use Dr. Miles' Heart Cure.

THERE IS NO PROFESSION, whose labors so severely tax the nervous system, as that of the ministry. The derangement of the nerve centers of the brain by over work, frequently brings on attacks of heart trouble, and nervous prostration.

Dr. Miles' Heart Cure Restores Health.....

That it seemed certain I must relinquish the work of the ministry entirely. Heart palpitation became so bad that my auditors would ask me if I did not have heart disease. Last November I commenced taking Dr. Miles' New Heart Cure alternately with Dr. Miles' Nerveine and derived the greatest possible benefit.
