REPUBLICAN STATE TICKET.

FOR CONGRESSMAN-AT-LARGE, GALUSHA A. GROW. Of Susquehauna. SAMUEL A. DAVENPORT.

THERE is no longer doubt about Booth-Tucker being an American citizen. He has been confined between the four walls of a New York police station, and bailed out by Steve Brodie, B. J.

It is its business to do that work well. If it does that work ably and conscientiously, that fact will be patent to every reader. This is applicable to at least one county seat daily, whose refersense to itself has become nauscating to its

IF every homscholder in the land would persistently refuse to feed or hurbor the weary wanderer type of humanity; the vexing tramp problem would be a long way toward solution. And to this a wood yard or stone pile in every borough for the entertainment of these gentry, and the unending story of robbery, murder and worse crimes would be greatly curtailed. Don't feed the training.

Mg. Robert E. Pattroox, gentleman, is now a full-flalged candidate for the Denie cratic nomination. As a matter of state pride we would be pleased to see Pennyslvania secure the honor-even if it is no empty one. It is true he would have no much chance for election as any other Democrat; but this being a Republican year, the numinee of the St. Louis convention will occupy the White House for the next four years.

### THE CANVASS.

The ante-convention canvass within Renublican lines reached a critical point yesterday, when the state Republican convention of Illinois advanced the chances of McKinley to the border lines of certainty. The result in Illinois, which state has, or rather had, a candidate of its own in the person of Senator Callom, was looked upon by the leaders as an important factor in the ante-convention canvass; the opponents of McKinley, as well as the supporters of the Napoleon of Protection, had their doutenants on the ground at Springfield, and the munitious of war were brought into play with more or less effect.

There is no denying the fact that the political skies look very bright for Majer McKinley. He has gained a big advantage by the defeat of Callom in the latter's own state, and McKinley "ready-reckoners" and managers will take advantage of whatever 's to be mined from the result in Illiwois. But, however, we are still of the opinion that McKinley will not be nominated at St Louis We are led to this belief from many ranses, chief among which is the fact that among the delegates from Illinois are strong anti-McKinley men, three of the four being

Despite his apparent victory in what was considered a turning point in the fortunes of the various aspirants for the Presidential nomination, the real work in the contest will not begin until the leaders have gone over the field at St. Louis.

We are willing to give McKinley every advantage he has gained: yet despite the assertion of some of his supporters, his position is by no means certain. When the delegates reach St. Louis, and a preliminary canvass reveals the accurate strength of the candidates, then, and not till then, will the real contest begin. The number of contested delegations will break all former records, and their settlement is likely to be against the Ohloan. There are many loopholes in the pledges of delegates, especially in the Southern states. The latter are easily peraded at times, and if it can be shown that McKinley cannot be nominated they will follow the leader like so many sheep.

While the leaders against McKinley as semble in secret concluve at St. Louis, to reason together with those delegates who are not fronclad for McKinbey, the exact strength of the latter will be known and not till then. It is well known that McKinley's Ohio supporters are anything but enthusiastic; the Forsker people do not want McKinley for President, and are keeping careful watch of

HAMILTON DISSION DEAD.

The Well Known Manufacturer Found in

This passic who want to get fit should ston, the well known political leader and heatness man, was found dead by his wife yesterday morning in a spare room of the Disston mansion, at the northeost corner of Broad and Jofferson streets. On Wednesday he was apparently in fair heatith, although he had not regained the vigor supped by an attack of typhoid phaumonia last year. He was moreover, in very good spirts, and no apprehension of any serious liness was felt, and the possibility of sudden death was not even throught of.

On Thosday, when he visited his down town office in the Bullitz helding.

illness was felt, and the possibility of sud-den death was not even thaught of. On Thosday, when he visited his down town office, in the Bullitt building, he complained of a sense of fatigue and some pain in the region of the heart, but attrib-uted both to an unusual press of duties. During that day he communicated with his office, by 'phone, and on Wednesday fulfilled an out of town engagement, returning during the afternoon. Wednesday night he and his wife went to the theater, and after the play dined with Mayor and Mrs. Warwick at the Bellevue. Upon their return he went to bed in one of the their return he went to bod in one of the spare rooms of the house. Yesterday morning E. F. Steek, his private secretary, called at the house, and Mrs. Disston, accompanied by Mr. Steek, went to his room, and found him dead. A physician who was summoned declared he had been dead for three hours, and gave the cause as heart disease.

Hamilton Disston was a son of Henry Disston, who was the largest manufacturer of saws and files in the United States. Since the death of Henry Disston the business has been carried on by his four sons

The South Dakota Cyclone,

St. Paul, May I.—Latest reports show that the South Dakota cyclone, meager reports of which came in on Tuesday night, struck between Fargo and Spencer, and for eighteen miles laid waste every-thing in its path. In its track, which was in places a mile wide, destruction was in places a mile wide, destruction was complete. Not a vestige of any living thing was left. Sixteen miles northeast of Mitchell the little town of Epiphany was located, but nothing remains to Indicate that it ever existed. Here fifteen peo-ple are seriously injured, several family. Among the victims who cannot recover William Kroeger, Miss Gibson and Mrs. Gilzer.

The Fireman Was Eilled.

Washington, Pa., May 1.—The Balti-more and Ohio "cannon ball" express was wrecked at Vanor's Station, three miles wrecked at Vanco's Station, three miles east, yesterday. Fireman Flaherty, of Grafton, W. Va., 20 years old, was killed. Engineer William McBurney, of Glenwood, was badly bruised about the head and shoulder. Baggagemaster Neeley was elightly injured. The accident was caused by the breaking of the front axis under the engine while running at full

Urging Local Autonomy for Cuba. Manaro, May 1.—Senor Labra, deputy for Cuba, speaking at Seville, declared that Spain's natural policy was an alli-ance with France against America. The Cuban war, he said, if prolonged, meant ruin for Spain, and there would be re-newed struggles unless reforms for Cuba were conceded. Local autonomy, he said, was indispensible.

### JACKSON ON THE STAND.

Pearl Bryan's Alleged Murderer Contradicts All the Witnesses.

Newbout, Ky., May 1.—Only one witness was examined in the Jackson trial yesterday, and he was Scott Jackson himself. All forenoon and afternoon, with very little questioning, he told how he did not murder Pearl Bryan and how Walling must have done the whole thing himself. His statement admitted his partnership in the scheme that brought Pearl Bryan to Cincinnati for an unlawful purpose, and also an active complicity with Walling in dropping the murdered girl's clothing into the Ohio river. His a tempt te ing into the Ohio river. His a tempt to explain why he was active in finling the girl's clothing is looked upon by man; at-terneys astame. The main surpose of the defense to prove an alibit by Scott Jackson will be supported, if possible, by the testimony of other witne

Jackson stated that he did not know Pearl Bryan was in Cincinnati till Tuesday, Jan. 28, when he received a note from her at the dental college inviting him to visit her. All the testimony of the wit-nesses, Mrs. Weeks, the spiritualist medium, Mr. Pinkard, who saw him and Mailing with Pearl Bryan on College street the day before the murder, and of Foortmeyer, who saw him in Kentucky with the girl shortly before the murder, he emphatically branded as untrue.

He admits taking Pearl Bryan to Wal-lingford's saloon, in the "tenderloin" distriet but says it was on Tuesday night, Jan. 28, instead of Friday, Jan. 31, the night before the murder, as testified by Wallingford. He said Walling agreed to refleve the girl secretly, and when all was over and she was fit to be returned home would turn her over to the witness. He says he took her valise, the one afterward found stained inside with blood, carried it to his room on Tuesday afternoon, tried to return it on Wednesday, but could not find Wailing, to whom he intended to

Jackson said that on Saturday night of Jackson said that on Saturday night of the day the body was found he and Wall-ing dropped some clothing into the river which Walling, without further explana-tion, told him was unsafe to keep in their room. When he made inquiry about the matter Walling told him to ask no ques-tions. His explanation of his shifting that valles around was very awkward. When called upon to explain why he participated in hiding Poarl Beyan's clothing he said he was actuated by fear that the part be had taken to bring her here to save Will Wood might implicate him.

Murder and Attempted Suicide,

NEW YORK, May 1.—Murder and at-tempted suicide are the charges against William H. Loftus, who, with his wife and baby, were found in their home at East Tremont yesterday. The child is dead from inhaling liluminating gas, and its mother and father are lying at the point of death from the same cause. Loftus is 24 years old, and had been in the amploy of the Gorham Manufacturing company. In his room silvorware and plush covers probably worth \$2,000, were found. These articles were identified as belonging to the Gorham company. The police believe that Loftus, fearing discovery, after a recent discharge, determined upon double mur-

How to Treat a Wife.

(From Pacific Health Journal.) First, get a wife; second, be patient. You may have great trials and perplexities in your business, but do not therefore, carry to your home a cloudy or contracted brow. Your wife may have trials, which, though of less magnitude, may be hard for her to bear. A kind word, a tender look, will do wonders in chasing from her brow all clouds of gloom.—To this we would add, always keep a bottle of Chamberlain's Cough Remedy in the house. It is the best and is sure to be needed sooner or later. Your wife will then know that you really care for her and wish to protect her health. For sale by Gruhler Bros., druggists.

End of the Seal Fishing Season.

St. John's, N. F., May 1.—This year's seal fishery closed yesterday with the re-turn of the steamer Aurora from the loc fields. She encountered frightful weather and scoured the whole of the North Atlantic for a fortnight, trying to force through the ice and reach home. The total catch of soals is 907,000, which is considered very good, although damages to the fleet will absorb much of the profit.

Mr. D. P. Davis, a prominent liveryman and merchant of Goshen, Va., has this to say on the subject of rheumatism: "I take pleasure in recommending Chamberlain's Pain Balm for rhoumatism, as I know from personal experience that it will do all that is claimed for it. A year ago this spring my rother was laid up in bed with inflammatory beurantism and suffered intensely. Coming Event, May 30 .- Ice cream festival under the THE BANKRUPTCY BILL

An Agreement to Take the Final Vote

Tomorrow Alternoon, Washington, May 1.—The general debate on the bankrupacy bill was couldnud and concluded in the house yesterday. Today the bill is open to amendment under the five minute rule, and the final yote will be taken at 4 o'clock tomorrow. The friends of the measure are very san-grine that it will pass by a safe majority. Mr. Halley, of Texas, gave notice that he would offer as a substitute his voluntary bankruptey bill. The surprise of the day was the announcement of Mr. Culberson, of Texas, ex-chalrman of the judiciary or Texas, exchairman of the judiciary committee, who has always herstofore fought every bankruptcy bill containing an involuntary system, that he would yote for the pending measure.

The senate spent another day on the naval appropriation bill without completing it. Mr. Gorman further opposed the item of four battlebbes are perfectly as the content of the content

of four battleships, and expressed the opinion that the appropriations already made would consume the balance in the treasury. A determination of the num-ber of battleships has not yet been reached. Mr. Chandler has proposed substitut-ing thirty large and fast torpedo gunboats for two of the battleships. Mr. White, of California, spoke of the need of coast defenses before further naval vessels were built, and Mr. Allen, of Nebraska, made a speech of over three hours arraigning the two old parties.

Over Seven Thousand Killed at Oorfa. NEW YORK, May 1.-The following re port of the relief work at Corfa has just seen received by the national Armenian relief committee: "The hospital which we have opened is in a house of four rooms that has been newly built, with good carpentry, glass windows, etc. Our patients are doing well. But only a small part of those who apply can be received. Our committee this week learned of a family of forty-one members, belonging to seven brothers, of which every member was wiped out. It is now clear that 7,000, if not 8,000, were killed in Oorfa."
